The Council currently own the freehold interest in 254 - 260 Oxford Street, subject to a long lease agreement. The existing tenant is now considering an extensive redevelopment & repurposing of the block and therefore requires a more secure interest in order to progress with the scheme. As such, the tenant is proposing to purchase the freehold ownership in the property or alternatively, restructure & extend the existing lease agreement. The Council has an established strategy to retain its freehold interest wherever possible, especially on incoming producing assts. Therefore, a decision to sell the freehold interest would require a shift in its approach. In the event of a lease restructure, this decision would normally be dealt with via delegated powers under the Council's Land Transaction Procedure Rules although on this occasion, the proposed terms of the lease restructure are at less than best consideration and will therefore require a Cabinet decision. The development is a tenant initiative and will be solely delivered by them. The Council are being asked to either sell its current freehold interest (at market value) or agree a lease restructure which may or may not include financial support, depending on the range of options Cabinet has available. It is understood the site now has planning permission and therefore consultation would have taken place during this process. As landlords, we are merely trying to protect the Council's financial positon whilst trying to bring forward regeneration initiatives such at this.
