High risk

Medium risk  
x

Low risk

**Q6 Will this initiative have an impact (however minor) on any other Council service?**

x Yes

No

**If yes, please provide details below**

All key policies drivers that influence or emissions and nature recovery are now working as an established programme board, part of the governance structure to ensure priority is given to meeting targets.

**Q7 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?**

*(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and*

*whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)*

Swansea Council recognises that it must lead by example and use its 'Sphere of Influence' to reach out to as many citizens and businesses as possible regarding climate change and nature recovery. The Leader and Cabinet Members have signed the climate charter, and a more generic version for Swansea Citizens and public sector, business, charities, schools, groups etc. will be used, alongside the more simplistic pledge wall as mechanisms to seek wider buy in across the whole city and county.

Involving partners will be paramount to success, and will help support Swansea Council's ambition to lead by example. Agreed strategies will provide structure and governance to ensure delivery.

Listening to and acting on community groups, school groups ideas will help shape the strategy.

Swansea council will commitment to making long term and embedded behaviour change via training and support not only within its own authority but also across the City and County, for all citizens. **We want everyone to shape Swansea's vision for reaching net zero carbon.**

We can make changes on a huge scale if we all make small changes to how we move, shop, eat, think and live, together.

Reducing emissions and recovering nature needs businesses and households to change. We must use more renewable energy sources such as wind, solar and geothermal. We also have to change how we use energy, by cutting down on the power we use. We need to be more mindful or food sources, the nature surrounding us and how our communities need to adapt for the future.

Swansea Council cannot make Swansea net zero carbon on its own. We need everyone in Swansea to act now and consider what they can do to reduce their impact on the planet. We all need to take action at home, in the workplace, and across the county as a whole.

The Council is well placed to work with others. We can make the most of Swansea's collective potential and create solutions together. There will need to be major investments. We will have to make changes to existing systems of how we use and interact with energy. We must change how we live our lives. We will have to redefine how we manage and interact with our environment.

Above all, to meet this challenge, we need collective leadership and shared ambition.

To note the Well-being of Future Generations is a pivot part of our project governance structure.

Outcome of Screening

Q8 Please describe the outcome of your screening below:

- **Summary of impacts identified and mitigation needed (Q2)** – If we move in the right direction and bring citizens along with us then all benefits could and should be very positive, eg reduction in fuel poverty, local food supply, improved health and well-being, reduced fire, flooding to name but a few.
- **Summary of involvement (Q3)** The initial survey provided very positive feedback, we will be continuing with more general engagement but will also looking to use partners to reach out to specific communities, schools, businesses etc.
- **WFG considerations (Q4)**
- To note the Well-being of Future Generations is a pivot part of our project governance structure.

- **Any risks identified (Q5)** – Risks are medium - financially we will need to continue to lobby WG to ensure funding available to make such changes – eg decarbonisation of homes, transportation, active travel.
- **Cumulative impact (Q7)** – A brilliant and exciting opportunity to maximise the wellbeing of future generation and equality plan principles to make for a better Swansea by 2050.
