behalf, of the person responsible for carrying out the full range of statutory roles and responsibilities.

As a statutory annual report, this "Plan" reflects the views of the Director of Social Services in Swansea, to whom people are entitled to express their views of how effective the services are:

- In meeting wellbeing and needs of targeted populations
- In delivering on priorities set in past annual report
- Achieving a sustainable model of social care
- In providing assurances about the quality of services, against national standards

The report provides the public and stakeholders with the summary views of the statutory director of social services, and the priorities for future improvement. This report in containing the viewpoint of the statutory director does not need to change, whether during or following its document lifecycle, and through extended engagement with council elected members and/or partners. This report is informed by service user views, and the report sets out examples of how services now provided or commissioned are shaped by participation and coproduction.

The report also contains a summary of Swansea Council's progress against implementing the changes expected by new legislative framework for social care in Wales, and a set of improvement priorities for 2023/24.

- Q8 Please describe the outcome of your screening below:
 - Summary of impacts identified and mitigation needed (Q2)
 - Summary of involvement (Q3)
 - WFG considerations (Q4)
 - Any risks identified (Q5)
 - Cumulative impact (Q7)
- Summary of Impacts (Q2) Impacts are positive and low on specific groups due to the nature and purpose of the report as explained above.
- Summary of involvement (Q3) Social Services work closely with other Swansea Council services, Swansea Bay University Health Board, Third Sector organisations, Social Care providers, West Glamorgan Regional Partnership Boards and works co-productively on services development and commissioning plans. This development work and the involvement of others has been involved in his report.
- WFG considerations (Q4) Well-being of Future Generation forms part of the overall plan and as part of the transformation and improvement programmes within social services, which are working towards a sustainable model of social care. Health, social care and wellbeing is a significant part of the local and regional economy of Swansea, and the report focused on the range of services and other organisations which form part of this economy. A skilled, qualified social care workforce is vital to improving wellbeing outcomes for Swansea citizens. The report shows how we are looking to the future by ensuring that we are well placed to recruit, retain and better support social care workers in their professional development, and how we can help them be the best that they can be in their work with vulnerable people and their carers.
- Any risks identified (Q5) The improvements and transformation programmes set out within this plan are risk managed closely. Any risks identified and agreed, are mitigated as routine within social services at service, directorate and corporate levels through monthly Social Services Performance and Financial Monitoring meeting sand escalated accordingly through to appropriate corporate and political structures. Some of the wider impacts for example those emerging during the Covid pandemic, and their associated risks have been, and will continue to be, managed through the regional partnership structures.
- Cumulative impact (Q7) There is a positive impact on the wellbeing of Swansea citizens though the continuous improvement of social services, and the benefits this brings to the social care economy and wider social care workforce.
