Below is an explanation of the way the lists are operated:</p> <p>Effectively names are kept in a “pool” rather than on a ranked list. Once a school is full in a particular year group any application for a place in that group will be refused and automatically placed in the pool. Names are kept in the pool for the remainder of the academic year and can be added to any time a new application is made and refused. If a place becomes available the names would be put into a ranked list at that point. The ranking would be made in accordance with the admission criteria and not the length of time since the application was made. We do not keep records in relation to what element of the admission criteria was met in order to place someone at the top of the list. If a place is available and allocated it is done in the same way as a regular admission request so once the school and family are notified we do not keep a record of the detail. We keep records of how many places are allocated per school in any academic year but do not keep a separate list of allocations from a waiting list.</p>
2.	<p>Councillor A M Day</p> <p>In relation to Councillors Questions 2</p> <p>What is the evolving strategy following QEd 2020 and when will Councillors be involved with it.</p> <p>Response of the Cabinet Member for Education Improvement, Learning & Skills</p> <p>This was discussed in the report that was considered by Cabinet in July 2017 prior to the Council’s Band B Strategic Outline Programme being submitted and approved by Welsh Government.</p> <p>The Council’s QEd 2020 Programme focused on:</p> <ul style="list-style-type: none"> • Learning environments for children and young people aged from 3 to 19 that will enable the successful implementation of strategies for school improvement and better educational outcomes;

- Greater economy through better use of resources to improve the efficiency and cost-effectiveness of the education estate and public service provision; and
- A sustainable education system with all schools meeting a 21st century schools standard, and reducing the recurrent costs and carbon footprint.

The priority investment schemes were identified through the following range of complementary objective criteria; standards (where there were specific concerns), risk, condition, specific suitability issues, landscape, basic need (where very clear shortfall in places such as Welsh Medium), sufficiency (surplus places), viability (size), sustainability (future demographic trends) and deliverability (how readily it could be achieved).

All the Band A schemes have now been completed with the exception of Gorseinon Primary School new build which is in progress.

As with any plan it is not a static document, and indeed, the whole programme has required successive reviews in the light of the changing timescales and financial parameters for the programme. It has also continued to evolve in the light of changing demands (demographic trends and condition and business continuity issues), political priorities, capital resourcing, and fresh opportunities (such as the LDP).

The Band B programme and the next stage of the QEd programme strategy as set out in the July 2017 report, reflects a consistent objective assessment and prioritisation of condition, suitability and sustainability issues as well as areas of basic need for additional provision and also in consideration of the deliverability of potential options. It also remains consistent with local policies, corporate priorities and commitments, as well as the priorities and specific criteria set down by the Welsh Government for Band B as follows:

To provide an efficient and effective educational infrastructure that will meet current and future demand for places by 2024

- *Ensuring the right size schools in the right location, with enough places to deliver Welsh and English medium education, whilst ensuring effective and efficient use of the educational estate*
- *Reducing backlog maintenance costs by at least 50% whilst improving any category C or D condition buildings to A or B*

To optimise the use of infrastructure and resources to deliver public services for our communities by 2024. This includes:

- *Flexibility of assets with the aspiration that all facilities receiving investment commit to making assets available for community use if local demand exists*
- *Co-located public services on site if local demand exists*

The early part of the next stage of the QEd programme is in progress and has included engagement with all stakeholders including councillors and with reports being brought to Cabinet as appropriate.

In relation to Councillors Questions 5

What are the criteria for the commissioning process in Cultural Services for supporting groups such as Abertawe Festival of Young Musicians, who makes the decision on support for those Organisations and can we have a list of successful bodies since this process and partnership model was initiated.

Response of the Cabinet Member for Investment, Regeneration & Tourism

The requirements and remit of Abertawe Festival of Young Musicians are not easily compared to the way Cultural Service partners, collaborates and commissions cultural activity generally. The Festival seeks performance premises only from the Service, by dint of their role as venue managers, as their participants are advancing through formal education attainment in music grading, resulting in the opportunity for them to perform to fellow pupils and family.

Cultural Services' remit is to increase participation in arts, sports and culture in the community broadly, but particularly those most at risk of exclusion. The Service overall exists to expand our cultural offer; promote tourism; health and wellbeing and increase the economic viability of the city, through the sustainability of our venues and services. The support required by the AFYM is to meet the rising costs of utilising a commercial concert venue and ancillary meeting rooms in the Guildhall.

In previous years, the service held monies which could be utilised as 'grants', to support third party costs for delivering activity related to a wider cultural offer. Several organisations benefited from this and it was utilised to meet the costs of AFYM usage of the Brangwyn Hall and Guildhall. This budget was removed in 2015, as part of the significant cuts faced by the service and affected organisations were advised accordingly. A great deal of discussion, collaboration and engagement took place with all affected, as it has with the Festival Committee, to attempt to find a way to work more collaboratively, and identify new ways for the service to support them, within the terms of its remit.

In order to meet this remit, the service has retained a budget for cultural strategy and development, which is purposely intended for working with arts, cultural, sports and tourism organisations to develop projects and activities that deliver our priorities – in particular for a vibrant and viable city and tackling poverty. We describe this way of working as collaborative, partnership based and 'commissioning'. This helps us differentiate it from being a grant, enables us to prioritise the Council's requirements and also retain accountability and transparency, with impact measures and agreements in place with the partners. It is not a 'grant scheme', available to be applied for, nor is it a traditional commissioning process to deliver specific requirements, as with other Council service areas.

In practice, Cultural Services staff actively work with local and regional arts organisations, community groups and funders, to discuss priorities, identify needs in the community, apply for grants and design and deliver projects, events and programmes accordingly. Examples are the Fusion

programme, which is a partnership between the Council, Welsh Government and 42 local arts organisations to deliver projects that tackle poverty. Swansea Jazz Festival has previously benefited from match funding toward an Arts Council Wales application, and Marc Rees' 14-18 Now the Hero project, one of several national commissions commemorating the centenary of the 1st World War, was also supported by us as a joint commission with Taliesin and 14-18Now. Projects with Race Cymru Wales, resulting in exhibitions at the Houses of Parliament by refugees and BAME groups; young writing squads and the Music Academy (BBC supported initiative to introduce young people to careers in the music industry) have also been supported by the service budgets.

As with the whole Cultural Service budget, authority on how the budget is utilised to deliver outcomes in support of our priorities, lies with the Head of Service, as the designated Responsible Officer, in consultation with the relevant Cabinet Member

1. Introduction

- 1.1 This report sets out the outcomes of two individual Reviews recently conducted by the Returning Officer. The Returning Officer decided to conduct both Reviews together so as to make it easier for people to respond to the process.

- 1.2 One was a Review of Polling Districts and Polling Places and the other a Review of Polling Stations.
- 1.3 The responsibility for dividing the parliamentary constituencies into Polling Districts and for designating Polling Places rests with the Council. Council must consider and if appropriate approve the recommendations of the Returning Officer with regard to the Review of Polling Districts and Polling Places.
- 1.4 Decisions relating to the Review of Polling Stations fall under Election Rules to the Returning Officer. The Returning Officer has a personal responsibility for deciding on the number and location of Polling Stations.

2. Definition of Terms

- 2.1 A **Polling District** is a geographical sub-division of an electoral area, i.e. a UK Parliamentary Constituency, a European Parliamentary Electoral Region or a local Electoral Division, commonly referred to as a Ward.
- 2.2 A **Polling Place** is a geographical area in which a Polling Station is located. It can be defined as tightly as a particular building or as widely as the entire Polling District.
- 2.3 The Polling Place shall be an area in the Polling District, except where special circumstances make it desirable to designate an area wholly or partly outside the Polling District.
- 2.4 A **Polling Station** is the actual area or specific room where the process of voting takes place i.e. where voters cast their votes. It must be located within the Polling Place designated for the particular Polling Station.

3. Legal Framework for the Review of Polling Districts and Polling Places

- 3.1 Under the Representation of the People Act 1983, the Electoral Administration Act 2006 and the Review of Polling District & Polling Places (Parliamentary Elections) Regulations 2006, the City and County of Swansea has a duty to divide the district into polling districts and to designate a polling place for each polling district. It also has to keep these arrangements under review.
- 3.2 In order to comply with the above legislation the City and County of Swansea is required to complete a full review of all polling districts and polling places every five years. However this does not prevent changes being made at any time prior to the next review.
- 3.3 The Electoral Registration and Administration Act 2013 introduced a change to the timing of compulsory reviews of UK Parliamentary polling districts and polling places. The next compulsory review must now be

started and completed between 1 October 2018 and 31 January 2020 (inclusive).

- 3.4 Subsequent compulsory reviews must be started and completed within the period of 16 months that starts on 1 October of every fifth year after 1 October 2013.

4. Legal Framework for the Review of Polling Stations

- 4.1 The Returning Officer is personally responsible for deciding on the number and location of Polling Stations. This is set out in each set of Election Rules e.g. Rule 25 of the Parliamentary Election Rules.

5. Aim of the Polling Districts and Polling Places Review

- 5.1 Local Authorities must seek to ensure that:

- a) All of the electors in the constituency have such reasonable facilities for voting as are practicable in the circumstances;
- b) So far as is reasonable and practicable, all Polling Places are accessible to all their electors, including those with disabilities;
- c) Each Community shall, in the absence of special circumstances, be a separate Polling District.

- 5.2 The Polling Districts and Polling Places Review does not cover the following areas:

- a) The boundaries of UK Parliamentary Constituencies;
- b) The borders, names and electoral areas of Local Authorities.

6. Aim of the Polling Station Review

- 6.1 To consider the number and locations of Polling Stations within the City and County of Swansea.

7. The Polling Districts and Polling Places Review Procedure

- 7.1 The Review Procedure to be followed by a Local Authority is summarised below:

- a) Stage 1 - The Authority gives public notice of its intention to undertake a review and invites comments and submissions from any interested parties;
- b) Stage 2 - The Authority considers all submissions received and formulates draft recommendation for the new Polling Districts and

Polling Places structure. However, there is no requirement to change any existing arrangements.

- c) Stage 3 - The Authority produces final proposals for the new Polling Districts and Polling Places.
- d) Stage 4 - The Council must agree on the final proposals, and then publish the outcome of the review.

8. The Polling Station Review Procedure

- 8.1 The Polling Station Review Procedure is to be carried out based on the Initial Recommendations set out by the Returning Officer. Feedback submissions shall be considered by the Returning Officer and decisions taken accordingly.

9. The Joint Review

- 9.1 Stage 1 commenced on 8 February 2019 with the publication of the Notice of Review of Polling Districts and Polling Place on the Council Website and on a public noticeboard. Council – 25 April 2019

Councillors' Questions

Part A – Supplementaries

1	<p>Cllr Will Thomas</p> <p>Could the Cabinet Member please answer the following questions regarding the Common Land near Bracelet Bay, Mumbles.</p> <ol style="list-style-type: none">1. When did Swansea Council acquire the common land comprising Bracelet Common.2. Has a lease on the Big Apple car park ever been granted to AMECO, if so when. <p>Response of the Cabinet Member for Business Transformation & Performance</p> <ol style="list-style-type: none">1. The land was acquired 09/10/1931.2. The site of the Big Apple Car park is privately owned and has never been in Council ownership.
2	<p>Cllrs Peter Black, Jeff Jones, Chris Holley</p> <p>Will the Cabinet Member provide feedback on the new initiative of searching black bags for non-recyclable material at the kerbside.</p> <p>Response of the Cabinet Member for Environment & Infrastructure Management</p> <p>“Regarding the Keep it Out campaign, it is still very early days, however the initial impact is as follows:</p> <ul style="list-style-type: none">• Over the first month, black bags have been checked for recyclables at over 20,000 properties spread right across the authority• Initially only about 15% of properties were found to have recyclables in their black bags on the first check, and this has been reducing as the campaign has progressed. These residents are being engaged with through door knocking and letters advising of the recyclables and offering further support to recycle.• The response from residents has been fantastic and first indications are that, of those residents engaged with, 7 out of 10 properties are then recycling fully by their next black bag collection. I.e. no recyclables found at the next black bag check, and have been given Thank You letters.• The remaining who still have recyclables in their black bags are again engaged with through door knocking and letters advising of the recyclables and offering further support to recycle. The letter also

contains a formal notice detailing the requirement not to put food, cans/tins, glass containers, paper and card, and plastic bottles tubs and trays in their black bags.

- By the third visit to those who had not already started fully recycling, we are only issuing 2 or 3 final warning letters for every thousand properties originally checked.
- The tonnage of black bags collected has already reduced by over 110T per fortnight (around 12%) which would result in around 3,000T of waste being diverted from landfill or incineration per year.
- Tonnage of food, cans, glass, paper, card, and plastics collected at the kerbside increased by around 40T per fortnight. The difference could well be through waste minimisation and increased recycling through other avenues eg HWRCs, or of other material such as nappies.

It must be stressed that these are very early results, with a more in depth analysis on going.”

For many years Royal Mail made use of Pouch Boxes, often located on pavements, across Swansea. Can the Cabinet Member inform Council how many of these still exist, if they are maintained by Royal Mail and what arrangements are in place to remove them if it is clear they are no longer required.

Response of the Cabinet Member for Environment & Infrastructure Management

	<p>They belong to the royal mail we do not hold any records on their location or numbers. As with all statutory type boxes we have powers to enforce if they are dangerous. If it is believed that a box is abandoned then we would be happy to contact Royal Mail to request removal but the decision would be theirs.</p>
5	<p>Cllrs Mike Day, Chris Holley, Mary Jones</p> <p>Could the Leader tell Council who organised the launch of Swansea celebrating its 50 years as a City, how it was funded and whether there is a dedicated budget for the welcomed celebrations during 2019. Could he further inform Council who was invited to the launch and the rationale for those being invited. How many people accepted the invitation and how many declined.</p> <p>Response of the Leader of Council</p> <p>Swansea's 50th anniversary as a city is a wonderful opportunity to promote our city and hold celebrations throughout the year. We have put together a programme of events and initiatives to mark the anniversary. The aim of the launch event was a call to arms for both the media and our partners. It helped to raise awareness of Swansea 50 and to inform groups and individuals of the Council's plans for the year and to encourage them to promote Swansea 50 and to take part in events. Our Communications Service took the lead with input from Cultural Services and other services. The recent launch was a great success and the invite list included key stakeholders who engage with the council regularly in support of its initiatives and who can play a role in ensuring Swansea 50 is a success. These include the city's two universities, Swansea City FC, community councils, DVLA, ABMU Health Board, Swansea BID and community and arts groups. A total of 87 people accepted the invitation and more attended on the day. No information is held on how many declined or did not respond to the invite. The event was funded from the corporate promotions fund. There will be a dedicated budget for the celebrations during 2019.</p>
