# Q7 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?

(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)

The policy is intended to provide enhanced provision of outdoor hospitality venues It will likely present more opportunities but will ensure commercial equity whilst giving all stakeholders an opportunity to make representations.

#### **Outcome of Screening**

Q8 Please describe the outcome of your screening below:

- Summary of impacts identified and mitigation needed (Q2)
- Summary of involvement (Q3)
- WFG considerations (Q4)
- Any risks identified (Q5)
- Cumulative impact (Q7)

This is a relatively low risk proposal as it will deliver an improvement in service provision that should have a positive impact across the population. There has been an evident demand for increased outdoor hospitality, whilst this was primarily as a result of the restrictions during the pandemic the additional provision has enabled greater choice, and therefore accessibility, for the wider population. The intention is to build on this success whilst ensuring there is appropriate control to protect all stakeholders.
