**1 Disclosure of Personal and Prejudicial Interests**

No disclosures of interest were received.

**2 Prohibition of Whipped Votes and Declaration of Party Whips**

No declarations were made.

**3 Minutes of Previous Meeting(s)**

Panel agreed the Minutes of the meeting on 24 October 2023 as an accurate record of the meeting.

**4 Public Question Time**

No questions were received.

## **5 Performance Monitoring (including session on qualitative auditing)**

Julie Davies, Head of Child and Family Services gave an overview of performance for September 2023. Kathryn Sillman, Peripatetic Manager briefed the Panel on how qualitative auditing works and areas being focussed on currently within the Directorate.

### Discussion Points:

- Panel discussed how qualitative auditing is basically looking at the processes and techniques being used to make sure they are working in the best way possible. Informed the Directorate looks at work across the board and the Academy is part of this.
- Panel feels satisfied from the performance report that things looked reasonably settled.
- Panel aware Welsh Government is planning to move away from the current computer system.

### Actions:

- Panel to receive further information on new computer system.

## **6 Update on Child and Family Improvement Programme**

Julie Davies, Head of Child and Family Services and Linzi Margetson, Principal Officer Safeguarding, Quality and Performance attended for this item and answered the Panel's questions.

### Discussion Points:

- In relation to Residential Care, Panel believes the Service is still struggling to find appropriate properties to purchase and modify and queried current capacity and if the Council is still having to send children out of county to get appropriate accommodation. Informed the Service is seeing an increase in numbers of children in residential care, partly linked to insufficient foster care placements available. Currently have four in-house beds, looking to increase to 15 over next three years.
- Panel asked Cabinet Members / officers to take back to staff its thoughts and gratitude for the work they have done - very pleased with performance within the Department and look forward to it continuing for the next 12 months and thereafter.
- Panel requested an update on the current position with recruitment and agency staffing. Informed recruitment of social workers continues to be a challenge. The Service has continued to expand the alternatively qualified workforce. There are currently five agency social workers across the Service, which is low compared to other Local Authorities. Department successful recruiting into the Council's social work academy with 11 newly qualified social workers currently.

## **7 Update on 'Contextual Missing Exploited & Trafficked (CMET)'**

Kelli Richards, Principal Officer attended to brief the Panel including an overview of the CMET Team, a summary of recent developments and progress and examples of activity undertaken.

Discussion Points:

- Panel very impressed with the Team's commitment and hard work.
- Heard from Cabinet Members how proud they are that the Team was highly commended in Wales Safer Communities Awards 2023 for its progressive and innovative work.
- Panel queried how often the 'pop up' youth club in Mayhill is held and what happens the rest of the time. Heard Mayhill is held once a week but there are five Local Authority youth clubs altogether, all held on different nights in different areas. There are also a few independent youth clubs running in the area.

## **8 Work Plan 2023-24**

Panel considered the work plan and noted items for the next meeting.

**cc Cabinet Members**

**Summary:** This is a letter from the Child and Family Services Scrutiny Performance Panel to the relevant Cabinet Members following the meeting of the Panel on 5 December 2023. It covers Performance Monitoring, Improvement Programme and CMET. A formal written response is required.

Dear Cllr Gibbard and Cllr Gwilliam

The Panel met on 5 December 2023 to discuss the Performance Monitoring Report for September 2023 including a briefing on qualitative auditing, and to receive an update on the Child and Family Improvement Programme. The Panel was also briefed on 'Contextual Missing Exploited and Trafficked' (CMET).

We would like to thank you both, Julie Davies, Kathryn Sillman, Linzi Margetson and Kelli Richards for attending to present the items and answer the Panel's questions. We appreciate your engagement and input.

We are writing to you to reflect on what we learned from the discussion, share the views of the Panel, and, where necessary, raise any issues or recommendations for your consideration and response.

### **Performance Monitoring**

We received an overview of performance for September 2023 and were briefed on how qualitative auditing works and the areas being focused on currently within the Directorate.

**OVERVIEW & SCRUTINY / TROSOLWG A CHRAFFU**  
**SWANSEA COUNCIL / CYNGOR ABERTAWE**  
GUILDHALL, SWANSEA, SA1 4PE / NEUADD Y DDINAS, ABERTAWE, SA1 4PE  
[www.swansea.gov.uk](http://www.swansea.gov.uk) / [www.abertawe.gov.uk](http://www.abertawe.gov.uk)

We discussed how qualitative auditing is looking at the processes and techniques being used to make sure they are working in the best way possible, and also the importance of training. We queried if the Academy is being brought into it and were informed the Directorate looks at work across the board and the Academy is part of this. We feel satisfied from the performance report that things looked reasonably settled.

We discussed how Welsh Government is planning to move away from the current computer system, Welsh Community Care Information System (WCCIS). Cllr Gibbard confirmed it is currently in the engagement phase and agreed to look into the benefits, timeline etc of the new system and report back to the Panel.

### **Child and Family Improvement Programme**

We received an update on the Improvement Programme from officers. In relation to Residential Care, we believe the Service is still struggling to find appropriate properties to purchase and modify. We queried the current capacity and if the Council is still having to send children out of county to get appropriate accommodation. We were informed the Service is seeing an increase in numbers of children in residential care, partly linked to insufficient foster care placements available, however, officers hope the position will improve over the next few months. We heard there are currently four in-house beds, and you are looking to increase this to 15 over the next three years, but this depends on identifying properties in the right place and right condition. We noted that alternative ways are being looked at to achieve this.

Regarding Section 4.2 Staff Reward and Recognition, we feel this is an important section of the report and it is an opportune time of year to ask Cabinet Members and officers to take back to staff the Panel's thoughts and gratitude for the work they have done. We are very pleased with the performance within the Department and look forward to it continuing for the next 12 months and thereafter.

Regarding Section 4.4 Recruitment and Agency Staffing, we requested an update on the current position. We were informed that recruitment of social workers continues to be a challenge. However, the Service has continued to expand the alternatively qualified workforce, which is good news in terms of people being on the pathway to become qualified social workers through that route. We noted there are currently five agency social workers across the Service, which is low compared to other Local Authorities. We were pleased to hear that an area where the Department has been successful is recruitment into the Council's social work Academy for newly qualified social workers, with 11 newly qualified social workers currently in the Academy. We are very impressed with the Academy set up.

### **Contextual Missing Exploited and Trafficked (CMET)**

We received a briefing from officers including an overview of the CMET Team, a summary of recent developments and progress and examples of activity undertaken.

We queried how often the 'pop up' youth club in Mayhill is held and what happens for the rest of the time. We heard the Team now has a blended approach. We also heard that Mayhill is held once a week but there are five Local Authority youth clubs

altogether, all held on different nights in different areas, and the hours staff work in them has increased. We noted that on the other nights, youth workers go out and about in the community to the places young people spend time and that not all young people want to go to a youth club. We were informed there are also a few independent youth clubs running in the area.

We are very impressed with the CMET Team's commitment and hard work.

We heard from Cabinet Members how proud they are that the Team was highly commended in Wales Safer Communities Awards 2023 for its progressive and innovative work. We agree this is a great achievement.

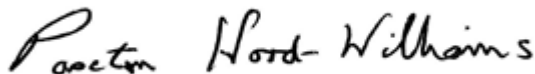

### **Your Response**

We hope that you find the contents of this letter helpful and would welcome comments on any of the issues raised within. Specifically, we would appreciate information, as described in the letter, about:

- The new computer system proposed by Welsh Government.

Please provide your response to this, and any other comments about our letter by 18 January 2024. We will then publish both letters in the agenda of the next available Panel meeting.

Yours sincerely

Dear Cllr Paxton Hood-Williams

**RE: Child and Family Services Scrutiny.**

Thank you for your letter following the Child and Family Services Scrutiny Performance Panel held on 5<sup>th</sup> December 2023.

The Panel's views, reflections and acknowledgements of the work Child and Family Services staff over the last year, as reflected in the performance monitoring report, are very much appreciated. We are equally pleased as the panel with the department's continued progress with recruiting and retaining qualified social workers along with expanding the workforce through alternatively qualified support staff.

The impact of the CMET team in keeping young people safe across Swansea, along with the blended approach to youth work now engaging more young people in positive activities, is something that we are particularly proud of. Swansea is being recognized across Wales and also the UK in its innovative and creative approaches to contextual safeguarding, with the recent award of grant from the Youth Endowment Fund testament to the strength of our approach.

With regard to the panel's request for information about the new computer system proposed by Welsh Government, officers have advised that once there is further clarity on the plan and next steps from Welsh Government, an update report will be brought to a future panel meeting.

We hope this response sufficiently answers the query raised by panel.

**PAGE 2**

I hope this response is helpful in providing additional information and context to the issues raised by Panel.

#### 1. Background

- 1.1 The role of the Corporate Parent for looked after children is arguably the most important role of a Council. All Local Authorities have a legal and moral duty to provide the level of support, care and protection any good parent would give to their children. This includes promoting their health, education, social and emotional needs. The term 'Corporate Parent' recognises that meeting the diverse needs of these young people requires co-operation between Council service areas and other organisations, such as health, education, the police, and partner agencies.

- 1.2 Corporate parenting responsibilities fall to everyone across the council not just the Corporate Parenting Board. To support a stronger approach to corporate parenting, Welsh Government have aspirations to expand this duty across the wider public sector. The Corporate Parenting Board take seriously the needs of those children and young people and the impact of any decisions that they (young people) and the council make. Councillors may have opportunities to do this through their Corporate Parenting Board or Cabinet roles, or as part of their Scrutiny responsibilities.
- 1.3 Welsh Government launched their Corporate Parenting Charter in September 2023. Welsh Ministers and Welsh Government signed up to the Charter, setting the precedent for all public bodies across Wales as well as private sector organisations. The Charter, sets out 11 principles on equality, eradicating stigma, working together, inclusive support, fulfilling ambitions, nurturing, good health, a stable home, education, thriving in the future, after care support. Swansea Council was one of the first authorities to sign up to the Charter, giving our commitment to safeguarding and promoting the rights and life chances of care-experienced children and young people in Swansea.
- 1.4 As of the end of November 2023, there were 479 looked after children, with 9 of these being unaccompanied asylum seeking children. 88% of these children were living with foster carer (156 in-house, and 69 with an Independent Fostering Agency) 160 with a kinship carer, 11 placed for adoption and 21 placed with their parent (where there is a plan for reunification). There were 487 care leavers (113 aged 15 – 18 years, and 374 aged 18 – 25 years). 21 of the care leavers were previously unaccompanied asylum seeking children.

## **2. Our Corporate Parenting Pledges**

- 2.1 In order to fulfil our Corporate Parenting responsibilities to care experienced children and young people, the Corporate Parenting Board requested that the Participation and Children's Rights Officer for Child and Family Services worked with them to engage young people to support a better understanding of the priorities that the Board needed to focus their workplan on.
- 2.2 As a Rights Respecting Council, the United Nations Convention on the Rights of the Child (UNCRC) is embedded within our work. This sets out the rights all children aged 0-18 years have to make sure they are healthy, happy and safe. In developing our Corporate Parenting Pledge areas (Appendix 1), it was imperative that thought was given to how the decisions of the Board affect the rights of children in Swansea. Each pledge is aligned with specific Articles from the UNCRC (Appendix 2).

2.3 The Corporate Parenting Board worked with a group of young people to explore the area's most important to them and, linked with associated rights under the UNCRC, the board have been able to prioritise a number of key developmental areas to work on. These direct conversations with young people helped the Board shape the following pledge areas that the Corporate Parenting Board have now signed up to deliver:

- No Barriers to Opportunity
- Good Education / Good Job
- Healthy Relationships
- Safe Place to Live
- Mental health
- Love, Family and Friendship
- Happiness

2.4 In practice this means Swansea Council will work with children and young people to:

- Ensure they (young people) have equal access to opportunities.
- Provide all children and young people with access to a good education and job prospects.
- Model to young people what healthy relationships look like and help them achieve this in their own lives.
- Make sure all young people feel safe where they live; ensure mental health services are available to support young people as and when they need them.
- Promote family time and lifelong connected networks for children and young people; and focus on young people's happiness as well as their safety.

## 2.5 Youth Voice in Action Podcasts

2.5.1 The Participation and Children's Rights Officer worked alongside The Widening Access Officer from the University Wales Trinity St David and a group of 12 young people to develop the Youth Voice In Action podcasts. These podcasts explore the 7 key areas of a young person's journey and experiences of the care system in relation to the pledge areas. The podcasts recorded an unscripted 'what matters' conversation between young people on the pledge areas and has opened topics of conversation amongst care experienced children and young people on the services that affect their lives and ways in which they can have a positive or negative affect.

2.5.2 The podcasts are youth led inspiring, thought-provoking discussions. The talented young people involved have provided amazing insights in to their care experience as well as developing skills in creating podcasts and music production. The podcast series utilises a 'mixed media digital platform' which was identified by the young people as an area lacking in positive role models for them. In creating the podcasts,

the young people are actively championing their own causes and striving for positive change.

2.5.3 To continue the positive momentum behind this area of work there are plans to continually engage with our care experienced population to understand what matters to them and support the development work which arises from the Corporate Parenting Pledges. Young people have already identified that they would like to discuss looked after child (LAC) reviews, the role of a foster carer, and residential care provision.

## 2.6 Developing our Services in line with the Pledges

2.6.1 Care experienced children and young people in Swansea have told us that they want more opportunities to mix with other young people with similar experiences, community members and decision makers. The Corporate Parenting Challenge is an opportunity for young people and representatives of the Corporate Parenting Board to come together to share their views and ideas. These sessions have historically been very successful in informing the development of our services however they were put on hold during COVID. Under the Corporate Children's Rights Scheme, there are plans to bring back the "Big Conversation" initiative with children and young people across Swansea in school settings. However, many of our care experienced young people have expressed that they do not tell their peers in school that they are living with people other than their parents, due to the stigma that they feel is attached to being looked after. It is important to create a safe space where young people feel valued, respected, and supported, allowing them to thrive and reach their full potential. The corporate parenting challenge will provide an appropriate safe space for our care experienced population to share ways in which we can positively effect change in their lives and allows for the corporate parenting board to form their work plan with children and young people who are care experienced. The challenge will be run through workshops, games, conversations, interactive activities, and presentations in a young person friendly space. The outcome of the challenge event will both shape and feed into the work of the Corporate Parenting Board and also Swansea's Children's Rights Scheme. By involving care experienced young people in these activities, we can foster a sense of belonging, build trust, and develop stronger relationships with care experienced individuals.

2.6.2 Corporate Parenting Board receives developmental updates from a number of service areas which have allowed us to identify the following work which is assisting in developing our services in line with the pledges:

- Development of a Charter for Care Experienced Parents – the aim of this charter is to strengthen corporate parenting support for parents in and leaving care through a range of support that should be available to young people before and after they become parents.

- Foster Swansea Wales continues to develop the placement offer for children and young people, recognising the importance of maintaining connections and providing a loving and stable environment for children in care. The team works with not only approved Foster Carers, Kinship Foster carers but also Special Guardians – promoting legal permanence for children and support.
- The Service Quality Unit continues to focus on working towards the Corporate Parenting pledge “what a best life” looks like for our care experienced population and ensuring that young people have a voice in their care planning.
- Western Bay Adoption Services continue to grow and develop their offer for adoptive families. Priorities include increasing numbers of approved adopters, developing a respite offer for adoptive families; and reviewing ‘Letterbox’ communication for adopted children and their birth parents post 18.
- Social Services Training and Development Unit are working with partners from Gower College Swansea and the NEET (Not in Employment, Education and Training) Team to explore opportunities for the development of an apprenticeship schemes for care experienced young people.
- Our Transport Department are working with Child and Family Services to explore a pilot of a free bus pass scheme for care experienced young people in Swansea.
- Further commitment to developing our housing offer for young people leaving care.

### **3. Conclusion**

- 3.1 The Corporate Parenting Board has committed to the pledges that were co-produced with care experienced children and young people, and to continuing to develop our services to ensure that care experienced children and young people are able to access the right support from the right service, at the right time thus promoting their health, education, social and emotional needs.

## Corporate Parenting Pledges

The role of the Corporate Parent for Looked After Children is arguably the most important role of a Council. We have a legal and moral duty to provide the level of support, care and protection any good parent would give to their children. This includes promoting their health, education, social and emotional needs. The term 'Corporate Parent' recognises that meeting the diverse needs of these young people requires co-operation between Council service areas and other organisations, such as health, education, the police and partner agencies.

Corporate Parenting responsibilities fall to everyone across the council not just the Corporate Parenting Board. To support a stronger approach to corporate parenting, Welsh Government have aspirations to expand this duty across the wider public sector.

The Corporate Parenting Board take seriously the needs of those children and young people and the impact of any decisions that they (young people) and the council make. As Councillors we may have opportunities to do this through our Corporate Parenting Board or Cabinet roles, or as part of our Scrutiny responsibilities.

The Corporate Parenting Board worked with a group of young people to explore the area's most important to them, and to prioritise some actions to work on. It's the work that helped us shape the following pledge areas that the Corporate Parenting Board are signed up to deliver:

- No barriers to opportunity
- Good education/good job
- Healthy relationships
- Safe place to live
- Mental health
- Love, family, and friendship
- Happiness

"I'm in care and I want to be able to do what a kid does out of the care system"

"Every child should be able to chase their dreams"

"How can I have a good relationship if I've never seen one"

"I just want to keep being safe"

"Check in with me to see I'm ok"

"If you have a loving family and good friendships you will never feel lonely and will always have lots of support"

"No-one can be truly happy and a productive member of society if they are at risk or living in poverty"

On July 12<sup>th</sup> 2023 the pledges were agreed and endorsed by the corporate parenting board as a commitment to the care experienced children and young people in Swansea.

The pledges will be circulated amongst key forums and partners will be encouraged to support the board and our young people in turning these pledges into achievable actions for delivery. Lead officer and members will be expected to report on progress against these to future Corporate Parenting Board meetings.
