Q3	What involvement has taken place/will you undertake e.g. engagement/consultation/co-productive approaches? Please provide details below – either of your activities or your reasons for not undertaking involvement An initial consultation took place in March 2019, this informed the development of a draft strategy. Public consultation was completed on the draft strategy document in September 2020. A stakeholder group has been formed to inform and shape the delivery of the strategy. The next review of the strategy must be completed by 4 th May 2023, this will also involve a consultation exercise.								
Q4	Have you considered the Well-being of Future Generations Act (Wales) 2015 in the development of this initiative:

d)	Does the initiative meet the needs of the present without compromising the ability of future generations to meet their own needs? Yes No								
Q5	What is the potential risk of the initiative? (Consider the following impacts – equality, socio-economic, environmental, cultural, legal, financial, political, media, public perception etc)								
	High risk	Medium risk	Low risk						
Q6 Will this initiative have an impact (however minor) on any other Council service? Yes									
	The strategy, whilst overseen by the Cleansing and Parks Service, will have an impact on the Culture and Tourism Service, by providing improvements to the public facilities in key tourist areas and by potentiall connecting existing leisure and tourism facilities to a broader network of publicly available toilets. It will also seek to inform economic developments by ensuring appropriate toilet facilities are included in new schemes.								

Q7 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?

(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)

The development of a Public Toilet Strategy, for Swansea, will improve the accessibility of public toilets for the whole of Swansea's population. However, a key element of the strategy is that it is informed by a needs assessment. The strategy seeks to improve the equitability of Swansea's public toilet provision by improving the accessibility of facilities for those communities most disadvantaged by existing provision. The increased provision of "Changing Places" will improve the accessibility, safety and dignity, for people who have more complex needs when using toilet facilities.

Outcome of Screening

Please describe the outcome of your screening below: Q8

- Summary of impacts identified and mitigation needed (Q2)
- Summary of involvement (Q3)
- WFG considerations (Q4)
- Any risks identified (Q5)
- Cumulative impact (Q7)

This is a low risk proposal as it will deliver an improvement in service provision that should have a positive impact across the population, particularly those whose health conditions bring more complex needs when using toilet facilities. It has been consulted on and supports our ambitions with regard to the Wellbeing of Future Generations Act. Changes to the published action plan and actions arising from subsequent reviews will also be subject to an IIA.
