He stated the report presents the findings of a key part of the statutory development plan process, and sets out how the aims, objectives and policies of the Swansea Local Development Plan have been implemented for the period 2022-2023.

A detailed verbal update relating to the main areas outlined in the circulated report was provided.

Resolved that

28 Planning Annual Performance Report 2022-2023.

The Head of Planning & City Regeneration presented for information the Annual Performance Report.

The report is seen by Welsh government as important mechanism for monitoring Local Planning Authorities performance against a key set of national performance indicators.

The report is also an important tool for benchmarking the performance of Local Authorities across Wales. The draft report for the period April 2022-March 2023 was detailed at the appendix to the report.

The actual performance figures, the improvements achieved over the past few years and the issues to be further addressed were all detailed in the report, along with a series of appeal decisions from applications that decisions had been made on, contrary to officer recommendations.

Members asked questions on various issues relating to the report to which the officer responded, some detailed information requested would again be circulated to Members following the meeting.

The meeting ended at 2.55 pm
