| Western Bay<br>Programme -<br>Regional Area<br>Planning Service | From April 2013, the Welsh Government stipulated that Area Planning Boards would manage the Substance Misuse Action Fund (SMAF) as one regional allocation, with one of the Local Authorities acting as the grant recipient body. They also required assurances that the commissioning support previously focused at Local Authority level would instead form a regional commissioning structure. The final step to complete the process of establishing full regional arrangements for the Western Bay Area Planning Board is to establish a regional management structure. | Deborah Driffield | Cabinet Member -<br>Wellbeing and<br>Healthy City | Cabinet                 | 18 Nov 2014                     |

| Procurement of a Waste Partner Contract Award | The negotiations with the incumbent gas contractor have progressed and a decision is required regarding the proposed short-term capital purchase of the generating station to increase long-term revenue income. Not withstanding the decision relating to landfill gas revenue, the primary reason for the contract is the medium-term handling of the Authority's residual waste and development/closure of Tir John. It is therefore recommended that the final contract is completed with the Preferred Bidder thus allowing the ongoing development and closure of Tir John. | Chris Howell  | Cabinet Member - Environment and Transportation | Cabinet                 | 16 Dec 2014                     |
