Swansea's Local Area Energy Plan (LAEP)

Swansea's LAEP is the strategic plan for how we intend to decarbonise the energy systems throughout the city and county area. When finalised, it will be a fully costed plan that identifies the change that needs to happen, detailing 'what, where and when and by whom'. The aim is to achieve Net Zero by 2050.

This report provides an update regarding the progress that has been made so far and the next steps required in developing the plan.

Q3 What involvement has taken place/will you undertake e.g. engagement/consultation/co-productive approaches?

Please provide details below – either of your activities or your reasons for not undertaking involvement

The plan is being developed by a Welsh Government appointed consultant, City Science. They have worked with Swansea Council to identify a broad range of stakeholders who are able to contribute to the development of the report. These stakeholders have been involved at every stage of the report and include representation from the public, private and third sectors, as well as community representatives.

Q4 Have you considered the Well-being of Future Generations Act (Wales) 2015 in the development of this initiative:

- a) Overall does the initiative support our Corporate Plan’s Well-being Objectives when considered together?
 Yes No
- b) Does the initiative consider maximising contribution to each of the seven national well-being goals?
 Yes No
- c) Does the initiative apply each of the five ways of working?
 Yes No
- d) Does the initiative meet the needs of the present without compromising the ability of future generations to meet their own needs?
 Yes No

Q5 What is the potential risk of the initiative? (Consider the following impacts – equality, socio-economic, environmental, cultural, legal, financial, political, media, public perception etc...)

High risk

Medium risk

Low risk

Q6 Will this initiative have an impact (however minor) on any other Council service?

Yes No **If yes, please provide details below**

If the action plan is implemented, the plan will have a significant impact on Council services but this has to be considered in the relation to the “Swansea Council – Net Zero 2030” report that was approved by cabinet on 15th December 2022 and commits the council to achieve net zero for its own carbon footprint, by 2030.

Appendix A - Integrated Impact Assessment Screening Form

Q7 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?

(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)

If the LAEP is fully implemented it will have a long term, incremental impact for the people of Swansea and, in particular, future generations.

Outcome of Screening

Q8 Please describe the outcome of your screening below:

- **Summary of impacts identified and mitigation needed (Q2)**
- **Summary of involvement (Q3)**
- **WFG considerations (Q4)**
- **Any risks identified (Q5)**
- **Cumulative impact (Q7)**

If we move in the right direction and bring citizens along with us then all benefits could and should be very positive, e.g. reduction in fuel poverty, local food supply, improved health and well-being, reduced fire, flooding to name but a few.

- Summary of involvement - The initial survey provided very positive feedback, we will be continuing with more general engagement but will also looking to use partners to reach out to specific communities, schools, businesses etc.
- WFG considerations- To note the Well-being of Future Generations is a pivotal part of our project governance structure.
- Any risks identified - Risks are medium - financially we will need to continue to lobby WG to ensure funding is available to make such changes – e.g. decarbonisation of homes, transportation, active travel.
- Cumulative impact - A brilliant and exciting opportunity to maximise the wellbeing of future generations and equality plan principles to make for a better Swansea by 2050.
