M Describe the steps you intend to take to promote the four licensing objectives:

a) General – all four licensing objectives (b, c, d and e) (please read guidance note 10)

The Council's cumulative impact/special saturation policy affects this application in that the premises falls within the relevant areas defined within the policy which has been adopted by the Council. The applicant understands that the effect of the special policy is that there is a presumption against granting any application for a premises licence that is likely to add to the cumulative impact.

The operating schedule which forms part of this application describes the measures which the applicant will take to mitigate any such impact.

The applicant holds a premises licence in respect of the subject premises. This application for a new premises licence is made subject to and with the benefit of the protection of the measures which by condition the applicant is required to take in accordance with the existing premises licence to mitigate any impact in relation to the special policy and in order to promote the licensing objectives.

In due course and once the full benefit of the beneficial use of the new licence if granted is taken up the applicant will surrender the existing licence.

The reasons why the applicant contends that this application should be an exception to the special policy are as follows: -

1. For the reasons stated above.
2. The applicant reasonably expects that its clientele will be patrons who already use the Wind Street area and in the main patrons who already use the subject premises under the terms and conditions and consents contained within the existing premises licence. In consequence from that perspective there will be no increased cumulative impact as such persons are already in the area using the facilities in Wind Street and using the facilities of the subject premises.

It is the intention of the applicant to offer its patrons, who are anticipated to be its existing patronage and existing Wind Street customers, facilities which are improved in terms of comfort and safety when compared with the existing licensed layout under the existing premises licence. Far from having a negative impact upon the promotion of the licensing objectives this will have a positive impact in relation to such promotion.

The applicant's management team are experienced and well respected operators of licensed premises in Wind Street. Based upon their experience they do not expect or anticipate that any additional people will be attracted to use of the existing licensed facilities within the special policy area as a result of this application being granted. The applicant reasonably considers that the prospect of attracting additional people into the Wind Street area over and above those who are already using the facilities in the Wind Street area is very limited.

The trading hours and proposed licensed/regulated activities are identical to those within the existing premises licence and it has been the applicant's experience to date that the gradual arrival and gradual departure of patrons to and from the premises over the period of its main trading hours promotes the licensing objectives.

The applicant therefore considers that it is unlikely that the grant of this licence will add to the cumulative impact upon the licensing objectives.

The premises will remain open for 30 minutes beyond the terminal hour for the provision of food and drink and licensable activities to enable clientele at the premises to continue to use the toilet facilities and to leave the premises and the area in an orderly manner.

b) The prevention of crime and disorder

1. CCTV will be provided in the form of a recordable system, capable of providing pictures of evidential quality in all lighting conditions particularly facial recognition. In such circumstances there is to be at least one SIA registered door supervisor on duty within close proximity to the table at which the bottle is served. The disapplication of the requirement in relation to non glass receptacles shall further apply in relation to parties at pre booked tables. Once the bottle which had contained the unmixed spirit or champagne is empty it is to be returned to the bar servery by waiter/waitress for disposal. Once a party of patrons leaves their pre booked table then the bottle, whether empty or full, is to be immediately returned to the bar servery by waiter/waitress. The management are to keep a record of prebooked tables for the purpose of this condition and are to make sure such records are available for inspection by a police or licensing officer upon request.
