However the amount of current tenant arrears as at Quarter 3 this year was £1,095,186 which is an improvement on £1.2m as at Q3 in 13/14. Robust monitoring, early intervention and support for tenants continues to be in place As a result of the systems thinking review a number of improvements have been put in place to help reduce void levels. Additional improvements to working practices are ongoing. At Q3 voids were 298 against a target of 320. Key performance measures also focus on supporting tenants to help them sustain tenancies. These include the reduction of ASB levels, an increase in the number of tenants receiving tenancy support/financial advice and membership of the credit union. All indicators are on track as at Q3 and it is anticipated that year end targets will be met. 	<p>Key performance measures include;</p> <ul style="list-style-type: none"> Performance for the average number of working days between homeless presentation and discharge of duty for households found to be statutory homeless was achieved for Q3, i.e. 45 days against a target of 52 days. Update on progress with delivering additional affordable housing provision.

Increasing the supply of affordable homes

In 2013 the Affordable Housing Scrutiny Panel recommended that innovative models of delivering affordable housing are explored and debated. Since this time, officers have looked at a number of models and one in particular is being assessed in detail. In addition, the Authority has successfully applied for extra resources that have become available from a range of Welsh Government Initiatives.

- 2013/14 – the Authority successfully applied for £1.7m under the Welsh Government's Smaller Properties initiative which was set up in response to Welfare Reform. In addition, the Authority worked with RSLs to secure Housing Finance Grant from the Welsh Government to build 137 more affordable housing over the next few years. The WG also allocated the Authority an extra £1m SHG at the end of the financial year on top of the Authority's initial annual allocation of £2.77m
- 2014/15 – The Authority again successfully applied for £1.7m under the Smaller Properties initiative and was allocated an extra 664K of SHG on top of the annual allocation of £2.77m. Officers are currently working with RSLs to apply for further funding under the next round of the Welsh Governments Housing Finance Grant initiative.

Significant changes in the way Council Housing is financed in Wales are scheduled to take effect from April 2015. The dismantling of the Housing Revenue Account Subsidy (HRAS) system coupled with the reform of the rent setting policy will provide additional resources for the Housing Revenue Account (HRA) over the longer term, to invest in the existing stock as well as providing more affordable housing including the building of new Council housing.

Detailed work has commenced to develop a strategy for making best use of these resources in terms of additional affordable housing and this study will aim to correlate available land supply with an updated assessment of needs to inform a programme of new build. The project will also appraise available funding options to support new Council housing and for making best use of HRA resources for more affordable housing generally.

In terms of actual development, this will need to tie in with the availability of funds. However, options for a pilot scheme for new Council housing to test viability and explore specification options is also being explored.
