(b) Please name and describe here:

This screening relates to acceptance of the funding from the Welsh Government Integrated Care Fund and Transformation Fund

The Integrated Care Fund (ICF) aims to drive and enable integrated working between social services, health, housing, the third and independent sectors. The focus of the fund is to enable older people to maintain their independence and remain at home, avoiding unnecessary hospital admissions and delayed discharges. It also supports the development of integrated care and support services for other groups of people including people with learning disabilities, children with complex needs and autism.

The Transformation Fund will be targeted to priority projects and to new models of health and social care, with the aim of speeding up their development and demonstrating their value. The initial focus of the Transformation Fund will be on models which make early progress on: seamless alignment of health and social care services; local primary and community based health and social care delivery; and new integrated prevention services and activities. The Fund is intended to meet the time-limited additional costs of introducing new models of health and social care. It is aimed at accelerating the wider adoption and scaling up of new ways of working which are intended to replace or reconfigure existing services. In particular the Fund is designed to quickly validate the ‘scalability’ of new models (their ability to expand from a locality to a region, or from a region to other regions) and to test whether they are ‘transformative’ (affordable and sustainable, changing or replacing existing approaches rather than adding an extra layer on to them).

Acceptance of the funding has no impact on how the public access this service at this point in time, however as projects develop through these funding streams individual screenings and a full EIA report will need to be completed.
