## Leader's Introduction

To help us support and serve the communities of Swansea, and to help us deliver on our corporate plan, it is important that we have a clear vision and strategy for our workforce.

This strategy sets out our plans for the next five years and demonstrates our commitment to invest in our workforce at all levels across the Council, providing them with the development opportunities to learn and succeed for the future.

We are in a period of unprecedented change in local government in responding to the many challenges that we face. That means we have to transform the way we work, making best use of technology and being more responsive to our residents and our communities, and be able to flex and change to meet the needs of the future.

Our workforce are our most essential asset and we must ensure that we all feel engaged and motivated to deliver the best possible services to our residents, businesses and visitors to Swansea.

It is important that you have a voice and can contribute to improving the way we work. Most often it is our workforce on the frontline who know their services and customers the best and how things can be done better. It is therefore important that we continue to recognise the value of the services we provide and how they support and improve the lives of our communities.

The vision of the strategy applies equally to our entire workforce, regardless of where in the organisation you work, and sets out our commitment to investing in your wellbeing, your ongoing professional development and making sure that Swansea Council is an excellent and rewarding place to work and progress.

**Councillor Rob Stewart,  
Leader of the Council**

## Organisational Context

Our Corporate Plan for 2020/22; “Delivering a Successful & Sustainable Swansea”, outlined the challenges Swansea faces as follows:

- Population changes – a growing, ageing and more diverse Swansea.
- Economic changes – attracting investment, high quality jobs and new technology into Swansea while addressing the skills gap.
- Climate change – risks from flooding, air and water quality, dangers to ecosystems and biodiversity and energy security.
- Social and cultural changes – addressing inequalities in health, education, employment and life chances.

We have sought to address these current and future challenges through our Corporate Plan and our well-being objectives, as required by the Well-Being of Future Generations (Wales) Act 2015.

In addition, we are working to meet the requirements of Welsh and UK Government and the immediate and longer- term challenges around Covid-19 and leaving the European Union. This adds to the complexity and uncertainty for the Council to deliver operationally while maintaining the confidence of residents that we are here to serve in our local communities.

As a result, the Recovery Plan; *“Managing the Present and Shaping the Future Swansea Council- From Recovery to Transformation”* has provided an overview in responding to these challenges and the framework to replace the Sustainable Swansea Strategy with *“Swansea – Achieving Better Together”*. As part of that framework it has been identified under the third longer-term “Reshape” phase that we develop a “Workforce Strategy”, recognising that work in Phases 1 (Re-Align) and 2 (Re-Focus) will support this.

## Why Do We Need a Workforce Strategy?

A talented and aligned workforce is crucial for bringing the strategic priorities to life and ensuring the organisation delivers on its objectives. Direct people costs make up 45% of the council's expenditure.

The Workforce Strategy and Plan can deliver significant improvements in value and cost reduction through ensuring that;

- The workforce is the right size.
- Organisational objectives can be delivered
- There is better productivity – through workforce alignment to the operating model
- There is competitive advantage through a more skilled and innovative workforce
- The workforce is resilient and equipped with the skills to adapt to changing demand
- There is higher quality and timeliness of delivery, greater staff engagement and retention and lower levels of stress.
- Cultural and behaviour change is supported and evolves to reflect the operating environment and, following sustainable development so that the workplace is a “more integrated, involvement based environment where we work together with a longer term and preventative focus”.

**It is also recognised that the Council is composed of a number of different Service Areas with different strategic priorities and operational requirements and this will need to be reflected in specific action plans wherever appropriate.**

Initial consultations with Heads of Service have highlighted a “weariness” and “wariness” in developing strategies that are subsequently not delivered and we must be cognisant of this in moving this strategy forward.

## External Context

In responding to the organisational context above, the workforce strategy will need to respond as follows;

- *“Population changes – a growing, ageing and more diverse Swansea”, so that our workforce reflects the communities that it serves.*
- *“Economic changes – attracting investment, high quality jobs and new technology into Swansea while addressing the skills gap”, so that we lead by example in identifying and addressing skills gaps in our own workforce and developing the expertise in the investment in people and jobs in Swansea.*
- *“Climate change – risks from flooding, air and water quality, dangers to ecosystems and biodiversity and energy security” so that the total workforce can engage and be developed to contribute to the response to ecological and climate change.*
- *“Social and cultural changes – addressing inequalities in health, education, employment and life chances” so that the total workforce can adapt to new ways of working, place well-being and kindness and the centre of policy and respond to inequalities promoting human rights.*
- The Council’s Recovery Plan identifies the need to “ensure that the “Culture of the organisation is aligned to the delivery of the corporate plan” and will;
  - Develop a “collaborative culture and embed corporate behaviours
  - Develop a “Decide and Do Culture”.

Within the Recovery Plan, there is a specific Strand identifying the following Projects that are ingrained in the proposed workforce strategy;

- Workforce planning – skills for the future
- Employment Policy Review
- Agile and flexible working linked to the Accommodation Strategy and post covid new ways of working
- Management of Attendance to focus on reducing long-term sickness
- Staff Well-Being in light of covid
- Workforce Training & Development

## What does the Workforce need to look like in the Future?

Due to financial constraints, we will not be able to deliver the same services as it does now and will need to prioritise budgetary spend to improve the economic, social, environmental and cultural well-being of Swansea. We will need to be;

- **Customer Focussed** – ensuring we work with and listen to residents, contractors, members and colleagues to develop and deliver best customer service at all times, treating everybody with respect.
- More **agile**– delivering services in different ways, using technology to maximise efficiencies and reduce our reliance on traditional ways of working.
- **Business Focussed** –operating and acting efficiently in the delivery of Council business.
- **Collaborative** – services are increasingly likely to be delivered working in partnership with other services, as well as private, public and third sector partners.
- **Flexible, adaptable and innovative** –to embrace a changing environment, anticipate future trends as well as finding innovative ways to deliver services.
- **Outcome focussed and high performing** – whatever we do will need to have identifiable outcomes that align with both our long term goals and take account of the objectives of local, regional and national partners.
- Understand, and buy in to, our priorities (well-being objectives) – being clear about our direction and understand how we contribute to achieving our priorities and how these integrate with the **wider partnership** context.
- **Engaged, motivated and resilient** – being well informed, clear on the direction of the organisation and resilient to meet the challenges ahead.
- Demonstrating **Great Leadership** –so that managers demonstrate visible, fair and pro-active leadership, supporting the workforce and ensuring that poor performance is managed effectively.
- Ensuring we are safe at all times and work in a **healthy and supportive environment** that takes a preventative approach by identifying root cause to stop problems starting or getting worse and underpinned by values of “kindness and compassion” and the “five ways of working” as defined in the Wellbeing of Future Generations (Wales) Act.

## **Workforce Plan Responsibility**

As the Workforce Plan belongs to the whole Council, to succeed it needs to be embedded throughout the organisation, so responsibility in practice is distributed.

By its very nature, much of the Workforce Plan will form part of the Human Resources and Service Centre Service Plan, however, the aims that have been highlighted that focus on internal communication and ICT will be delivered through the respective service area and will form part of their Service Plans. In addition, the work streams identified in the workforce plan should also feature and be embedded in all services plans across all the directorates to ensure the aims and objectives are tailored to any specific requirements within each service.

## **Updating the workforce plan**

The workforce planning process is fundamental to the success of the Council in achieving its vision and priorities. It is important in anticipating future workforce needs and in shaping clear strategies to help meet those needs

Although this is a five-year plan it is important that it is refreshed on an annual basis and informed by revisions to the Corporate Plan, Medium Term Financial Plan, outcomes from the wider service planning process and information gained from individual performance development reviews.

In addition it is important that the plan is informed by good quality employment data, intelligence about trends in the local and national labour market and contextual social, legal, technological and demographic information

The table below sets out the annual process for workforce planning. The process will ensure a clear flow of intelligence, which informs workforce planning at the corporate and directorate level and which is connected with the wider resource and service planning process:

<b>1</b>	The consideration of workforce issues as part of the service planning process	October-December each year
<b>2</b>	The framing of local service based workforce plans	October-December each year
<b>3</b>	The review of strategic themes to inform the corporate workforce planning process	December each year
<b>4</b>	The updating of the workforce planning actions to capture the strategic themes and develop responding strategies	January - February each year
<b>5</b>	Updating HR and training strategies to deliver workforce planning objectives	March each year

## How will we know if we have been Successful?

We will know if we are successful if our employees, trade unions, elected members and customers feedback positively.

We will regularly monitor key management information which we will develop and refine over the 4 year period of the Plan.

The outcomes we are looking to achieve are:

- Council Plan outcomes are successfully delivered.
- Customer feedback and satisfaction is improved.
- Employee morale is increased.
- Attendance levels are improved.
- Employees are more informed via effective two way communication.
- Higher number of career paths and apprenticeships are in place and planned through closer collaboration with schools, colleges and higher education providers.
- Employee performance is measured in a structured way.
- A clear understanding of workforce skills and training requirements is in place.
- Workforce training and e-learning completions are increased.
- The Gender Pay Gap is reduced.
- Workforce diversity is more representative of the communities being served and our understanding of cultural values is enhanced.
- The number of employees in our “hard to fill” roles is reduced through improved recruitment and retention programmes.
- The workforce age profile is more balanced.
- There is less use of an Externally Provided Workforce (EPWs), or spend on consultants, agency staff and interims.
- Links with peers and partners are strengthened with an increased number of collaborative services and joint workforce initiatives.

We recognise that our employees have different requirements and we need to improve our knowledge and understanding of the workforce to allow us to make more informed decisions around our themes.

As such, developing our ability to record and measure some of the key data above and utilise this information will be a successful measure in itself.

## Strategic Workforce Metrics and Measures

To measure the impact of the workforce strategy and guide workforce planning the following Key Performance Indicators/Metrics will be used to monitor the progress:

<b>Key Performance indicator / measure</b>	<b>What it will show</b>	<b>Why use it</b>
<b>Time taken to recruit</b>	Time taken from submission of advert to offer of appointment	To maintain effectiveness of recruitment system; Impact on organisational capacity if recruitment delayed; help identify workflow blockages

<b>Staff Survey (Council as an employer)</b>	% employees stating positively that Council is a good employer	Overall measure of employee satisfaction, engagement and manage retention
