Proposals for Recruitment to Director of Corporate Services - covering Option 3

Option 3; Deletion of the Deputy Chief Executive and Director of Corporate Services role and a restructure of the Director grouping

This option would completely remove this role from the senior management structure and reduce the span of Director level reports to the Chief Executive to four.

Consideration would need to be given to the allocation of duties currently undertaken and how they could be distributed amongst the Director grouping. This may be achieved by a combination of;

- i) Allocation of duties and areas of responsibilities to other Directors
- ii) An increase in the number of service areas reporting directly to the Chief Executive

Whilst this option could achieve financial savings of approximately £165,000 per annum (including on costs) the non-financial disbenefits are significant and does not consider any possible impact from the senior pay and grading review approved by Council in November 2021.

Further work would be required to fully consider the implications of a smaller Director portfolio restructure and consultation with affected groups would be required. This could take some months to complete and would increase the delay in achieving a

permanent, stable senior management structure focused on delivering organisational priorities for the benefit of our communities.

Embarking on a wider restructure does not remove the risk that the corporate Heads of Service will not have a reporting line during any design and consultation period, which will impact the Interim Chief Executive and/or the Directors. This is also likely to be the option with the longest lead time to resolve, thereby extending the period of uncertainty for CMT and the wider Leadership Team.

The delay and uncertainty caused by a wider Director restructure in addition to the increased capacity issues that deletion of the post would result in means that Option 3 is not the preferred option.

Should Option 3 be approved, there could be service delivery impacts identified as a result. Removing the post will reduce recruitment opportunity that could promote gender equality across the senior leadership team and improve the Council's gender pay gap.

Integrated Impact Assessment Screening Form - Appendix E (ii)

Should this option be approved, a further Integrated Impact Assessment (IIA) would need to be undertaken on the proposal due to the workforce impact of services being distributed across wider Directorates and potential impact on partnership working given the role profile of the post.
