Strategic Partners Energy Costs Financial Support 2023/2023

Financial support request for the period April 2023 to March 2024 for our strategic partners (Freedom Leisure, Wales National Pool and Swansea Arena) specifically related to increased energy costs, including overall likely additional levels of partnership underwriting required specifically for Wales National Pool for the same period.

The past three years has been tough for leisure and cultural operators and whilst post pandemic recovery has been challenging, it has become increasingly apparent that the rapidly worsening economic climate is becoming a greater, and likely to be of more lasting concern, than that of the Pandemic

Energy cost increases are a national issue, with leisure facilities and in particular those operators of large facilities, including swimming pools, theatres, and events spaces due to their high utility requirements being significantly impacted. This is despite various energy saving mitigations already put in place.

Q2 What is the potential impact on the following: the impacts below could be positive (+) or negative (-)

Q3 What involvement has taken place/will you undertake e.g. engagement/consultation/co-productive approaches?

Please provide details below – either of your activities or your reasons for not undertaking involvement

We have consulted with national agencies such as the Chief Leisure Officers forum, WLGA, Sport Wales and Welsh Govt. as well as industry sector representatives regarding the challenges facing the Leisure and Cultural sector.

In direct dialogue with our partners, officers have assessed the financial needs and consulted appropriately.

The report relates to the Council’s ability to financially support the strategic partners in the context of the energy crisis to the end of March 2024, with no intention to undertake public consultation or other stakeholder consultation as it does not at this stage affect service users as the funding will ensure that services are maintained to the current contracted level

Q4 Have you considered the Well-being of Future Generations Act (Wales) 2015 in the development of this initiative:

- a) Overall does the initiative support our Corporate Plan’s Well-being Objectives when considered together?
 Yes No
- b) Does the initiative consider maximising contribution to each of the seven national well-being goals?
 Yes No
- c) Does the initiative apply each of the five ways of working?
 Yes No
- d) Does the initiative meet the needs of the present without compromising the ability of future generations to meet their own needs?
 Yes No

Q5 What is the potential risk of the initiative? (Consider the following impacts – equality, socio-economic, environmental, cultural, legal, financial, political, media, public perception etc...)

Appendix A - Integrated Impact Assessment Screening Form

High risk

Medium risk

Low risk

Q6 Will this initiative have an impact (however minor) on any other Council service?

Yes

No

If yes, please provide details below

Q7 Will this initiative result in any changes needed to the external or internal website?

Yes

No

If yes, please provide details below

Q8 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?

(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)

The report is to inform a decision to sustain the current leisure and cultural services so that there is no negative impact on the users. Not acting or supporting our partners would impact on the service and facilities provided to the residents and visitors of Swansea.

The facilities operated by the partners contained within the report are varied and provide a range of services to all groups of society and the general public which support their wellbeing, health and cultural experiences in a variety of ways.

The impact of the Council not supporting these partners will ultimately mean that the services are put at risk of failure or cessation. Intervention through funding support from the council now provides partners with the greatest chance of reducing future financial impacts. Losing or significantly reducing such services provided could therefore have a significant impact on the groups of the communities that they serve. The types of groups that use these facilities vary greatly but include disabled people, older people, single parents (who are mainly women) children and young people and engagements with those most vulnerable and need supporting in our society by providing engaging and welcoming spaces and places to use and feel comfortable. This extends to religious groups and ceremonial activities all facilities.

Outcome of Screening

Q9 Please describe the outcome of your screening using the headings below:

- **Summary of impacts identified and mitigation needed (Q2)**
- **Summary of involvement (Q3)**
- **WFG considerations (Q4)**
- **Any risks identified (Q5)**
- **Cumulative impact (Q7)**

Energy cost increases, the cost-of-living crisis and rises in inflation will impact the continuation of providing sustainable successful services and facilities within existing financial budgets. Should the partnerships not withstand these external economic shocks, then vital health and wellbeing opportunities, services and facilities could be at risk of being lost and in turn increase pressure on other local and central government services.

Appendix A - Integrated Impact Assessment Screening Form

The report relates to the Council's ability to financially support the strategic partners in the context of the energy crisis for the period April 2023 to March 2024.

The report sets out the financial implications as a result of the significant increased energy costs being felt by the strategic partners who operate Council services and facilities on a day-to-day basis, and directly deliver shared wellbeing goals, and vital community, public and education facilities on behalf of the Council.
