organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)

Personal debt doesn't just affect the person with the debt, in additional families and communities health and wellbeing can be impacted negatively. If income is not collected effectively, the Council will be unable to properly fund the vital services we provide for residents.

The development of a Personal Debt Policy will ensure a consistent approach make it easy for residents to pay bills and easy to contact us early if they are struggling to pay or worried about money, along with the offer of friendly help and including information about where to get specialist free and impartial money advice.
