2.6 Appendix F: Procurement Pipeline

The SBCD has an agreed set of procurement principles that outline the expected approach for its programmes and projects to follow. Achieving the maximum of community benefit and social value are primary considerations of these principles.

This procedure accepts that there is an obligation in the WPPS for the public sector to report community benefits annually for projects over £1m, utilising an acceptable method such as the WG community benefits toolkit. The SBCD procurement principles acknowledge this requirement.

The SBCD Procurement Pipeline details the route of procurement, start and completion date and contract value which covers the design and construction phase of the SBCD Programmes and Projects

The Portfolio in Q3 2023/24 is generally on track. Changes reflect that the projects and programmes are in delivery and maturing their procurement plans with more accurate delivery target from contractors.
