5) Jack Straw, Chief Executive

The Presiding Member called upon the Leader of the Council, the other Political Group Leaders and a number of Councillors in order for them to express their gratitude to Jack Straw, Chief Executive for his dedication and service to this Authority.

He stated that Jack Straw had worked in a range of public sector posts since 1973 prior to becoming Chief Executive of this Authority in 2011. Mr Straw was very clear on his appointment that his priorities were to improve performance particularly in Social Care and Education with a focus on child poverty. In recent years, he has turned his attention to innovation and empowerment, and the involvement of the wider workforce.

One of Mr Straw's proudest achievements was helping to establish the High 5 awards which are now in their 5th year. The High 5 Awards recognise and reward the achievements of inspirational children and young people across our community with hundreds of winners.

Jack Straw, Chief Executive responded to the expressions of gratitude and thanked the hard work and dedication of the Council staff in assisting his priorities.

The Deputy Monitoring Officer submitted a report which sought approval for the adoption of a new Members' Code of Conduct as a result of the Local Authorities (Model Code of Conduct) (Wales) (Amendment) Order 2016.

RESOLVED that:

- 1) The new Model Code of Conduct set out in Appendix A of the report be adopted;
- 2) The Council's Constitution be amended to include the new Model Code of Conduct.

10. **URGENT ITEM**

Urgent Notice of Motion: Councillors F M Gordon
The Presiding Member stated that pursuant to Paragraph 100B (4) (b) of the Local Government Act 1972, he considered that the "Urgent Notice of Motion: Councillors F M Gordon, R C Stewart, W Evans, R Francis-Davies, J E C Harris, D H Hopkins, A S Lewis and C Richards" in relation to Swansea and the EU Referendum should be considered at the meeting as a matter of urgency.

11. **URGENT NOTICE OF MOTION: COUNCILLORS F M GORDON, R C STEWART, W EVANS, R FRANCIS-DAVIES, J E C HARRIS, D H HOPKINS, A S LEWIS AND C RICHARDS**

Reason for Urgency: There are no other Council Meetings scheduled prior to the EU Referendum that fall outside of the Pre Election Period Protocol. All of the Political Group Leaders supported the presentation of the Notice of Motion to Council as an urgent item but not necessarily the Motion itself.

The following motion was proposed by Councillor F M Gordon and seconded by Councillor R C Stewart.

“Council Notes:

The EU referendum vote will take place on 23rd June.

That Wales as a whole is actually a net recipient to the EU, meaning that it gets back more than it puts in - the people of Wales each now receive £70 more from the EU budget than they pay in, equating to a £120 million surplus of spending over contributions.

That the Welsh Government estimates that 150,000 jobs in Wales depend on our access to the European Single Market [1].

The overwhelming evidence of the financial, social and economic benefits membership of the EU has provided to the UK, Wales and Swansea

Council Believes:

That the European Union embodies values of peaceful international co-operation, the rule of law, transnational social solidarity, and an economic free trade area which are important to the people of Swansea.

That the European Union has produced enormous benefits for the people of Europe and that the UK and Swansea has shared in these benefits.

That EU membership and continued access to the free movement of goods, services, and people throughout the European Union is hugely significant to Swansea’s economic and social development as a leading European city, and the future prosperity of the people of Swansea.

That as a result of the beliefs stated above it is in the interests of Swansea, Wales, the UK and Europe for Britain to remain in the European Union.

Council Resolves:

That it is the considered view of the Councillors of the City & County of Swansea that continued membership of the EU is in Britain’s and Swansea’s best interest.

That the Leader will write to the Prime Minister, the Leader of HM Opposition, the First Minister and all Swansea’s MPs and AM’s explaining why it is important for Swansea that Britain and Wales stays in the EU”.

WRITTEN RESPONSES TO QUESTIONS ASKED AT THE LAST ORDINARY MEETING OF COUNCIL

The report provides an update on the responses to Questions asked during the last Ordinary Meeting of Council on 28 April 2016.

FOR INFORMATION

1. INTRODUCTION

- 1.1 It was agreed at Council on 8 April 2010 that a standing item be added to the Council Summons entitled “Written Responses to Questions Asked at the Last Ordinary Meeting of Council”.
- 1.2 A “For Information” report will be compiled by the Democratic Services Team collating all written responses from the last Ordinary Meeting of Council and placed in the Agenda Pack;
- 1.3 Any consequential amendments be made to the Council Constitution.

2. RESPONSES

- 2.1 Responses to questions asked during the last ordinary meeting of Council are included as Appendix A.

Background Papers: None

Appendices: Appendix A (Questions & Responses)

**Providing Council with Written Responses to Questions at Council
28 April 2016**

1.	<p>Councillor P M Meara How many of these Trade Employees had previously been under the care of the Authority.</p> <p>Response of the Cabinet Member for Next Generation Services Historically the service would not have asked this question of potential candidates either for trade roles or for its apprentice scheme and as such total numbers in the overall workforce would not be available. However we are aware that two of its recent recruits, one in each of the last two years were offered apprentice positions whilst under the care of the Authority. The service has also been working closely with colleagues in Social Services to maximise the viability of these opportunities and provide support to potential candidates who are in the care of the local Authority. In addition the emerging new corporate apprentice and training scheme will further look to create additional opportunities for all young people, but also to have a particular focus on its looked after children and other young people in line with its corporate parenting role and corporate priority of tackling poverty across the City and County of Swansea.</p>

1.0 Background

- 1.1 Every local planning authority in Wales is statutorily required to produce a Local Development Plan (LDP), which must be prepared in accordance with requirements and guidelines laid down by the Welsh Government. The Swansea LDP commenced production in 2010 and will, upon adoption, replace the existing Unitary Development Plan. It will be used as the primary strategy and policy document upon which the Council will make decisions in relation to development proposals.
- 1.2 At Council on 12 August 2014, Members agreed to adopt the LDP Preferred Strategy, which confirms the broad scale of growth that the Plan will address and the general approach to be taken to meet this growth. The approach focusses development at a limited number of large 'strategic sites', which were identified within the Preferred Strategy document, plus a range of non-strategic sites at sustainable locations across the County.
- 1.3 At Council on 3 September 2015, Members approved the full list of housing and strategic sites recommended by Planning Committee for inclusion in the Deposit LDP. This decision followed comprehensive periods of public consultation on potential LDP housing sites, undertaken initially throughout 2011 on submitted 'Candidate Sites' and then in early 2015 on initial 'Draft Deposit' allocations. Members' decision on housing and strategic sites was also informed by a detailed Member review process undertaken between June – September 2015, which involved special meetings of planning committee that considered all petitions and significant objections submitted by interested parties in relation to proposed sites.
- 1.4 During February and March 2016, the Strategic Planning Team co-ordinated and facilitated workshops and engagement events with Members, and other key stakeholders, to consider draft LDP policies and to ensure the Plan will address all relevant key issues. A summary of the Member Engagement process and some of the actions arising from the comments made during the sessions is provided at Appendix A of this report.

2.0 The Deposit LDP

- 2.1 The Deposit LDP presents a positive approach to managing the inevitable future growth and change that will occur within the City and County of Swansea. The policies and proposals set out in the Plan address the County's need for new homes, jobs, infrastructure and community facilities to support economic growth and raise standards of living. Policies that promote development are set out alongside those that will ensure future proposals respect and promote the County's cultural heritage, important landscapes and sensitive environments.
- 2.2 The Plan promotes a clear 'Place making' agenda and strategy, and emphasises that future development must accord with the overarching aims of enhancing quality of life and well being. The Plan maintains that these high level aims can be achieved through good design on even small householder

proposals or, at the opposite end of the spectrum, through the creation of new neighbourhoods that are comprehensively masterplanned and provide for a good range of community facilities and recreation opportunities. Planning for growth that is commensurate with the aspirations of a City Region inevitably involves difficult decisions about releasing greenfield land for development, however the Deposit LDP provides the opportunity to ensure that such development is of a quality and nature that will ensure the place that is ultimately delivered provides a proud legacy for future generations.

2.3 The Deposit Plan (see Appendix B of this report) comprises:

- Overview and Strategy
- Policies and Proposals
- Monitoring Framework
- Proposals Map
- Glossary
- Appendices

2.4 Section 1 sets out the Plan's Vision, Strategic Aims and Objectives, and explains the range of options for accommodating forecast growth that the LDP process considered before arriving at its overarching strategy.

2.5 Section 2 forms the main part of the Deposit. It sets out the range of planning policies and proposals that, in combination, comprise the LDP policy framework to address the specific issues and challenges for the City and County. It is these policies and proposals that will be used to guide and inform future development within the administrative area. Their scope is extremely varied, which reflects the County's diverse urban and rural character, and are split into 'Key Strategic', 'Area-Wide' and 'Area Specific' policies as follows:

- **Key Strategic policies** relate to overarching themes of the Plan, including those relating to Sustainability; Housing Strategy; Placemaking; Masterplanning; Affordable Housing; Economic Growth; Regeneration; Health and Wellbeing; Infrastructure; and Transport Measures.
- **Area-Wide policies** are generally of a generic (not place specific) nature, and include topic-based policies that set out criteria against which planning applications will be considered. It is not the purpose of these policies to repeat national planning policy but instead make clear the specific local application of planning themes.
- **Area-Specific policies** relate to site specific proposals, such as key areas of change or protection. These include locally specific policies for development, regeneration schemes and masterplan areas, as well as specific sites for protection and conservation.

2.6 The Deposit includes a monitoring framework that will ensure the Plan is effectively implemented, and that development is delivered appropriately and in a timely manner during the course of the Plan period. The annual monitoring described in the framework will be used to inform LDP review which takes place every 4 years.

- 2.7 The LDP Proposals Map comprises a series of maps covering all areas of the County, and features a variety of designations overlain on an Ordnance Survey base. These include sites and development areas described in the preceding policies and proposals. It also defines the settlement boundaries of the main urban area and key villages, beyond which are the areas considered open countryside, where most forms of development are not favoured. The Proposal Map designations include:
- Housing Sites (allocations and commitments)
 - Strategic Development Areas
 - District Centres and Retail Parks
 - Mineral Safeguarding Areas
 - Green Belt/Green Wedges
 - Special Landscape Areas
- 2.8 Where designations are determined by other mechanisms or bodies (such as Sites of Special Scientific Interest designated by Natural Resources Wales), these are not shown on the Proposals Map and are instead featured on a Constraints and Issues Map published separately. This approach allows the amending and updating of externally set designations more readily during the course of the Plan period to take account of changes that are not determined by the LDP, such as Historic Parks and Gardens and various special environmental protection areas.
- 2.9 The Plan is supported by appendices covering matters such as lists of sites that are referenced within policies.

3.0 Supporting Assessments and Evidence

- 3.1 The Deposit LDP is underpinned by a large amount of technical studies, assessments, evidence and supporting information. This will be made available on the Council's website as supporting documentation for consideration during and after the public consultation period. A list of these is set out in Appendix C of this report which includes links to the documents.
- 3.2 It is a requirement under the Planning and Compulsory Purchase Act 2004 that the LDP is subject to a Sustainability Appraisal (SA) incorporating Strategic Environmental Assessment (SEA). The integrated SA ensures the policies and proposals of the Plan reflect sustainable development principles and assess the effect of the plan on the economy, social wellbeing, resource conservation and environmental protection/enhancement. The SA plays an important part in demonstrating that the LDP is sound by ensuring that it reflects sustainable development objectives. The Final Sustainability Appraisal Report and Non Technical Summary are available via the link set out in Appendix C of this report, and will also be formally consulted on as part of the Deposit LDP consultation process. It is recommended that the Council agrees the recommendations of the SA.

- 3.3 As the Competent Authority the Council is also required by the Habitats Regulations (2007) to undertake a Habitats Regulations Assessment (HRA) of the LDP. The HRA will determine the likely significant effects of the plan on European Sites of nature conservation importance and, if applicable, scope what needs further assessment. A Habitats Regulations Assessment Report of the LDP has been undertaken by consultants DTA Ecology Ltd and is available as a Supporting Document to the Plan, which can be viewed via the link set out in Appendix C of this report. It is recommended that the Council agrees the conclusions of the HRA.
- 3.4 An Equality Impact Assessment (EIA) is also being undertaken as part of the Council's legal duty to assess the Plan's policies for their impact on protected groups as defined in the Equality Act 2010. The LDP has been found to be relevant to a number of protected characteristics, including age, disability, the Welsh language, poverty and social exclusion. The EIA, which is currently a draft document and will continue to be updated and revised throughout the LDP process, is a Supporting Document to the Plan and available to view via the links set out in Appendix C.

4. Consultation

- 4.1 Approval of the Deposit LDP will be followed by six weeks formal public consultation between 27 June and 7 August inclusive. There are approximately 7500 separate individuals and organisations on the LDP database that will be notified of the consultation, and the process will also be publicised using media outlets and posters at libraries across the County. The consultation will include a series of special 'roadshow' events at suitable venues within communities, chosen to represent a wide spread of locations across the County, which will also be widely publicised within those areas.
- 4.2 Those making representations on the Deposit LDP will be encouraged to do so on a standard form, setting out clearly the nature of any objection and any relevant information to supplement and justify the objection. These representations, and the Council responses to them, will be considered by the planning inspector to be appointed by the Welsh Government to 'Examine' the Plan (as described below).

5. Future stages

- 5.1 All representations will be carefully considered as to whether they justify an amendment to the Deposit Plan. This includes amendments to the written statement and the Proposals Map. Any amendments required to the Plan, known as 'Focussed Changes', will be duly made and these will be reported back to Council for approval in due course.
- 5.2 Subject to Members approval, the amended Deposit LDP incorporating Focussed Changes, together with associated background documents, will be submitted to the Welsh Government for consideration. The Welsh Government will then appoint a planning inspector to carry out an 'Examination in Public' on the content of the Plan, which will provide an opportunity for all interested

parties to have their representations independently considered. The Examination process will be followed by a binding Inspectors Report being sent to the Council setting out any changes required before the Plan is formally adopted.

6. Delivery Agreement

- 6.1 Subject to the Deposit being approved for public consultation, a revised Delivery Agreement (DA) will be prepared and submitted to the Welsh Government for approval. The DA will make clear the revised timetable for the future stages of LDP preparation up to the adoption of the Plan, based on the following broad timetable:

Stage in LDP Preparation	Time
Public consultation on Deposit	June – July 2016
Review of representations received and creation of Focussed Changes Deposit document	August – November 2016
Submission of Focussed Changes Deposit to Welsh Government	December 2016
Examination in Public	March 2017
Adoption of LDP	December 2017

7.0 Equality and Engagement Implications

- 7.1 A full Equality Impact Assessment is underway, and the LDP process takes full account of the relevant Equality and Diversity considerations.

8.0 Financial Implications

- 8.1 An LDP budget is in place for the present financial year and is considered able to meet the current financial implications of undertaking consultation, preparing for submission of the Plan to Welsh Government. The latter includes costs associated with an Examination Program Officer, who is required to operate as a form of an external 'consultant', at arm's length from both the Council and the Planning Inspectorate.
- 8.2 At this time there is no budget or additional funding set aside for expenditure on any further evidence or assessments required to underpin the Plan. Whilst no such requirement for additional assessments is apparent at this time, if this is subsequently identified as a priority following representations made during consultation then funds will have to be located from within current resources.
- 8.3 Monitoring will be undertaken to assess the resources required in 2017-2018 financial year for the LDP Examination, and this will be considered as part of the Council's budget review process and financial planning procedures.

9.0 Legal Implications

9.1 The Council is statutorily obliged to prepare an LDP in accordance with the Planning and Compulsory Purchase Act 2004, the Environmental Assessment of Plans and Programmes (Wales) Regulations 2004 and the Town and Country Planning (Local Development Plan) (Wales) Regulations 2005;

LDP Policy Councillor Workshops - February and March 2016:

Overview

During February and March 2016, a series of six, two hour Councillor engagement workshops were held to discuss the LDP's identified key issues, and the emerging policies for the Deposit Plan that respond to these issues. The workshops involved presentations from Strategic Planning Officers on the various subject areas (listed below), question and answer sessions with Planning Officers and Officers representing specific policy areas, i.e. transport officers, education colleagues, etc, and discussions on the identified issues that included facilitated group work.

Engagement exercises centred around LDP key issues that had previously been identified during consultation and collation of the evidence base. Thoughts and comments were recorded by Councillors during 'post-it sessions' as well as aural feedback. During these sessions Councillors were asked to highlight thoughts about how the issues affected their locality and Swansea more widely. Round table discussions then focused on the potential measures highlighted by contributors to affect change through the land use planning system. Issues that couldn't be addressed by the Planning System were "parked" during the workshop but then passed on to the relevant Council department.

Date	Topic	Attendance
24 th February	Housing	14
26 th February (morning)	Design and place making	9
26 th February (afternoon)	Natural resources	11
29 th February	Gower and countryside	14
1 st March	Retail and Regeneration	11
4 th March	Transport	12

Purpose of Workshops:

- Councillors are key to the process of identifying Swansea specific issues. Addressing Swansea specific issues is a test of 'soundness' to be considered by the Inspector at the Examination on the Plan.
- To give opportunity to Councillors to directly ask Officers about the Local Development Plan process to date.
- The Strategic Planning Team can inform Councillors whether the key issues they have raised can be addressed by Local Development Plan policy, and discuss how best to tackle any concerns via policy.

Outputs from Workshop:

- Amendments to Policies undertaken, as set out in the following table with summary of issues raised and actions taken.
- Councillors who had "parked" issues were put in touch with relevant Council Officers.

Summary of Issues Raised and Actions Taken

Issue	Actions Taken / Comment
Water Quality Concerns	<p>1, DCWW have been consulted on all proposed allocations. Ensure LDP Policy requires DCWW to build requirements into their future investment plans. [DCWW have 5 year investment programmes called Asset Management Plans (AMP). AMP 7 is scheduled to begin review in 2019 and will cover the period 2020 to 2025 and will take account of development proposals contained in local development plans adopted at the time of the AMP.]</p> <p>2, In advance of improvements programmed in the AMP, developers may serve DCWW with a requisition notice for the provision of a new water main or sewer and/or associated works, required for domestic purposes only. DCWW has a duty under the Water Industry Act 1991 to comply with such a notice. Ensure that LDP policy includes text to clarify the AMP process. Specifically, ensure that LDP Policy on Safeguarding Public Health and Natural Resources, Water Pollution and the Protection of Water Resources both address water quality concerns.</p>
Minerals: Unconventional Gas Exploration	<p>1, LDP Policy on Sustainable Development of Mineral Resources amended following steer from Councillors on the exploration of unconventional gas within legislative guidelines.</p>
Flood risk – coastal areas draining into estuary, issues with outfalls blocking drainage at high tide	<p>1, This is a drainage capacity issue that will be addressed by WWDC. Waste water infrastructure capacity will be improved through compensatory surface water removal and DCWW Asset Management Plan (AMP).</p>
Protection of Natural Environment: Landscape (not just Gower)	<p>1, Ensure that landscape is protected in LDP Policy on Landscape Protection and is included as a consideration within many policies, i.e. the overarching policies on PM01 Sustainable Settlements, PM02 Placemaking and Place Management, SD02 Masterplanning Principles and specific policies on minerals.</p>
Protection of Natural Environment: protection of SINCS	<p>1, Ensure that designated Sites of Importance for Nature Conservation highlights locally important sites, attempting to maintain natural aspect of site but can't prevent development if mitigation is shown to be possible. Clarification that SINC status does not preclude development.</p>
Transport: on street parking	<p>1, Key policy on Transport Measures and Infrastructure introduces appropriate parking as a requirement.</p> <p>2, Amend detailed Parking Policy to specifically addresses this issue within the policy and the issues of "on street parking" are now specifically detailed in the amplification.</p>
Transport: Non adopted roads and refuse collection	<p>1, Ensure that within the amplification of LDP Policy on Design Principles for Transport Measures and Infrastructure a User Hierarchy is set out, to ensure developers consider</p>

	<p>the road users inclusive of service vehicles (such as refuse and emergency services).</p> <p>2, Ensure that within the LDP Policy on Design Principles for Transport Measures and Infrastructure contains criteria to ensure the design of any roads conforms to best practice standards with regards to road layout and design.</p>
Good transport links needed on strategic sites	<p>1, Ensure master planning policies include links as a main consideration of design and define the nature, layout and speed limits for “spine roads” through the sites.</p> <p>2, Ensure that LDP Transport policies emphasises a clear streets hierarchy.</p>
Transport: Garage size	<p>1, This size is set by Transportation colleagues based on guidance and current policy.</p>
Retail & Leisure: City Centre Parking	<p>1, LDP policy on Parking amended to be flexible to take account of City Centre Strategy and the impact of public transport links on parking requirements.</p>
Retailing and City Centre – how can we stop retail development going to areas not in the main shopping streets of the city centre	<p>1, LDP policy will set out a clear retail hierarchy that emphasises the Swansea Central Area ‘Retail Centre’ sits at the top of the hierarchy – and that significant retail development must be directed towards this location. Policy will still provide support for appropriate retail development at retail parks i.e. retailing that does not undermine the vitality and viability of the Retail Centre.</p>
Housing: avoid over concentrations of Houses of multiple occupancy and location of student accommodation	<p>1, Guidance on Houses of Multiple Occupation and Residential Conversions within Settlements sets out clear criteria for houses of multiple occupancy.</p> <p>2, Clarify wording of LDP Policy to ensure Student Residential Accommodation - purpose built accommodation for students – is focussed on existing campuses or the City Centre.</p>
<p>Housing: Affordable housing</p> <ul style="list-style-type: none"> • deficit in Gower and West needs to be addressed. • Affordable Housing on all sites irrespective of area! 	<p>1, Further work has been carried out as part of the update to the Affordable Housing Viability Study to assess the viability of affordable housing contributions across the county and specifically of Affordable Housing allocations within Gower.</p> <p>2, Ensure that LDP Policies are drafted to ensure that the contribution of all housing development to affordable housing has been maximised whilst taking account of the need to ensure that developments remain viable.</p>
<p>Accessible housing</p> <ul style="list-style-type: none"> • Shortfall of accessible properties • Lifetime Homes – accessible properties suitable for future need 	<p>1, Affordable Housing policies have been drafted to address the issue of both affordable housing for local needs (ensuring that housing is provided for people who meet the Council’s defined occupancy criteria) and housing which meets the need identified in rural areas for housing which addresses issues arising from high second home or holiday home ownership, and the difficulties for the ageing population to access opportunities to downsize into appropriate properties.</p>

Building sustainable communities through design.	1, PM01: Sustainable Places, PM02: Placemaking and Place Management, SD02 Masterplanning Principles all incorporate the principles of sustainability.
The LDP should have a clear statement such as Policy R11 in the UDP to be realistic and to safeguard local environment i.e. realistic	1, Renewable Policy in LDP needs to be criteria based, and is inclusive of the local environment. 2, Policy amplification also considers the cumulative effects.
Executive housing seems to be the predominant part of the mix in certain areas. How do we control this?	1, The Plan is founded on a holistic placemaking approach to deal with this issue. Ensure that Plan policies require delivery of a mix of housing to create sustainable, balanced communities.
Key need to support wind and solar energy within the LDP	1, Amend Plan to include specific Policy on Renewable and Low Carbon Energy Technology in New Development.
Do not build on high quality farmland which is productive and part of a green wedge. You use greenfield sites of Grade 4 or 5 agricultural land	1, The best and most versatile (BMV) agricultural land has been protected where possible. However, this needs to be assessed against the need for sustainable development. In some instances the development of Sustainable Development Areas will involve BMV agricultural land and in such locations the need for the development outweighs the need to protect BMV agricultural land. 2, Green Wedge boundaries are reviewed as part of the Development Plan preparation process. Boundaries can be adjusted to accommodate the required growth in the area.
Caravan sites should have sufficient shrubbery and screening to ensure they are not visually prominent	1, Agree that this is a significant problem, particularly in terms of landscape impact. Unfortunately there are little planning control over existing sites, particularly those with certificates of lawful existing use. 2, Owners are encouraged to improve landscaping and if a planning application is submitted on a site, a landscaping condition is attached where relevant. 3, A design guide for new caravan and camping sites is being produced which will address the issue in respect of new sites. It is hoped to adopt the guide as SPG.
Support for Policy on the heritage led regeneration of the Hafod Morfa Copperworks site. Suggestion that the site become a strategic development area to include the regeneration of the wider Tawe Riverside	1, Agree – Amend Plan to include a Strategic Site policy on the Hafod Copperworks area, which is combined with sites along the Tawe Riverside to become a Strategic Development Area for mixed use.

FOR INFORMATION

1. Introduction

- 1.1 The Independent Remuneration Panel for Wales (IRPW) operates under the provisions of the Local Government (Wales) Measure 2011 and the Independent Remuneration Panel for Wales Regulations made under the powers contained in the Measure.
- 1.2 Each year the IRPW must publish an Annual Report which sets out the type and levels of payments that Authorities may or must make available to their Councillors and Co-opted Members. Details of the latest IRPW Annual Report and other information may be viewed on their website. <http://wales.gov.uk/irpwsb/home/?lang=en>
- 1.3 The Councillors Allowances Scheme as laid out in Part 6 of the Council Constitution sets out a framework for the payment of allowances and expenses to Councillors.
- 1.4 Expenses paid represent reimbursement to Councillors for the cost of travel and subsistence they incurred in performing their approved duties.
- 1.5 **Appendix A** refers to amounts paid to the Councillors during 2015-2016.
- 1.6 **Appendix B** shows the total amount paid to its Statutory Co-optees. Statutory Co-optees are defined by the Independent Remuneration Panel for Wales.

2. Explanation of Headings

- 2.1 **Basic Salary** is paid to Councillors who do not receive a Civic Salary or Senior Salary.
- 2.2 **Civic Salary** is paid to the Lord Mayor and Deputy Lord Mayor only.
- 2.3 **Senior Salary** is paid to the posts identified by Council i.e. Leader of the Council, Deputy Leader of the Council, Cabinet Members, Chairs of Committees. Additionally, the Leader of the Largest Opposition Political Group automatically receives a Senior Salary providing he has 10% of the total number of CCS Councillors within his Political Group.
- 2.4 The **ICT Allowance** is set at a maximum of £800 over a period of 4 years (2013-2017).
- 2.4 The **Broadband and Telephone Allowance** is set at £25 per month, however this amount is split as £15 Broadband per month and £10 Telephone per month.
- 2.5 In addition, qualifying members (Cabinet Members, Chair of Council / Presiding Member and Leader of the Largest Opposition Political Group) also receive a £25 mobile telephone allowance per month. The "Telephone" heading therefore incorporates the total sum being claimed for both the £10 element of the Broadband and Telephone Allowance in addition to any Mobile Telephone Allowance claimed.
- 2.6 **Travel P.card** – these costs relate to any travel costs incurred using the Corporate Purchasing Card (P.card) e.g. rail travel, flights, oyster-card usage, etc.
- 2.7 **Travel ISIS** – these costs are based on Councillors Travel and Subsistence expense claim forms paid under the CCS software system (ISIS).
- 2.8 **Subsistence P.card** – these costs relate to any subsistence costs incurred using the Corporate Purchasing Card (P.card) e.g. hotel accommodation, conference costs, etc.
- 2.9 **Subsistence ISIS** – these costs relate to any claims for subsistence using the Councillors Travel and Subsistence expense claim forms paid under the CCS software system (ISIS).
- 2.10 **Car Parking Permit re-claim** relates to any Councillor who has re-claimed the amount they pay for their Car Parking Permit.
- 2.11 **Attendance Allowance** is paid to Councillors who claim for the reimbursement of necessary costs for the care of dependent children and adults (provided by informal or formal carers).

3. Financial Implications

- 3.1 The amounts payable were paid from within existing budget. The expenses element of the report covers the period 1 April 2015 to 31 March 2016, whilst the Allowances element of the report cover the Municipal year (i.e. Annual Meeting of Council to following years Annual Meeting of Council).

4. Legal Implications

- 4.1 This report is consistent with the provisions of The Local Government (Wales) Measure 2011 and the Independent Remuneration Panel of Wales requirements.

Council – 16 June 2016

COUNCILLORS' QUESTIONS

PART A – SUPPLEMENTARIES

1. **Councillors A M Day, J W Jones & C L Philpott**

Given the damage caused to grass verges by vehicles parking on them, could the Cabinet Member inform Council:

- a). What the Council's view is on this practice
- b). What is the Council's view on residents placing stones, marker posts and the like on the verges outside their properties, and,
- c). What action is he taking to ensure that grass verges are not damaged by indiscriminate and inconsiderate parking on grass verges

Response of the Cabinet Member for Environment & Transportation

a) The Council does not approve of any verge parking, verges need to be kept safe and unobstructed particularly when they are at junctions. Parking on verges can cause problems eg. Obstruction, reducing visibility at junctions and causing environmental damage and appearing unsightly.

b) The placement of white stones and the like on the verge is a difficult issue. They can be considered to be an obstruction however they do serve to protect the verge from vehicle damage. Where boulders or similar objects are placed to preserve the appearance of a well maintained verge or grassed area and where they are clearly visible, well set back from the edge of carriageway and do not constitute obstructions of a hazardous nature (e.g. village green features etc.), the stance taken will be one of "non-disapproval". This means that we do not authorise their presence, as technically, they are still classed as obstructions, but no action will be taken to remove them. Sites where obstructions can be ignored is at the discretion of the Highways Service. Those placing stones or the like on the highway are at risk as they will remain responsible for any issues or damaged caused.

c) There are no general enforcement powers available to the Authority in relation to parking on a grass verge, unless there is a specific issue with safety (e.g. visibility at a junction) or unless a Traffic Regulation Order (TRO) i.e. parking restriction exists. The police have the powers to enforce in relation to obstruction however they have indicated that unless actual obstruction is taking place they would not respond. Others options available to the Council include the introduction of TRO's or protection via bollards, street furniture or tree planting. There is an additional option to protect verges through the West Glamorgan Act however were offences to occur the only avenue is through prosecution in court (with the potential ability to levy a £500 fine), the resources involved in this are significant and there remains a risk as the legislation is not clear and is legally untested. These options are all resource dependant and only undertaken on by the service in relation to safety issues. The Parks service is responsible for verge maintenance however this extends only to routine maintenance and making safety of immediate significant danger and not general repair or protection.

2. **Councillors J W Jones, J Newbury & A M Day**
- a). How many Speed Indicator Display signs (SIDs) are currently deployed in the City and County of Swansea,
 - b) How many are actually operational,
 - c) How many and how often are they moved,
 - d). Where they are not operational, what programme is in place to bring them back into service,
 - e) What his medium term strategy is for the deployment of SIDs, and,
 - f). how is he reviewing the effectiveness of such speed reduction measures

Response of Cabinet Member for Environment & Transportation

a) There are currently 136 sign faces, of which 85 are permanent with the remaining 51 No. being ground screw installed and capable of being relocated to other sites.

b) It is intended that all signs remain operational, however, there have been some issues with the solar powered signs in the winter months, where there is often insufficient periods of daylight to maintain charge. Some signs, in the more problematic locations, have been converted to mains power when finance allows. The solar powered signs are beneficial to allow quick and easy relocation without the need to provide mains power to the sign.

SID signs are not subject to the same annual inspection regime as other traffic control devices, and maintenance is on a reactive basis as faults are reported.

c) Initially it was planned to move these signs on a three monthly basis, however, the funding stream from the Welsh Government which was being used to undertake the sign rotation is no longer available to the Authority. Consequently, whilst the existing sign positions will continue to operate and be maintained, for the foreseeable future, it will not be possible to move them to new locations. As a consequence of this, as finance becomes available, it is proposed to systematically convert existing sites to mains powered units or review if they are still effective at their current locations.

d) Non-operational signs are attended to on a reactive basis, as and when faults are reported, to date this has proved more cost effective than entering into an annual maintenance contract. This will be reviewed later this year when the traffic signal maintenance contract is put out to tender.

e) There are no plans to increase the number of SID unless installation and maintenance costs can be guaranteed.

f) Surveys have been undertaken at some sites and this has shown that traffic speeds have been reduced where these signs have been placed e.g. Swansea Road Llewitha traffic speeds have been reduced by 4mph (eastbound) and 5mph (westbound).

3. **Councillors A M Day, J W Jones & P M Black**
- Will the Cabinet Member initiate and publish the results of a survey of all Councillors to ascertain how satisfied with the way potholes are being addressed

	<p>in their wards. Has this Council received any funding from the Welsh Government for pot hole repairs like the system which operates in England.</p> <p>Response of the Cabinet Member for Environment & Transportation</p> <p>a) The maintenance of highways including pot hole repair were part of the recent scrutiny review of Streetscene. This report and its findings have already been published. A further review of pot hole repair has been undertaken in relation to the public perception that the roads are poorly maintained. The Council are currently considering options in relation to this work however it is recognised that the repair of pot holes is undertaken against a backdrop of an ageing carriageway network with a £50m plus backlog of work.</p> <p>b) Has this Council received any funding from the Welsh Government for pot hole repairs like the system which operates in England.</p> <p>No the Welsh Government has not provided any additional funding this year in relation to pot holes.</p>
4.	<p>Councillors C A Holley, J Newbury & P M Black</p> <p>Will the Cabinet Member tell Council what provisions are being made for our fisherman and their boats in the docks.</p> <p>Response of the Cabinet Member for Environment & Transportation</p> <p>European programme officers have been successful in securing funding to improve shore side services. A crane, commercial Ice machine, refrigerator & freezer have all been installed over the past 18 months.</p> <p>Plans are being made to increase electricity supplies to commercial pontoons over the next 12 months.</p> <p>There is currently a strong demand for 12 month commercial moorings. In addition short term moorings are offered to fishermen who require shelter during adverse weather conditions.</p> <p>The cost to moor a boat depends on the length of boat, type of mooring and duration. Charges range between £3.50 per day for permanent moorings to £17 per day for overnight visiting vessels. Most fishermen visiting overnight are not local fishermen.</p> <p>The Council recognises how unpredictable the fishing industry can be, therefore fishermen are offered payment plans with no premium to assist with paying the mooring fees.</p>
5.	<p>Councillors P M Black, J W Jones & M H Jones</p> <p>Given that this Council has a policy of increasing fees in line with inflation will the Cabinet Member inform Council what increases there have been since 2012 to the present time.</p> <p>Response of the Cabinet Member for Next Generation Services</p> <p>Thank you for your question regarding fee increases from 2012 to the present</p>

	<p>time. A database of fees and charges was created in 2014 and is in the process of being updated for 2016-17 and has been requested for presentation to the Service Improvement and Finance Scrutiny Panel in June by Councillor Holley and therefore the data will be provided to you as part of that process.</p>
	<p>PART B</p>
6.	<p>Councillors C A Holley, J W Jones & J Newbury What is the current position with asset transfers to community groups.</p> <p>Response of the Cabinet Member for Wellbeing & Healthy City On 18 Feb 2016 Cabinet adopted a policy with guidance on Community Asset Transfers with the stated intention of not only streamlining the process for when a request is made for an asset transfer but also ensuring a consistent approach. Officers are dealing with a number of current requests which are at various stages of the process.</p>
7.	<p>Councillors M H Jones, J W Jones & C A Holley How many empty retail premises are there currently in the City Centre.</p> <p>Response of the Cabinet Member for Enterprise, Development & Regeneration The Council produce a City Centre Occupancy survey which is on our website: http://www.swansea.gov.uk/staffnet/citycentreresearch</p> <p>Having regard to the survey data for April 2016 there are 128 vacant properties in total and of these we estimate 33 are retail or restaurant premises in the prime and secondary retail areas. This excludes Kingsway.</p>
8.	<p>Councillors P M Black, J W Jones & M H Jones Will the Cabinet Member give Council the full list of fees and charges and their increases annually since 2012 to the present time.</p> <p>Response of the Cabinet Member for Next Generation Services Please see answer to Question 5 above.</p>
