Thank you for your letter dated 26<sup>th</sup> October 2023 following the Climate Change and Nature Scrutiny Performance Panel held on 3<sup>rd</sup> October 2023. I note the recommendation in relation to publicising message to the public about reporting issues in relation to Nature and Biodiversity.

I can advise that initial contact has been made with the Communications Team and I will be working with relevant officers to undertake the necessary publicity, highlighting how to report suspected breaches in relation to Nature and Biodiversity.

Yours sincerely
