Dear Hilary

Thank you for your letter of 9th May detailing support for public services board development from Welsh Government, Academi Wales and the Future Generations Commissioner's Office.

Swansea PSB would like to accept the offer of a half day 'healthy boards' training session with Academi Wales. Swansea PSB is committed to developing a culture that supports the development of 'One Welsh Public Service'.

This is especially pertinent given Swansea Local Well-being Plan's cross cutting action which aims 'to work towards integrated public services in Swansea by sharing resources, assets and expertise'. This support would complement the step 'Understanding one another's priorities in terms of the short term action 'walking in our shoes'. This programme has facilitated board development to date through through a greater understanding of each other's core business and challenges.

We look forward to the Summer launch of the 'Guide for Good Governance in the Public Sector'.

Yours sincerely

COUNCILLOR ROB STEWART
CHAIR OF PSB
