Agenda Item 4

CITY AND COUNTY OF SWANSEA

MINUTES OF THE GOWER AONB PARTNERSHIP STEERING GROUP

HELD AT PENCLAWDD COMMUNITY CENTRE, PENCLAWDD ON MONDAY, 19 DECEMBER 2016 AT 7.00 PM

PRESENT: Councillor P Lloyd (Chair) Presided

Councillor(s)

M C Child
K E Marsh

Councillor(s)

J E C Harris

Councillor(s)

L James

Representing Organisations:

R Button	Tourism Swansea Bay
S Heard	Gower Riding Club/Port Eynon Community Council
S Hill	GGAT
Councillor P R Hood-Williams	Upper Killay Community Council
R Cooper	Llanrhidian Higher Community Council
G Howe	Gower Society
J Davies	Bay Trans
H Osborn	Natural Resources Wales
A Woodman	Resident

Officer(s)

Paul Meller	Strategic Planning & Natural Environment Manager
Chris Lindley	Gower AONB Team Leader
Jeremy Parkhouse	Democratic Services Officer

ALSO PRESENT:

B Parry	Walking Forum
Stephen Crocker	Tourism Swansea Bay
Cathy Lewis	Tourism Swansea Bay

Apologies for Absence

Councillor(s): J P Curtice
Independent Member(s): D Vine and R Wright

22 **WELCOME AND INTRODUCTIONS.**

The Chair welcomed all present to Penclawdd Community Centre and commenced proceedings.

23 **DISCLOSURES OF PERSONAL AND PREJUDICIAL INTERESTS.**

In accordance with the Code of Conduct adopted by the City and County of Swansea, no interests were declared.

24 **MINUTES.**

RESOLVED that the Minutes of the Gower AONB Partnership Annual Meeting held on 19 September 2016 be accepted as a correct record.

25 **MATTERS ARISING FROM THE MINUTES.**

Toilet Provision and Cleanliness on Gower

Rod Cooper queried progress in respect of the issues raised at the previous meeting, particularly at Rhossili and whether the issue had been highlighted to the relevant Cabinet Member(s).

Councillor M C Child, Cabinet Member for Wellbeing and Healthy City stated that the future ownership and management of the toilets at Rhossili were being discussed with the National Trust.

The Group raised issues in relation to general toilet provision on Gower, particularly the lack of staff resources to effectively manage Council run toilets, the impact poor cleanliness and provision of toilets had upon tourism and the need to improve cleanliness in order for the public to respect the service provided.

RESOLVED that Cabinet Member for Wellbeing and Healthy City provide an update to members on this issue.

Ash Die-Back

Chris Lindley, Gower AONB Team Leader informed the meeting that an information note regarding the disease in Swansea was available on the Council website and details would be circulated to Community Town Councils.

Broadband / Mobile Phone Reception on Gower

The Gower AONB Team Leader updated the meeting regarding the proposed mobile mast at Horton that was being progressed by the UK Governments agents Arqiva under the Mobile Infrastructure Project (MIP). This project finished in March 2016, so development work on the mast had not been completed. He stated that the UK Government had accepted that the MIP had not succeeded in the manner it had hoped. However, he highlighted the enhanced obligations on mobile companies to provide greater coverage over land mass that are being introduced in the Digital Economy Bill which should improve reception in rural areas.

26 **APPROVAL OF AONB MANAGEMENT PLAN.**

The Gower AONB Team Leader presented a report which sought approval of the Gower AONB Management Plan.

It was outlined that the Gower AONB Management Plan (2016) had been produced by the AONB Team on behalf of the Gower AONB Partnership. Once adopted by the Council under the Local Development Plan (LDP), it would form Supplementary

Planning Guidance (SPG) and would be a material consideration in the determination of planning applications within and affecting the AONB. A copy of the Management Plan was provided in the Appendix to the report.

It was added that the first statutory Gower AONB Management Plan was adopted by the Council and published in 2006. The plan was the result of wide-ranging consultation, with involvement from stakeholders over more than two years in meetings, focus groups, site visits, presentations and consultations.

The first review of the Management Plan was initiated in 2010, but had been protracted for a number of reasons. Production of the final Gower AONB Management Plan (2016) had been preceded by review activities and the final Management Plan retained much of the structure and format of the 2006 Plan. The Group was also provided with details of consultation undertaken on the draft Management Plan, legal and resources implications.

The Group discussed the following: -

- *5.33 - Objective 16: To improve the current standard and level of maintenance of public rights of way so that 95% are open, usable and clearly signposted -* specifically concerns regarding future access and provision of public rights of way;
- *The two main activities with a potential impact on Gower are marine dredging for sand and offshore wind turbine developments –* concerns were also expressed regarding barrage schemes and large schemes that could potentially affect the AONB and other areas, e.g. Atlantic Array;
- Use by the Authority of previously published policies, especially those relating to static caravans and chalets and how these areas would be included in the Action Plan;
- *Theme 14: Awareness Raising and Understanding – Vision – A landscape which is fully recognised for its special qualities and is appreciated and understood by residents and visitors –* it was proposed that this theme should be the first theme as it is the most important;
- The need for the Management Plan to be adopted and used effectively;
- *3.71 - Permission may be granted for the specific purpose of providing affordable housing to meet an existing deficiency for people who need to live locally where this cannot be met through the general housing market –* It was highlighted that local Planners needed to adopt the spirit of this objective;
- The need to have a realistic Plan with recordable outcomes, to annually review the Management Plan and to measure against its objectives;
- The formal process of approval through the Authority;
- How bodies other than the Council are affected by the Management Plan;
- *Objective 28: Maintain good practice highway improvements across the AONB -* The requirement to include lowering traffic speed on Gower within the Plan and to consult with residents regarding any new proposals;
- The success of the 2006 Plan particularly an assessment of the objectives and actions from the 2006 Management Plan which shows where objectives and actions had been achieved / completed, not progressed, superseded or required carrying forward into the current plan period;

- The need to have a shortened version of the Plan with clear KPI's;
- Delivering the Plan would involve partner organisations.

Paul Meller, Strategic Planning and Natural Environment Manager informed the Group that Planning Services had changed the method it monitored policies and strategies and those not working would be addressed at an early stage. He added that the Plan would be reported to Planning Committee and subject to approval, would form Supplementary Planning Guidance (SPG) and would be a material consideration in the determination of planning applications within and affecting the AONB. He further stated that the Plan was not simply a planning based document and involved other service areas such as highways, parking and tourism.

It was proposed that the following amendments be made: -

- The two main activities with a potential impact on Gower are marine dredging for sand and offshore wind turbine developments be amended to include sea barrages;
- The Management Plan be regularly monitored and reviewed annually;
- Theme 14: Awareness Raising and Understanding – Vision – A landscape which is fully recognised for its special qualities and is appreciated and understood by residents and visitors be moved to Theme 1 of the Plan.

Given that the Management Plan was more than a planning-based document, the Group felt that a wider approval than that provided by the Planning Committee would be more appropriate.

RESOLVED that:-

- 1) The Gower AONB Management Plan be approved subject to the above amendments being made and that officers then progress Council approval in the manner most appropriate to the Council Constitution;
- 2) The Gower AONB Team Leader report on progress against the Action Plan targets for the next meeting.

27 **PLANNING RELATED MATTERS ON GOWER. (VERBAL)**

Gordon Howe, Gower Society raised issues in relation to planning matters on Gower. He highlighted the following: -

- Colours of static caravans – The colours should be improved on static caravans, particularly as caravans must be renewed after 10 years on site. Some caravan roofs had changed colour but the sides also needed changing. He added that it was a matter of trying to get people to appreciate the difference; Sheds within the AONB being given conditions to make them less conspicuous in the landscape – A number of sheds had been erected on Gower with / without consent that were contrary to planning conditions. He added that the modern materials used on white shed roofs did not fade, unlike older sheds. He had highlighted these cases to Planning Services to enforce.

RESOLVED that the contents of the report be noted.

28 **GOWER LANDSCAPE PARTNERSHIP UPDATE. (VERBAL)**

The Gower AONB Team Leader provided a verbal update regarding the Gower Landscape Partnership.

He outlined that the Partnership had moved to a different model of delivery, which was more of a commissioning role. He provided examples of the work undertaken by the Partnership and updated the Group on membership changes.

RESOLVED that the contents of the report be noted.

29 **SUSTAINABLE DEVELOPMENT FUND UPDATE.**

The Gower AONB Team Leader provided an update report on the Sustainable Development Fund Panel.

It was outlined that this year, the budget for the fund was £55,000. There were currently 17 projects being funded, with a further 4 applications under assessment. Currently £7,626.52 was uncommitted for 2016/17, but this would be fully committed by the end of January.

The Committed Funds figure included a CCS Management Fee of £5,500 (10%).

Total Funds available	£ 55,000.00
Committed Funds	£ 47,373.48
Under Commitment	£ 7,626.52
Pending Applications	£ 7,625.00

The budget for 2017/18 would not be confirmed until March / April 2017, however, the Welsh Assembly Government had indicated that funding for 2017/18 would remain the same as 2016/17. There were 6 projects currently being funded for 2017/18, with 2 applications under assessment and 3 more anticipated within the next 2 months.

A budget of £48,600 was anticipated, with £25,670 currently committed, and applications valued at £20,600 anticipated. It was likely that the fund would be fully committed ahead of 2017/18.

RESOLVED that the contents of the report be noted.

30 **AFFORDABLE HOUSING SUB-COMMITTEE.**

Dates were requested in respect of Affordable Housing Sub-Committee meetings.

RESOLVED that the Gower AONB Team Leader circulates dates to the Sub-Committee.

The meeting ended at 8.35 pm

CHAIR

Agenda Item 7

Report of the Cabinet Member for Enterprise, Development and Regeneration

Council – 23 March 2017

APPROVAL OF THE GOWER AREA OF OUTSTANDING NATURAL BEAUTY (AONB) MANAGEMENT PLAN

Purpose:	To approve and adopt the Gower AONB Management Plan as Council policy and as Supplementary Planning Guidance.
Policy Framework:	Countryside and Rights of Way Act 2000 Council Constitution – Gower AONB Partnership Unitary Development Plan Local Development Plan
Consultation:	Access to Services, Finance, Legal
Recommendation(s):	It is recommended that: 1) The Gower AONB Management Plan is approved and adopted as Council policy and as Supplementary Planning Guidance to the Unitary Development Plan (UDP) and emerging Local Development Plan (LDP).
Report Author:	Chris Lindley
Finance Officer:	Paul Roach
Legal Officer:	Jonathan Wills
Access to Services Officer:	Ann Williams

1. Introduction

- 1.1 The Gower AONB Management Plan (2016) has been produced by the Council's AONB Team on behalf of the Gower AONB Partnership, who approved the Plan (subject to completed amendments) at their meeting on 19 December 2016. Once adopted by the Council as policy, it will also be adopted as Supplementary Planning Guidance (SPG) under the current Unitary Development Plan (UDP) and the emerging Local Development Plan (LDP). As SPG, the Management Plan will be a material consideration in the determination of planning applications within and affecting the AONB. A copy of the Management Plan (2016) is available following this hyperlink:

<http://www.swansea.gov.uk/gowermanagement>

- 1.2 The Gower AONB Partnership ('the Partnership') is the advisory body to the Council, convened by them, to facilitate the management of the Gower AONB. The Partnership works to support the activity of everyone – local landowners, farmer, businesses, visitors, community groups and individuals - in their conservation and enhancement of natural beauty. The Partnership includes the key stakeholders in the AONB representing a wide range of interests. Terms of Reference are incorporated into the Council's Constitution, and the Partnership includes CCS Councillors, Natural Resources Wales (NRW) representatives plus 10 others elected at the Annual Forum.
- 1.3 The Steering Group of the Partnership is responsible for overseeing the management of the AONB, and is responsible for the development of policy and strategy for the AONB area, particularly through the AONB Management Plan. Specific responsibilities of the Steering Group include the preparation of the AONB Management Plan on behalf of the City and County of Swansea, as well as the coordination of its implementation.
- 1.4 The current adopted Management Plan was first published in 2006 and is overdue for its statutory review. This report summarises the Management Plan review and consultation process. Formal approval of this finalised version of the Management Plan is now required from the Council to approve its adoption as policy and for adoption as SPG.
- 1.5 The Management Plan provides policy and guidance that is broader than SPG to the UDP/LDP and the Constitution therefore provides for it to be adopted by Council.

2. Management Plan – Overview and Review Process

- 2.1 The first statutory Gower AONB Management Plan was adopted by the Council and published in 2006. The plan was the result of wide-ranging consultation, with involvement from stakeholders over more than two years in meetings, focus groups, site visits, presentations and consultations.
- 2.3 This first review of the Management Plan was initiated in 2010, but has been protracted for a number of reasons. Production of the Gower AONB Management Plan (2016) has been preceded by a number of preparation stages, including:
 - Statutory notifications letters (to Countryside Council for Wales (CCW) and Welsh Government) of an intention to review the management plan
 - Stakeholder Workshops (in May 2010) to identify key issues for the Management Plan review
 - SEA scoping report and consultation (in autumn 2010) with Cadw, CCW and the Environment Agency (the latter two now combined in NRW); and more recently

- Consultation with the AONB Partnership Steering Group and NRW (in summer 2013) on a draft State of the AONB report
- Public consultation on the draft Management Plan and supporting documentation in 2014/15.

2.4 The latest version of the Management Plan retains much of the structure and format of the 2006 Plan and comprises the following chapters

Chapter	Purpose
1: Introduction	An overview of: the Gower AONB; AONB management and management planning; links with other plans and strategies
2: Resources	Updates the characteristic of the special qualities of the Gower AONB - including their extent and condition - under four themes: <ul style="list-style-type: none"> • Natural • Cultural • Environmental • Recreation
3: Activities and Pressures	An assessment of the activities and pressures acting on the special qualities of the AONB and how they may change in the future.
4: The Vision	The overall 20-year vision for the AONB, expressing the desirable condition, with specific vision statements for 14 key themes.
5: The Strategy	5-year objectives and policies for each of the 14 key themes
6: Action Plan	A 5-year action plan (2014-18) to achieve the objectives and implement policy.
7: Implementation Monitoring and Review	Monitoring and review requirements for: <ul style="list-style-type: none"> • the implementation of the Management Plan • reporting on the condition of the AONB special qualities

3.0 Consultation on Draft Management Plan

3.1 Formal consultation responses on the draft Management Plan were received from the following organisations:

- Natural Resources Wales
- The National Trust
- The Gower Society
- The Countryside Management System Consortium
- Swansea Bay Sustainable Travel and Transport Partnership (Baytrans)
- Glamorgan Gwent Archaeological Trust (GGAT)
- Wildlife Trust of South and West Wales
- South Wales Police
- Friends of Swansea Horses

Responses were also received from ten private individuals/businesses.

3.2 The attached Consultation Report details the responses received and the consequent amendments have been incorporated into the final version of the Management Plan.

3.3 The Gower AONB Partnership gave their approval to the Management Plan at their meeting 19 December 2016. Approval was subject to a small number of minor amendments that have been incorporated into the attached version.

4. Equality and Engagement Implications

4.1 An Equality Impact Assessment Screening was carried out which indicated that, at this level, a full EIA was not required. Any actions undertaken in delivery of the Gower AONB Management Plan will be subject to the standard EIA process.

5. Financial Implications

5.1 Whilst there are no immediate financial implications arising from this report, acceptance of this policy could result in additional expenditure at a future time. Acceptance of the policy does not mean that additional resources will be made available and it should be assumed that future spending needs will be contained within existing budget provision and have full and due regard to the budget principles set out in 'Sustainable Swansea – Fit for the Future'. Delivery of the Action Plan in Chapter 6 is dependent on the AONB Partnership organisations (not just the Council) working together to secure resources and deliver projects.

6. Legal Implications

6.1 The Council have a legal duty under the Countryside and Rights of Way Act 2000 to publish and review the Management Plan for the Gower AONB. The Management Plan is expected to '...formulate their policy for the management of the area of outstanding natural beauty and for the carrying out of their functions in relation to it'.

Background Papers: None

Appendix B Consultation Responses

Agenda Item 8

Report of the Gower AONB Officer

Gower AONB Partnership Steering Group – 27 March 2017

SUSTAINABLE DEVELOPMENT FUND

The aim of the fund is to support innovative, sustainable, environmental projects, which involve local communities in Areas of Outstanding Natural Beauty (AONBs).

The SDF aims, through partnership, to develop and test ways of achieving a more sustainable way of living in countryside of great natural beauty and diversity. The scheme seeks to conserve and enhance the local characteristics of culture, wildlife, landscape, land use and community. Sustaining the social well-being and economic viability of communities were also important aims of this scheme.

Applications are for small grants of less than £3,000 or larger grants of up to £25,000. Applications over £3,000 are assessed by the SDF Grants Panel, which is a subgroup of the AONB Partnership Steering Group.

Funding for 2016/17

Welsh Government had provided £55,000 for 2016/17, with an additional £15,000 confirmed in March 2017. These funds have now been spent, and the funding re-claimed from Welsh Government.

A total of 20 projects were funded by the SDF scheme during 2016/17, with a CCS Management Fee of £5,500.

Total Funds available	£ 70,000.00
Committed Funds	£ 70,003.98
Uncommitted Funds	- £ 3.98
Applications in progress	£ 0.00

Funding for 2017/18

Welsh Government have not yet confirmed the SDF budget for 2017/18, but have verbally indicated that it will be £55,000.

There are currently 8 projects with SDF funding for 2017/18, with a further 3 applications in progress.

The Committed Funds figure includes the CCS Management Fee of £5,500 (10%).

Total Funds available	£ 55,000.00
Committed Funds	£ 31,410.00
Uncommitted Funds	£ 23,590.00
Applications in progress	£ 4,800.00

SDF Grants Panel

The grants panel meets quarterly to consider applications. The proposed dates for 2017/18 are:

- 12th June 2017
- 11th September 2017 (training session)
- 11th December 2017
- 12th March 2018

**Mike Scott,
15 March 2017**

Agenda Item 9

Explainer of what each tab contains.

These quarterly reports are laid out per HLF programme, one per tab.

Programme A = Green 'GNH & GBH' tab

Programme B = Blue 'CP' tab

Programme C = Purple 'AL' tab

Programme D = Red 'HT' tab

In each spreadsheet there are hidden columns for reports from previous quarters; if you w

Greyed out rows indicate that a project has been delivered and is closed.

The lighter grey column is next quarter's report underway, but not complete.

to view these, highlight columns A and F together, right click, and select 'Unhide'.

The final orange tab entitled 'HLF Outputs' contains tables summarising progress against HLF outputs and targets.

A RAG (red, amber, green) coding system has been applied, where:

Red = underachieving, less than 50% of target

Amber = more than 50% of target achieved

Green = target achieved or exceeded

Any queries or suggested amendments / improvements - please contact Helen Grey.

Gower Landscape Partnership - Quarterly Reports
Programme A - Natural and Built Heritage
 Report prepared by Helen Grey, European and External Funding Team

Programme A - Conserving or Restoring	Progress from 1st Oct to 31st Dec 2016	Progress from 1st Jan to 31st Mar 2017	Completion Date	Summary of changes to projects <i>(report any changes and/or risks to the projects agreed goals or state if no significant changes to report)</i>	Budget Implications
GNH2 – Dune Protection Lead: National Trust	COMPLETED	COMPLETED		Change to location of dunes.	-

Future delivery: TBC by National Trust	Progress: Various volunteer days were delivered over the summer months. Future delivery: Will continue with clearance / scrub control as part of work programme.	Mar-18	Please see Change Request 4.	Current approved budget: £0 New approved budget: £1500
GNH4 – Redley Cliff Lead: Wildlife Trust	Progress: Three volunteer work parties (Tues 1-11-16, Thurs 10-11-16, Tues 17-01-17) Future delivery: Expected to be completed in January.	Progress: Project contract completed. Work will continue outside of the contracted elements and vol time recorded. Future delivery: Cotoneaster will be treated early summer and more clearance in winter 17/18.	Mar-17	No changes	-
GNH6 – SINC (incorporating GNH1) Lead: Nature Conservation Team	Progress: Contract offered through Sell2Wales. 3 bids received. Contract awarded to Nature Conservation Team. Kick-off meeting held and first site visit carried out with potential applicant. Future delivery: Implementation of Advisory contract, processing of applications to grant scheme, continued works on CCS-owned sites.	Progress: No completed applications received to date. 6 Projects in pipeline: 1. Penmaen Grazing - National Trust 2. St. Madoc's Centre – pond creation and other works 3 & 4 - Lower Burry Pill SINC – 2 projects with separate owners 5. Llangennith SINC – Sea Buckthorn control 6. Ilston Cwm – knotweed control Number of landowners engaged: 6 Future delivery: Implementation of Advisory contract, processing of applications to grant scheme, continued works on CCS-owned sites.	Mar-18	No changes	-
GNH7 and GNH8 – Geological Heritage Lead: Gower AONB Team	Progress: No delivery activity in the reporting period. Future delivery: Mike Scott of AONB Team is leading in this and has arranged a meeting in February. HG has asked for a project delivery plan (via Chris Lindley).	Progress: Meetings held with NRW & SEW RIGS Group, discussing a work programme to survey 17 Potential RIGS sites in Swansea (Priority Sites). An initial survey on West Cross Pericline has been undertaken – report being drafted. Future delivery: The RIGS Group will organise and carry out surveys on the remaining 16 sites. The site reports will highlight any necessary clearance work, and any interpretation proposed.	Mar-18	No changes	-

GNH9 - Haymeadows Lead: National Trust	Progress: Rattle seed has been spread on 5 fields this winter (hectareage TBC) ready to be included in management activities for	Progress: New sites have been identified for inclusion in the project and will be sown late summer 2017.	Mar-18	Please see Change Request 4.	Current approved budget: £28,100.
	Future delivery: All being well we can start to prepare the ground on many additional ha's in 2017 when the NT plans for Gower have been approved.	Future delivery: Sites already sown will be mown in summer. New sites will be sown later in the year.			
GNH10 – Gower Grazing Hub Lead: Gower Commons Association	Progress: Discussion with Gower Commoners Association have led to proposal to install required cattle grid, gate, fencing on The Wern to allow grazing at that, and other, sites. Application made to SDF to secure additional match funding.	Progress: Issues and concerns have been raised by residents of The Wern Common Residents group. SDF application and approval to start the project have been put on hold giving Gower Commoners Association time to consult with residents. It was agreed at Board that the above proposal be taken out of consideration due to timescales involved. NT put forward that the scope of project be changed to 'removing barriers to garzing' as due to time remaining and the lack of partnership support it is	Mar-18	No changes	
	Future delivery: Await confirmation of funding from SDF.	Future delivery: Working group to identify project / activities to deliver outputs / outcomes using remaining budget.			
GNH11 – Community clean-up Lead: CCS	Progress: No further progress in the reporting period.	Progress: No further progress in the reporting period.	Mar-18	No changes	
	Future delivery: Will depend on recruitment of GLP Support Officer.	Future delivery: Will depend on recruitment of GLP Support Officer.			
GNH12 - Hedgelaying Lead: CCS	Progress: No further progress in the reporting period.	Progress: Programme of 20 days' hedgelaying has been arranged. Includes contractor only days as well as sessions for volunteers. On National Trust and privately owned sites. New tools and safety equipment purchased. additional ~ 250m of hedge has been laid	Mar-18	No changes	
	Future delivery: Need to identify sites. Discuss with GLP partners.	Future delivery: Landowners, farmers being contacted to confirm sites for next hedgelaying season. Need to plan ahead and promote more widely and with advance notice to maximise opportunities for			
GBH 1, 2, 4 – Built heritage repairs Lead: Gower AONB Team	Progress: Condition survey was carried out on Pill House Pig Sty and report received.	Progress: None in reporting period	Mar-18	No changes	
	Future delivery: TBC by Gower AONB Team	Future delivery: Review meeting with Steve Smith w/c 13/3/17. CL and MS compiling list of proposed sites for working group to assess.			
GBH3 – Erosion repairs at promontory forts (included in GNH3)	NO LONGER PART OF PROGRAMME	NO LONGER PART OF PROGRAMME	N/A	Please see Change Request 1	The original budget of £4,000 has been directed to GNH9, Haymeadows
	NO LONGER PART OF PROGRAMME	NO LONGER PART OF PROGRAMME			
GBH5 – Geophysical survey of Knave and Paviland	COMPLETED	COMPLETED	Dec-14	No changes	
	COMPLETED	COMPLETED			
GBH6 – Restoration of Mewslade coastal wall Lead: National Trust Contractor: Andy Roberts	Progress: Contract offered through Sell2Wales. Two contractors expressed interest and attended site visits. Only one bid received. Awarded to Andy Roberts (who did the work on The Vile last year). Andy started work on site 1st December.	Progress: 25 m of wall has now been rebuilt. A group from HLF Wales office visited the wall.	Mar-18	No changes	£13k cash match from Gower Society confirmed.
	Future delivery: Continue with rebuilding and planning for taster sessions with groups / volunteers.	Future delivery: Dates for taster sessions: will take place in May, June, July. PJ to confirm exact dates with Andy Roberts.

JOB: Internal jobs	3.5	0	3.5	

Agenda Item 10

Report of the Gower Society

Gower AONB Partnership Steering Group – 27 March 2017

LIGHT POLLUTION

For some considerable time the Society has been observing an increase in light pollution on the Gower AONB. This has been emphasised by the results of the excellent work that the City and County of Swansea have carried out on street light replacements over the last three years. These lights have, we understand, been specifically installed to prevent upward light pollution as well as saving running costs as they use less electricity.

The following examples of light pollution are quoted because they notably impinge upon the Dark Skies Zone (a National Designated Scheme) in the Gower AONB and do not appear to comply with the excellent CCS 'Lighting Guidance for Gower AONB' that came into force about 10 years ago. The examples are not conclusive and some are worse than others. They are examples, however, that appear to contradict the Dark Skies Designation and the Lighting Guide.

- 1) The new Swansea FC Training grounds at the University of Swansea Playing Fields at Fairwood. A great number of badly directed lights that are more intrusive than the adjacent Upland RC ground. On the Gower fringe.
- 2) The Kittle Egg Farm where external lighting is seen from many directions because it does not shine purely downwards and it is in an elevated position. Hardly necessary?
- 3) Contractors Yard at Pwll yr froga, Marsh Road at Crofty. A new 'barn' has extensive external lighting. Installed recently.
- 4) Opposite Crofty, the Golf Club Driving Range at Machynys, Llanelli. High intensity lighting pointing over to Gower across the estuary and shines directly over to the AONB. This is totally unacceptable and individuals who live opposite it complain about the lights shining into their homes. On most nights until about 10 pm.
- 5) Crickton Farm at Llanrhidian. External lighting polluting the skies and seen from Cefn Bryn and from the highway at Llanrhidian. The glow upwards has to be seen to appreciate the impact that this has!
- 6) Static Caravan Site at Greenways Oxwich. This is increased lighting 'by stealth' and whilst there are no individual lights of high strength the impact is due to sheer numbers and tree removal. Seen mainly from the A418 at Nicholston and Penmaen as well as Cefn Bryn.
- 7) Llanrhidian Park. A gradual increase of light pollution work at the club house (and Purple Badger enterprise) has increased outside lighting and removal of trees. Also increased lighting at the entrance.
- 8) The various other rugby grounds at Penclawdd, Scurlage, Upper Killay, Gowerton all add to the problem but have at present relatively limited use during the week. However the lights do direct out of the area and it may be possible to adjust downwards.

- 9) Garage signs at Knelston Filling Station. Contrary to Planning Appeal decision some 10 years ago. Reported as a formal complaint three months ago by the GS.
- 10) Scurlage Surgery and Pharmacy. Two large and high orange sodium lights that can be observed sideways on from every angle as well as perimeter lights around the structure. Needs attention for certain.

There is no question that there are many other examples within the AONB and it is generally caused by lack of appreciation of the impact and none compliance with the Lighting Guide. Pitton Cross Camp Site did an excellent corrective lighting scheme a couple of years ago and it made a significant beneficial impact on the night landscape and skies.

GRH 11/03/17

Agenda Item 11

Report of the Gower AONB Officer

Gower AONB Partnership Steering Group – 27 March 2017

AONB ANNUAL FORUM – ELECTION OF STEERING GROUP MEMBERS

The Gower AONB Partnership will hold its Annual Forum at Reynoldston Village Hall, on Monday, 26th June 2017, at 7pm.

The Partnership is a membership body, open to anyone with an interest in Gower. It is an advisory group to the Council, convened by them, to facilitate the management of the Gower AONB, in fulfilment of their legal responsibilities and duties with regard to the Gower AONB.

Each year the Gower AONB Partnership holds an Annual Forum, at which we talk about what has been achieved by the partners, and what we intend to do in the next year. Importantly, we also elect representatives to a Steering Group, which oversees the development and implementation of the Gower AONB Management Plan by the partners.

The Steering Group acts as the managing body of the AONB Partnership comprising up to 6 Councillors, 2 representatives from Natural Resources Wales and 10 other representatives.

In May, we will invite nominations for the election of these 10 other representatives, with information sent out to the members of the AONB Partnership, and promoted through local media. The appointments are for two years.

It is anticipated that these other representatives will come from the following groups:

- Community Councils
- Nature conservation
- History and archaeology
- Land owning/farming/forestry
- Commoners
- Rural business
- Tourism
- Recreation
- Local interest groups
- Residents of the Gower AONB

The role of the Steering Group is to oversee, guide and monitor the work of the Partnership, as they work to implement the Management Plan. They also help to manage the Sustainable Development Fund – a small grant scheme funded by Welsh Government, which supports a variety of projects within the AONB.

The Steering Group meets about 4 times a year, and its members are expected to promote and disseminate the work of the AONB Partnership within the groups and interests they represent, and to speak on behalf of those groups and interests.

Mike Scott, 15 March 2017
