The WHF is a £150million fund administered by AWS across England, Wales and Scotland, to incentivise the installation of affordable heating solutions in fuel poor households who do not use mains gas as their primary heating fuel. It is envisaged that the fund will be used to supplement local strategic plans and other funds available. The service will be available to eligible households regardless of whether they have a protected characteristic or not. The partner organisations will be made aware of the Council's Public Sector Equality Duty, and the work will be monitored by the Council.
