## **Outcome of Screening**

Q8 Please describe the outcome of your screening below:

- Summary of impacts identified and mitigation needed (Q2)
- Summary of involvement (Q3)
- WFG considerations (Q4)
- Any risks identified (Q5)
- Cumulative impact (Q7)

The impacts have been categorised as medium as there is the potential to positively change and adapt services based on complaints received. The exception is where policies and processes are governed by statutory legislation, therefore the impact remains the same.

With regard to the summary of involvement, complaints from the public are used as a valuable tool to adapt, change and develop services.

Well-being and future generations considerations around this annual report include:

- Using complaints information to adapt and shape services for the future
- Using Welsh Language complaints to ensure the Council not only meets the existing standards but also encourages and promotes the Welsh Language
- Using complaints information to prevent problems occurring or getting worse
- Viewing complaints in an integrated way, especially where a complaint may involve multiple public sector organisations.

The report adheres to the transformation and future council development well-being objective in the Corporate Plan - so that we and the services that we provide are sustainable and fit for the future.

The report provides historic performance information and therefore risks are considered low.

With regard to the cumulative impact, this is an annual performance report. When a complaint is received by a service opportunities to adapt, review or change ways of working are considered at that point. However, some policies and procedures are related to statutory legislation and cannot be changed locally.
