#### Swansea Public Toilet Strategy

Swansea's Public Toilet Strategy meets its duties, under Part 8 of The Public Health (Wales) Act 2017 to prepare and publish a local toilets strategy for its area.

The Act provides that a strategy must include an assessment of the community's need for toilets, including changing facilities for babies and changing places facilities for people with disabilities. The strategy must also provide details of how the Local Authority proposes to meet the identified need.

The strategy, and the actions derived from it, is subject to a regular programme of review and consultation.

**Q6 Will this initiative have an impact (however minor) on any other Council service?**

Yes       No      **If yes, please provide details below**

The strategy, whilst overseen by the Cleansing and Parks Service, has an impact on the Culture and Tourism Service, by providing improvements to the public facilities in key tourist areas and by potentially connecting existing leisure and tourism facilities to a broader network of publicly available toilets. It also seeks to inform economic developments by ensuring appropriate toilet facilities are included in new schemes.

## Integrated Impact Assessment Screening Form – Appendix 3

**Q7 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?**

*(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)*

The development of a Public Toilet Strategy, for Swansea, will improve the accessibility of public toilets for the whole of Swansea’s population. However, a key element of the strategy is that it is informed by a needs assessment. The strategy seeks to improve the equitability of Swansea’s public toilet provision by improving the accessibility of facilities for those communities most disadvantaged by existing provision. The increased provision of “Changing Places” will improve the accessibility, safety and dignity, for people who have more complex needs when using toilet facilities.

### Outcome of Screening

**Q8 Please describe the outcome of your screening below:**

- **Summary of impacts identified and mitigation needed (Q2)**
- **Summary of involvement (Q3)**
- **WFG considerations (Q4)**
- **Any risks identified (Q5)**
- **Cumulative impact (Q7)**

This is a low risk proposal as it will deliver an improvement in service provision that should have a positive impact across the population, particularly those whose health conditions bring more complex needs when using toilet facilities. It has been consulted on and supports our ambitions with regard to the Wellbeing of Future Generations Act. Changes to the published action plan and actions arising from subsequent reviews will also be subject to an IIA.
