Swansea City Heat Futures- District Heat Network, Detailed Project Design (DPD)

Swansea Council is seeking to develop a Heat Network which can aid its ambitions on achieving net zero and a council by 2030 and as a city by 2050.

This compliments the proposed 'Blue Eden' development and if successful will deliver heat from an onsite Data Centre via a new network supplemented as necessary.

The Heat Network project is anticipated to deliver a significant long-term carbon benefit, estimated at a carbon reduction in the region of 460,000 Tonnes CO2e, over a 40 year period. The project ties in with key economic, environmental community benefits objectives for the city/county and will support emerging regeneration, skills, employment and fuel poverty objectives.

This DPD builds on previous high level work carried out as part of a previous successful Community Renewal Fund (CRF) project and prior techno-economic investigation. The DPD is a means of presenting a full business case and design for a heat network, to assist the decision making process and future funding asks.

**Q3 What involvement has taken place/will you undertake e.g. engagement/consultation/co-productive approaches?
Please provide details below – either of your activities or your reasons for not undertaking involvement**

This design stage itself is still being scoped but stakeholder engagement will be required when determining demand, supply and technical design issues.

Q4 Have you considered the Well-being of Future Generations Act (Wales) 2015 in the development of this initiative:

- a) Overall does the initiative support our Corporate Plan’s Well-being Objectives when considered together?
Yes No
- b) Does the initiative consider maximising contribution to each of the seven national well-being goals?
Yes No
- c) Does the initiative apply each of the five ways of working?
Yes No
- d) Does the initiative meet the needs of the present without compromising the ability of future generations to meet their own needs?
Yes No

Q5 What is the potential risk of the initiative? (Consider the following impacts – equality, socio-economic, environmental, cultural, legal, financial, political, media, public perception etc...)

High risk

Medium risk

Low risk

Q6 Will this initiative have an impact (however minor) on any other Council service?

Yes No If yes, please provide details below

Q7 Will this initiative result in any changes needed to the external or internal website?

Appendix A - Integrated Impact Assessment Screening Form

Yes No If yes, please provide details below

Q8 Does the initiative involve changes to the way you process the personal data of Council staff or service users, for example the purchase of new customer management software?

Yes No

If your answer is yes, you should also screen the initiative for any implications regarding privacy and other GDPR rights and consider whether you need to amend your entry in the Council's Information Asset Register. Please use the following link to the online screening form for a Data Protection Impact Assessment <https://staffnet.swansea.gov.uk/dpiascreeing>
For more about the Information Asset Register, please see <https://staffnet.swansea.gov.uk/informationassetregister>

Q9 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?

(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)

Outcome of Screening

Q9 Please describe the outcome of your screening using the headings below:

- **Summary of impacts identified and mitigation needed (Q2)**

At this design stage the immediate impact would be zero. Should the project progress to completion then there would be a small positive impact for all persons as it would have a positive impact on the drive to make Swansea a Net Zero City and County (by 2030 and 2050).

- **Summary of involvement (Q3)**

Stakeholder engagement will be undertaken in line with the demands of the proposal but at this stage will likely be focussed on demand, supply and resolving technical design issues.

- **WFG considerations (Q4)**

This initiative fully aligns to the Well-being of Future Generations (Wales) Act 2015 by seeking to deliver a significant long-term carbon benefit, estimated at a carbon reduction in the region of 460,000 Tonnes CO₂e, over a 40 year period.

In doing so it could also provide economic, environmental community benefits objectives for the city/county and will support emerging regeneration, skills, employment and fuel poverty objectives.

- **Any risks identified (Q5)**

As this piece of work is to design a project proposal, no risks have yet been considered.

- **Cumulative impact (Q9)**

The cumulative impact will be positive.

Appendix A - Integrated Impact Assessment Screening Form

All persons will receive the benefit of a city/county that produces less carbon.
There are no anticipated detrimental impacts on any protected groups, or communities of interest or place.
