Open Space Strategy for Swansea

Introduction

The variety of open space provision across Swansea provides opportunity for all people to play, exercise, socialise and provides an environment where community action and involvement is encouraged. As a focal point of any community, parks and open spaces can contribute to building community spirit and community cohesion. This role, however, must be carefully balanced with the role of open spaces as a home to wildlife and natural habitats.

Swansea's diverse and extensive open space network of infrastructure which needs to will be maintained, protected and enhanced to ensure that the extent, quality and connectivity of this multi – functional resource is retained, maintained and/or enhanced for the use and enjoyment of all residents and visitors into the future.

The Open Space Strategy will set out a strategic vision and a series of aims and objectives for all types of open space in the ownership or management of City and County of Swansea Council. Based on these objectives and an assessment against the agreed standards a prioritised Action Plan will be produced. The Strategy will set out a vision up to 2025 (proposed), providing a strategic framework for the protection, development and improvement of existing open spaces and to increase the provision of, or access to such facilities, where it is shown there are deficiencies against the agreed standards. In addition it will;

- Identify which open spaces will be included.
- Advise, as appropriate, on opportunities for rationalisation and change of use of current open space provision within the City and County.
- Outline and advise on good practice and case studies from across the County
- Detail how the Council can encourage greater community involvement and ownership in the management, maintenance and development of open spaces.
- Recommend how to maximise the effective use of physical and financial resources in improving the quantity, quality and accessibility of open space
- Establish a robust monitoring framework to assess the effectiveness of the Strategy

Definition of Open Space

Open spaces are valued community assets which help improve public health, mental and physical well-being and quality of life, and which bring biodiversity and regeneration benefits to an area.

Open space is defined as land in public ownership that is regularly available for recreational or sporting use by the community and can also act as a visual amenity.

The following list illustrates the broad range of open spaces in Swansea that are of public value:

- parks and gardens – including urban parks, country parks, and formal gardens;
- outdoor sports facilities (with natural or artificial surfaces)– including tennis courts, bowling greens, sport pitches, golf courses, athletic tracks, school and other institutional playing fields;
- amenity green space (most commonly, but not exclusively in housing areas) – including informal recreation spaces, communal green spaces in and around housing;
- provision for children and teenagers – including play areas, kickabout areas, skateboard parks and outdoor basketball hoops;
- green corridors – including river and canal banks, amenity footpaths and cycleways;
- natural and semi-natural urban green spaces – including woodlands, urban forestry, grasslands (eg. meadows);
- allotments and community gardens;
- cemeteries ;
- Beaches and foreshore

Current Provision of Open Space in Swansea

52 Parks

32 playing field sites

22 Bowls Greens

85 Children's Playgrounds

9 Fitness and Trim trails

16 Multi Use Games Areas (MUGA)

16 Skate and BMX sites

12 Tennis Court sites

16 Allotments

5 Beaches

7 Cemeteries

4 All Weather Pitches

Open Space standards and statutory duties

The following standards have been adopted to determine whether Swansea meets nationally recognised guidelines in terms of Open Space provision;

Fields in Trust (FIT), formerly the National Playing Fields Association, has prepared 'Benchmark Standards' for outdoor sport and play. The standard recommends that in terms of overall provision per 1,000 population there should be 1.2ha of land for playing fields, 1.6 ha for all outdoor sports and 0.8 ha for Children's playing space, with 0.25ha of the total provision relating to equipped playgrounds and with variations between rural and urban areas.

Natural Resources Wales has developed a toolkit to ensure everyone in Wales has access to Accessible, Natural Green Spaces (ANGS). It recommends that provision should be made for at least:

- 2ha of accessible natural greenspace per 1,000 population
- That no-one should live more than 300m from their nearest natural green space
- That there should be at least one 20ha site within 2km of all homes
- That there should be one accessible 100ha site within 5km
- That there should be one 500ha site within 10km

The current provision in Swansea against these standards is;

Ward	Bishopston	Bonymaen	Castle	Clydach	Cockett	Cumbwria	Dunvant	Fallwood	Gorseion	Gower	Gowerton	Killey North	Killey South	Kingsbridge	Landore	Llangyfelach	Llansamlet	Lower Loughor	Mawr	Mayals	Morrison	Myrddach	Newton	Oystermouth	Pendawdd	Penderry	Penlleger	Pennard	Penyheol	Pontardulais	Sketty	St. Thomas	Townhill	Uplands	Upper Loughor	West Cross

Figure 17 – Traffic light analysis of open space provision within wards

The City & County of Swansea has a statutory responsibility to assess Play every 3 years to 'ensure sufficient play opportunities as far as is reasonably practicable'.

The City & County of Swansea has also embedded the United Nations Convention on the Rights of the Child (UNCRC) into its practice, therefore all policies and procedures must give due regard to children's rights.

Under the Small Holdings and Allotments Act 1908 (section 23), the Local Authority has a statutory duty to provide a sufficient number of allotment plots.

Strategic Vision

'By 2025 (proposed) the City & County of Swansea will have a vibrant and diverse range of quality parks and open spaces, well distributed across the County. Sites will reflect local needs and historical, recreational and natural characteristics. The spaces will form a network which maximises opportunities for everyone to interact within their local community and the wider area whilst also attracting people into the City and County'

Strategic Objectives

- To address deficiencies in open space provision across the County in order to improve opportunities for local people to access a variety of open space environments
- To create, develop and sustain safe open space environments which can be enjoyed by all sections of the community;
- To involve the whole community: residents, public, private and voluntary organisations to ensure that parks and open spaces contribute fully to the development of sustainable and cohesive local communities;

- To develop the educational role of open space, particularly for young people, in order to promote greater knowledge and understanding of the importance of being active in the outdoors and of the natural environment;
- To provide a range of opportunities and facilities for active and passive recreation which can contribute to improved mental and physical health and wellbeing;
- To manage and develop parks and open spaces in order to promote social inclusion and usage by all of the County's diverse communities;
- To develop and promote an increased range of opportunities for people to enjoy cultural experiences and activities;
- To promote biodiversity and the conservation, protection and enrichment of species and habitats.

Key Priorities

To deliver the vision and objectives we will focus on the following five key priorities:

Increasing accessible open space and people's access to it

To achieve this we will;

Identify a City & County of Swansea access standard
 Encourage and promote opportunities for greater diversity of use
 Facilitate additional usage of open space
 Facilitate and develop safer routes to enable access
 Promote and encourage social inclusion
 Enhance the quantity and quality of existing provision
 Develop the educational role of open space
 Develop closer relationships with schools
 Develop and promote the use of open space for improved health and well-being
 Develop the role of open space for cultural experiences
 Ensure opportunities are designed in consultation with partners and target groups.

Delivering new developments - Based on LDP sites

To achieve this we will:

Improve Co-ordination of planning for open space involving all relevant services and stakeholders
 Ensure accessible open space is included in all developments
 Ensure new developments contribute to any deficiencies in open space assessment standards
 Ensure development proposals will maintain, enhance and create new green infrastructure, where appropriate.
 Consider improvement of existing local provision in the locality or the creation of new on site facilities
 Create safer and more accessible open space environments
 Improve community safety through design

Designating and protecting open space

To achieve this we will:

Retain Fields in Trust designation for existing sites and consider new opportunities
Retain Green Flag status for existing sites and consider new opportunities

Encouraging Community involvement/management

To achieve this we will:

Actively encourage and support community engagement and ownership of open spaces.

Encourage, support and facilitate appropriate self-management or Community Asset Transfer

Facilitate and extend community involvement in the management and development of open spaces

Develop and expand the number of Friends of Parks groups

Promoting biodiversity and nature conservation

To achieve this we will:

DRAFT
