

# Annual Review of Performance

Executive Summary

2021/22

## **Introduction - The Annual Review of Performance 2021/22**

The Council's Corporate Plan 2021/22 *Delivering a Successful and Sustainable Swansea* describes our 6 key priorities (Well-being Objectives) and our organisation values and principles that will underpin the delivery of our priorities and overall strategy; this discharges our duties under the Well-Being of Future Generations (Wales) Act 2015 (the 'Act') to set Well-being Objectives.

Our Well-being Objectives show the Council's contribution to Wales' 7 national goals<sup>1</sup> described within the Act and describes how we will maximise this contribution to the national goals and to the social, cultural, environmental and economic well-being of Swansea by working in line with the sustainability principles set out within the Act.

The Corporate Plan sets out the steps being undertaken to meet our Well-being Objectives and contribute to the seven national well-being goals outlined in the Act.

The Plan also sets out how we are maximising our contribution to our well-being objectives and national goals through the way in which we work, which is in line with sustainable principles as follows:

- Looking ahead to the medium and long-term challenges.
- Preventing problems from occurring or from getting worse.
- Ensuring our objectives do not contradict each other and compliment those of other public bodies.
- Working in partnership with others.
- Involving local people.

### **Our ambitions and commitments to residents – our Well-being Objectives 2021/22**

In order to meet these challenges, we prioritised six Well-being Objectives in 2021/22. These were:

- ***Safeguarding people from harm*** – so that our citizens are free from harm and exploitation.
- ***Improving Education & Skills*** – so that every child and young person in Swansea gains the skills and qualifications they need to succeed in life.
- ***Transforming our Economy & Infrastructure*** – so that Swansea has a thriving mixed use City Centre and a local economy that will support the prosperity of our citizens.
- ***Tackling Poverty*** – so that every person in Swansea can achieve his or her potential.
- ***Transformation & Future Council development*** – so that we and the services that we provide are sustainable and fit for the future.
- ***Maintaining and enhancing Swansea's natural resources and biodiversity*** - so that we maintain and enhance biodiversity, reduce our carbon footprint, improve our

knowledge and understanding of our natural environment and benefit health and well-being.

This Annual Review of Performance 2021/22 (the 'Review') is the Council's Annual Well-being Report required under the Act on its progress undertaking the steps to meet its Well-being Objectives as outlined in the Corporate Plan to maximise its contribution to the national goals by applying the sustainable development principle. This report also discharges our duty under Part 6 of the Local Government & Elections Act (Wales) Act to publish an annual Self-assessment Report 2021. In doing so, the Review seeks to describe the extent to which the Council is exercising its functions effectively, using its resources well and governing itself properly by working in line with the requirements set out in the Well-being of Future Generations Act.

### **Section 6 Biodiversity Duty**

The information detailed under the *Maintaining and enhancing Swansea's Natural Resources and Biodiversity* Objective in this report will be used as the basis for the Council's Section 6 Biodiversity Duty Report to Welsh Government.

## Executive Summary

### Part 1 – How the Council is exercising its functions

This part of the Review represents a report on the progress the Council has made undertaking the steps it set out in its Corporate Plan 2021/22 to work towards meeting each Well-being Objective. It provides a self-assessment on the extent to which the Council is exercising its functions effectively. The Council is exercising its functions effectively when:

- It is meeting the steps set out to achieve its Well-being Objectives.
- It is maximising its contribution to its Well-being Objectives and National Goals.
- When it is working sustainably (in line with the 5 ways of working).

For each Well-being Objective:

- Why this is a Well-being Objective and what does success look like?
- How well are we doing - and how do we know?
- What and how can we do better (now and for the long-term)?
- Conclusion – the extent to which the Council is exercising its functions effectively:
  - Progress meeting the steps to deliver the Well-being Objective.
  - Contributing to the achievement of all the national well-being goals.
  - Working sustainably when taking steps to meet this Well-being Objective.

This first part of the report assesses the extent to which the council is exercising its functions effectively using a modification of the Future Generations Commissioner's Self-Reflection Tool to support an integrated approach to the gathering of evidence to determine progress against the Council's well-being objectives and to fulfil its new self-assessment responsibilities.

An assessment on progress is made against the following criteria:

- **'Getting started'** means this is a new objective or a change in direction. This could also mean the Council has faced challenges or barriers to progress.
- **'Making simple changes'** should be quick and easy to implement. They're often actions that are 'low hanging fruit' that have been tested by others and have a low risk of failure.
- **'Being more adventurous'** involves stepping out of a 'business as usual' mind-set and acting to change how things are currently done. Signalling early progress to wider change, this might involve a change in strategy or team approach to doing something and could involve more departments and organisations than a 'simple change'.
- **'Owning our ambition'** can be a similar stage to 'being more adventurous' with initiatives developing and more people becoming involved. The Council will be taking more well-managed risks, reaching out to other sectors to make progress and

collaborating on funding or staffing. The Council defines its approach as ambitious and staff feel empowered to work across sectors and influence change.

- Those that are **‘Leading the way’** may be the first people or Council to be taking these actions and are a guide for others to follow. This is a systemic, transformational change to how things have always been done and will require reallocating resources, time to put the changes in place and collaboration with other bodies. Actions are innovative, inspirational and collaborative, putting the Act into practice across larger portfolios to achieve the Council’s priorities. This way of working becomes embedded in the Council and good practice is shared with others.

Case-studies are also included in the full Review to better show the impact the steps are having.

### **Impact from the COVID-19 Pandemic**

The ongoing Covid-19 pandemic has brought huge challenges and changes to the Council, its services and workforce. The Council has never undertaken such change in such a short timescale and in such challenging circumstances. A number of non-essential services were suspended or reduced during 2020/21 and 2021/22 in order to redeploy resources to areas where they were most needed.

This inevitably has had a significant impact on the usual areas of performance across the council and that is why targets for performance indicators were not set for 2020/21 or 2021/22. This should also be considered when comparing performance to previous years.

### **Summary of Part 1 - How the Council is exercising its functions**

The Council is effectively delivering its functions. The evidence in Part 1 of the assessment shows that the extent to which it is delivering its functions is that it is **owning its ambition** in the delivery of its well-being objectives, which are the councils key priorities for delivery. This means that the Council is stepping out of a ‘business as usual’ mind-set and acting to change how things are currently done. It is signalling early progress to wider change with more parts of the Council and organisations becoming involved. The Council is taking more well-managed risks, reaching out to other sectors to make progress and collaborating on funding or staffing. The Council defines its approach as ambitious and staff work across sectors and help influence change.

A summary of the evidence shows the following areas for continued improvement.

Well-being Objective	Areas for continued improvement
<b>Safeguarding People from Harm</b>	<ul style="list-style-type: none"><li>• Learn the lessons of these new ways of working to inform future delivery models that ensure that we are the best that we can be in meeting the needs of our most vulnerable citizens.</li></ul>

### Summary of Part 2 – How the Council uses its Resources

The Council has a duty to the public to use its resources wisely. This means making economic, efficient and effective use of the resources at its disposal. In other words, providing value for money to the public; but it also means doing so in a way that is fair and sustainable so that services are available to all without compromising the needs of future generations.

When we talk about the ‘resources’ that are at the Council’s disposal, we are generally referring to the Councils budget, its workforce and its other assets, such as buildings. The Council is using its resources economically, efficiently and effectively when:

- It is minimising the resources used (Economic).
- The intended results correspond to the actual results (Effective).
- There is a positive relationship between the resources used and outputs / outcomes, i.e. both the economic and effective criteria are met (Efficient).
- There is equitable access to services and needs are met without compromising the needs to future generations (Equity and sustainability).

These resources are used through the following areas:

- Financial Planning.
- Workforce Planning.
- Procurement.
- Performance Management (and benchmarking).
- Asset management.

This part of the Annual Review of Performance is an assessment on the extent to which the Council is using its resources economically, efficiently and effectively. It will do so by critically reviewing and evaluating how these resources were used through financial and workforce planning, procurement, performance management and asset management. Part 1 of this assessment, which looks at how effectively the Council is delivering its functions, is also a measure of the effective use of resources, i.e. the extent to which the intended results correspond to the actual results and should also be read as such.

### **How well and we doing and how do we know?**

The Council undertook a self-assessment and assurance of the effectiveness of its use of resources and governance arrangements in place. The assessment looked at what arrangements were in place during 2021/22, how effective they were and the evidence.

	<b>Evidence &amp; effectiveness of delivery</b>	<b>Extent of evidence &amp; effectiveness</b>
1	Not in place	No evidence of effective delivery.
2	Limited application and effectiveness	Some evidence of application, but the effectiveness of delivery is limited.
3	Mixed Application and effectiveness	Mixed evidence of effective application, with some good evidence and some gaps in application or evidence.
4	Strong Application and effectiveness	Clear evidence of effective application.
5	Embedded	Clear evidence of effective and embedded application

The Council is using its resources economically, efficiently and effectively when:

- It is minimising the resources used (Economic).
- The intended results correspond to the actual results (Effective).
- There is a positive relationship between the resources used and outputs / outcomes, i.e. both the economic and effective criteria are met (Efficient).
- There is equitable access to services and needs are met without compromising the needs to future generations (Equity and sustainability).

The evidence in Part 2 of this assessment shows that: there is a **strong application and effective use of resources** around financial management, procurement and asset management.

Use of Resources	Areas for continued improvement
<b>Financial Management</b>	<ul style="list-style-type: none"> <li>• Continue to contain, reduce, defer and delay spending as far as possible, having due regard to the existing agreed budget and political priorities to nonetheless seek to limit service overspending and take corrective action.</li> <li>• Re-establish tracking (suspended as a result of Covid) to ensure that savings targets are monitored and reviewed at the Reshaping and Budget Setting Board established as part of the Council's Achieving Better Together transformation strategy.</li> </ul>
<b>Procurement</b>	<ul style="list-style-type: none"> <li>• Respond to the recommendations made by the Scrutiny Inquiry into procurement - including a focus on enhanced social value considerations in procurement in line with new legislation that the UK and Welsh Governments are developing (once that legislation is published and its impact becomes known), to include considerations of sustainable development, development of the local supplier base and co-production activity, i.e. involving citizens in decision-making, and also a focus on any areas of non-compliance in procurement activity.</li> </ul>
<b>Asset Management</b>	<ul style="list-style-type: none"> <li>• Implement the Asset Management Plan 2021/25 and monitor and report on progress.</li> </ul>

There is a **mixed evidence of effective application**, with some good evidence and some gaps in application or evidence regarding workforce planning and performance management.

A summary of the evidence shows the following areas for continued improvement.

Use of Resources	Areas for continued improvement
<b>Workforce Planning</b>	<ul style="list-style-type: none"> <li>• Respond to the key messages from engagement exercises and finalise the Workforce Strategy.</li> <li>• Seek to improve the number of responses to the staff survey.</li> </ul>

	<ul style="list-style-type: none"> <li>• Reduce staff sickness.</li> </ul>
<b>Performance Management</b>	<ul style="list-style-type: none"> <li>• Review the current suite of corporate performance indicators for continued relevance for 2022/23 reporting and set annual targets for end-of-year reporting.</li> <li>• Develop a Corporate Plan and associated performance indicators for 2023/27.</li> <li>• Look for ways to improve the consultation and engagement process and improve the response rate for the annual self-assessment.</li> <li>• Review and work to improve the amount of review, scrutiny and challenge to the self-assessment process.</li> <li>• Implement remaining Governance &amp; Audit Committee recommendations for improvement to the Annual Review of Performance.</li> </ul>

### Summary of Part 3 – the effectiveness of the Councils Governance arrangements

The Council is required by the Accounts and Audit (Wales) Regulations 2014 to undertake a review of its governance arrangements, at least annually. The review is intended to show how the Council has complied with its Code of Corporate Governance.

The review of governance is brought together in the Annual Governance Statement (AGS) which is to accompany the Council’s Annual Statement of Accounts. The AGS is a key document informed by a number of both internal and external assurance sources.

This part of the Annual Review of Performance is not meant to replicate the AGS but should be read in conjunction with it. This part of the review is intended to assess and evidence the effectiveness of the Councils governance arrangements in helping to deliver its functions and provide value for money.

The Council has effective governance when it effectively applying the core principles of good governance set out by CIPFA / SOLACE in *Delivering Good Governance in Local Government*:

- A – Behaving with integrity, demonstrating strong commitment to ethical values and respecting the rule of law.
- B – Ensuring openness and comprehensive stakeholder engagement.
- C - There is a positive relationship between the resources used and outputs / outcomes, i.e. both the economic and effective criteria are met (Efficient).
- There is equitable access to services and needs are met without compromising the needs to future generations (Equity and sustainability).
- D – Defining outcomes in terms of sustainable economic, social and environmental benefits.
- E - Developing the entity’s capacity, including the capability of its leadership and the individuals within it.

- F – Managing risks and performance through robust internal control and strong public financial management.
- G – Implementing good practices in transparency, reporting and audit to deliver effective accountability.

These core principles are applied in the Council through the following governance arrangements:

- Vision, strategy and performance.
- Organisational Governance, Ethics and Values.
- Organisational leadership.
- Customer & Community Engagement and Involvement.
- Risk Management and Business Continuity.
- Partnership / collaboration governance.
- Internal Control Environment.
- Fraud & Financial Impropriety.
- Programme and Project Assurance.
- Innovation & Change Management.

#### How well and we doing and how do we know?

The Council undertook a self-assessment and assurance of the effectiveness of its governance arrangements. The assessment looked at what arrangements were in place during 2021/22, how effective they were and the evidence.

	<b>Evidence &amp; effectiveness of delivery</b>	<b>Extent of evidence &amp; effectiveness</b>
1	Not in place	No evidence of effective delivery.
2	Limited application and effectiveness	Some evidence of application, but the effectiveness of delivery is limited.
3	Mixed Application and effectiveness	Mixed evidence of effective application, with some good evidence and some gaps in application or evidence.
4	Strong Application and effectiveness	Clear evidence of effective application.
5	Embedded	Clear evidence of effective and embedded application

The evidence in Part 3 of this assessment shows that: there is a **mixed application and effectiveness of governance** around vision, strategy & performance.

A summary of the evidence shows the following areas for continued improvement.

Use of Resources	Areas for continued improvement
<b>Vision, Strategy &amp; Performance</b>	<ul style="list-style-type: none"> <li>• See Part 2 - including financial management, performance management and workforce planning.</li> </ul>

There is a **strong application and effectiveness of governance** in all of the other areas.

A summary of the evidence shows the following areas for continued improvement.

Use of Resources	Areas for continued improvement
<b>Organisational Governance, Ethics and Values</b>	<ul style="list-style-type: none"> <li>Put arrangements in place to ensure that Audit Wales recommendations are recorded and tracked in a consistent way.</li> </ul>
