Councillor(s)

M A Langstone
P M Matthews

Officer(s)

Ben George
David Hughes
Chloe Lewis
Martin Nicholls
Samantha Woon

Team Leader – Transport Strategy and Monitoring
Principal Engineer
Transport Strategy Officer
Director of Place
Democratic Services Officer

Apologies for Absence

Councillor(s): P R Hood-Williams

4 Disclosures of Personal & Prejudicial Interests.

In accordance with the Code of Conduct adopted by the City and County of Swansea, no interests were declared.

5 Minutes.

Resolved that the Minutes of the Economy and Infrastructure Policy Development Committee held on 17 September, 2020, and 1 October, 2020 be approved as a correct record.

6 Active Travel.

The Team Leader, Transport Strategy and Monitoring, provided a briefing on the development and delivery of the Active Travel Programme.

Members' noted the Policy Framework, Barriers and Trends, Active Travel Programme, Projects, Bayways Promotional Campaign, Forward Programme and Community Benefits.

Members' asked questions of the Officers who responded accordingly.

The Chair thanked Officers for their informative report.

Resolved that the report be noted and the Committee examine the results of the consultation exercise which would take place in the Spring of 2021.

7 **Amnesty on Waste.**

The Head of Waste Management referred to the previous initiatives undertaken by the Local Authority by placing skips (with operatives) within communities. However, this initiative had been undertaken prior to the current sensitivities surrounding waste management and the various initiatives to enable residents to manage and recycle their own household waste effectively.

It was noted that providing skips with operatives within communities would be extremely labour intensive and may cause animosity given the good recycling centres in place. Furthermore, it would contradict the current recycling strategy. However, awareness raising regarding fly tipping and recycling could be disseminated through Waste Management's usual promotional exercises.

Members' asked questions of the Officer who responded accordingly.

Comments regarding the procedure for bulky waste collections would be relayed to the relevant Cabinet Member. However, Member's noted that the current procedure had previously been approved by Cabinet.

The Chair thanked the Officer for his informative presentation.

Resolved that:

1. the update be noted.
2. The Director of Place discuss the comments raised with the relevant Cabinet Member.

8 **Workplan 2019/2020.**

The Chair referred to the Work Plan for 2020/2021.

The Chair requested that all future reports be in written format, as opposed to verbal updates.

Resolved that the Work Plan for 2020/21 comprise the following:

Meeting Date	Agenda items and Format
15 October 2020 Cancelled	1. Amnesty on Waste (Update). 2. Active Travel. 3. Local Toilet Strategy. (Link to be circulated to Members)
22 October 2020	1. Active Travel. 2. Amnesty on Waste.

Minutes of the Economy & Infrastructure Policy Development Committee (22.10.2020)
Cont'd

19 November 2020	1. Local Toilet Strategy.
17 December 2020	1. Green Infrastructure Strategy.
21 January 2021	1. Swansea's Economy.
18 February 2021	
18 March 2021	
22 April 2021	1. Active Travel.
To be Scheduled	1) Implications of COVID 19 on Swansea's Tourism. 2) Implications of Brexit. 3) High Street Empty Properties. 4) Homes as Power Stations. 5) Citing of Bus Stops within Swansea.

The meeting ended at 3.06 pm

Chair

Report of the Director of Place

Economy & Infrastructure PDC

19 November 2020

Local Toilet Strategy and Public Consultation

1. Background

The Public Health (Wales) Act 2017 received Royal Assent on the 3 July 2017. The Act brings together a range of practical actions for improving and protecting health. Part 8 of the Act introduces provision of toilets and specifically local toilets strategies.

To achieve this, the Act places a duty on each LA in Wales to prepare and publish a local toilets strategy for its area. The Act provides that a strategy must include an assessment of the community's need for toilets, including changing facilities for babies and changing places facilities for disabled people. The strategy must also provide details of how the LA proposes to meet the identified need.

The duty to prepare a strategy does not in itself require LAs to provide and maintain public toilets themselves, but they are required to take a strategic view across their area on how these facilities can be provided and accessed by their local population. In doing so it is envisaged that LAs will consider a full range of options for making facilities available to the public. By way of example, if a toilet is not available at a park but a LA identifies a need for one, then the LA should consider different ways of meeting that need. This could be by the LA directly providing the facility, or by the LA working with a private business within or near to the park to make their facilities freely available to the public.

As part of the process the council is required to firstly assess the need for public toilets which has been completed and then draft its strategy which was carried out in conjunction with the British Toilet association. Following this it was published so that the Council could seek views via public consultation. This report outlines the feedback from the public consultation which was unfortunately delayed due to the Covid pressures earlier this year.

2. Public Consultations

The full strategy and an easy to read version were published for public consultation and which closed on the 18th September.

There were 68 responses by this date with the responses enclosed in Appendix A and by and large the results were positive with some of the key findings as follows:

- 70.8% of people thought the strategy covered what was needed;
- 70.4% agree or strongly agreed that it was easy to understand and also the same result of easy to read;
- 77.8% of people agreed or strongly agreed that it was informative;
- however slightly less, 53.5% agreed or strongly agree it was the right length.

The main points made in these responses were:

- the overwhelming support for public toilets;
- the fact that the strategy was published and views sought was welcomed;
- the concern the strategy was too long (it is assumed that these responses hadn't picked up on the easy to read version);
- the concern that there are insufficient toilet provisions in some areas;
- strong support for changing places toilets;
- concern that the document was about what currently was in place as opposed to what would be provided in the future. *This is a fair comment although the action plan was always intended to flow from the strategy and consultation*

It is therefore believed that the overall responses were positive and welcomed the strategy but that some changes can be made which are summarised as follows:

- consider in the future the need to have the full version and easy to read;
- a need to publish the forward plan of proposed changes and improvements;
- ensure that the current toilet provision is well published;
- considered where any shortfall in provision exists with particular focus on changing places toilets and toilets in the wider city and county area.

3. Recent and upcoming developments

It seems appropriate to also refer within this note some of the more recent commitments made by the council in relation to public toilets which are summarised below:

- the completion of the new public toilets in Swansea Market opened to the public in September;
- the completion of a changing places toilet block at Caswell which is now closely aligned with the new surfability building delivered by DIY/SOS and into which the council provided significant support;
- the new toilet being delivered as part of the “pod in the park” alongside the new digital area due for completion at the end of next year;
- the new changing places toilets being delivered as part of the arena development;
- the new Toilet Map for Swansea delivered in conjunction with the British Toilet association which sets the template for roll out across the whole of Wales;
- the reopening of Gorseinon toilets following a period of closure after refurbishment works was completed;
- the reopening of public toilets in the Marina;
- the inclusion of a capital allocation for Public Toilets for 19/20 with the intention for this to apply in future years (subject to Cabinet approval) .

4. **Next Steps**

The views of the PDC are welcome both on the strategy itself and the results of the public consultation prior to it being reported to cabinet. Following Cabinet a cross Council delivery group will be set up to take the recommendations forward. There will also be a stakeholder forum developed and many of those who responded to the consultation indicated that they would like to remain involved or consulted going forward.

5. **Legal Implications**

There are no direct legal implications.

6. **Financial Implications**

There are no direct financial implications arising out of this report.

7. **Equalities Implications**

There are no equality implications associated with this report.

Report of the Head of Planning & City Regeneration Economy & Infrastructure PDC - 19 November 2020

Economic Recovery Action Plan

1. Introduction

- 1.1 An important message in the wake of the Covid crisis is a clear understanding that the problems being faced have accentuated the regeneration journey the City and wider county has been on, accelerating new ways of working and interacting, but also highlighting their drawbacks and the need for interaction in social hubs in all spheres of life.
- 1.2 The most visible sign of confidence has been the ongoing delivery of our major strategic investments, most notably the Digital Arena project, which, with careful planning has proceeded at pace and is now forming a new part of the Swansea skyline. Still programmed to meet the published timetable for completion, this and other major projects look beyond the Covid crisis. Design work has also continued on the 71&72 The Kingsway Digital Village development at the site of the former Oceana building. Another major development that prepares the way as a major social hub for working and playing that has been so missed during the Covid-lockdown.
- 1.3 Following easing of the lockdown restrictions, partnership working between City Centre Management, Swansea BID and our many businesses and traders has ensured the seamless and safe reopening of our City Centre. Welsh Government have approved repurposing of Transforming Towns Targeted Regeneration Investment (TRI) Programme funding to provide grant assistance to businesses to adapt to trading in line with social distancing requirements and a new Swansea Premises Outdoor Adaptions Grant has been launched. Every effort continues to be made to ensure safe and easy access to key facilities. The Rural Development programme has opened a fast track grant funding window to support rural communities, and the Crowdfund Swansea platform has launched a new funding round to support community organisations.
- 1.4 Planning for the future, as stated above, is becoming an accelerated version of the journey we were already on. We need more city and town centre living. We

need more jobs of all types across all sectors of our economy and the skills training in place to ensure our people are qualified to take them, or create them. We need more start-up businesses. We need our existing businesses to have the confidence to invest and grow. We need more quality office space for businesses to interact in open social environments. We need greener and more vibrant public spaces. We need people to shop local. Our ongoing programme of major grant and interest free loan investments, with many secured in the past few months, are ensuring all this work is being advanced.

2. Swansea Economic Recovery Action Plan

- 2.1 To support the recovery of the local economy from the covid-19 pandemic the Regeneration Swansea partnership is developing an economic recovery action plan for Swansea, which sets out the actions we need to take to support businesses, support individuals and improve resilience of the local economy. It will draw in funding and resources from Swansea Council, Welsh Government and other partners. The economic recovery action plan expands on the Council's wider Covid Recovery Plan.
- 2.2 The Economic Recovery Action Plan is focusing on the key aims of:
- Raising Confidence
 - Supporting Businesses
 - Championing Local Food
 - Supporting Tourism
 - Developing Skills & Employability
 - Growing the Green Economy
- 2.3 Successes to date include:
- The successful reopening of the city centre through partnership working between City Centre Management, Swansea BID, local traders and businesses. Data from Centre for Cities showed that Swansea was one of the most successful cities in the UK at attracting footfall back during the summer following the relaxing of covid-19 related restrictions.
 - Launch of the Swansea Premises Adaptions Outdoor Trading Grant in July, using Welsh Government Transforming Towns Targeted Regeneration Investment (TRI) funding. Over 200 grant awards are being made to local businesses across the county.
 - Administering Welsh Government grants to local businesses to support them through the covid-19 pandemic through schemes such as the covid-19 business rates grants, start up grants, cultural freelancer grants, local lockdown grants.
 - Extended and adapted employability provision to continue supporting individuals throughout the pandemic, including short term unemployed. Over 300 people have been supported since the start of the lockdown in March, over 130 helped into employment and over 1,500 training weeks created through Beyond Bricks and Mortar.
 - A Shop local campaign is being launched this month to encourage people to support their local businesses and economy.

- 2.4 Actions currently being progressed by the Council and Regeneration Swansea partners include:
- Exploring potential for using vacant space in city centre for meanwhile uses to support new and growing businesses and cultural/ creative activities
 - Developing proposals for a business centre to support new and growing businesses
 - Securing funding for small start-up bursaries to support new businesses and self employment.
 - Setting up paid work placements within the Council and expanding existing provision of work placements with employers utilising existing employability programmes and as part of the new DWP Kickstart programme
 - Delivery of the #Brand Swansea project, a pilot grass roots initiative to improve perceptions of Swansea and feed into development of a Swansea brand
 - Developing programme of work to promote local food and support local producers through the Swansea Food Partnership, to build on the increased use of local food producers/ suppliers in recent months
- 2.5 The economic outlook is still uncertain, so the economic recovery action plan is a working document that is evolving as circumstances change. A full copy of the latest draft plan is included in Appendix A.

Appendix A: Draft Economic Recovery Action Plan – November 2020

Actions	Timescale	Partners (lead in bold)	Funding	Progress to date	Next steps
Aim: Raising Confidence					
Delivery of reopening city centre action plan	July 2020	City Centre Management / BID	Council/ BID	Successful reopening	Completed
Support businesses to adapt to outdoor trading/ social distancing through delivery of TRI Premises Outdoor Adaption Grant (POAG) in city and district centres	Grant launched 29.7.20 and closed 4.9.20.	Swansea Council / BID	WG TRI	207 applications are being processed	Finalise issuing of grant awards and collect case studies of completed schemes
Explore potential for pop up activity (food related, cinema, cultural events etc) in city and district centres and the beachfront	July 2020 onwards	Swansea Council	WG TRI	Related to PEDG meanwhile use scheme, and POAG grant funded schemes
