#### Swansea's Local Area Energy Plan (LAEP)

Swansea's Local Area Energy Plan (LAEP) presents a comprehensive vision for Swansea's future energy system, delineating the essential characteristics it will need to achieve a net zero energy system by 2050.

The report is for "information only", as it has been commissioned by Welsh Government for the City and County of Swansea area.

**Q3 What involvement has taken place/will you undertake e.g. engagement/consultation/co-productive approaches? Please provide details below – either of your activities or your reasons for not undertaking involvement**

The plan has been developed by a Welsh Government appointed consultant, City Science. They have worked with Swansea Council to identify a broad range of stakeholders who have contributed to the development of the report. These stakeholders have been involved at every stage of the report and include representation from the public, private and third sectors, as well as community representatives. This engagement will continue as the actions contained within the plan are developed and implemented.

**Q4 Have you considered the Well-being of Future Generations Act (Wales) 2015 in the development of this initiative:**

- a) Overall does the initiative support our Corporate Plan’s Well-being Objectives when considered together?  
 Yes  No
- b) Does the initiative consider maximising contribution to each of the seven national well-being goals?  
 Yes  No
- c) Does the initiative apply each of the five ways of working?  
 Yes  No
- d) Does the initiative meet the needs of the present without compromising the ability of future generations to meet their own needs?  
 Yes  No

**Q5 What is the potential risk of the initiative? (Consider the following impacts – equality, socio-economic, environmental, cultural, legal, financial, political, media, public perception etc...)**

High risk

Medium risk

Low risk

**Q6 Will this initiative have an impact (however minor) on any other Council service?**

Yes       No      **If yes, please provide details below**

If the action plan is implemented, the plan will have a significant impact on Council services but this has to been considered in the relation to the “Swansea Council – Net Zero 2030” report that was approved by cabinet on 15<sup>th</sup> December 2022 and commits the council to achieve net zero for its own carbon footprint, by 2030.

# Integrated Impact Assessment Screening Form – Appendix A

**Q7 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?**

*(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)*

If the LAEP is fully implemented it will have a long term, incremental impact for the people of Swansea and, in particular, future generations.

## Outcome of Screening

**Q8 Please describe the outcome of your screening below:**

- **Summary of impacts identified and mitigation needed (Q2)**
- **Summary of involvement (Q3)**
- **WFG considerations (Q4)**
- **Any risks identified (Q5)**
- **Cumulative impact (Q7)**

A full IIA report is not required. This report covers an overarching strategy where each action as and when pursued will be screened independently.

- **Summary of impacts identified and mitigation needed:** If we move in the right direction and bring citizens along with us then all benefits could and should be very positive, e.g. reduction in fuel poverty, local food supply, improved health and well-being, reduced fire, flooding to name but a few.
- **Summary of involvement:** A broad range of stakeholders have contributed to the development of the plan. These stakeholders have been involved at every stage and include representation from the public, private and third sectors, as well as community representatives. This engagement will continue as the actions contained within the plan are developed and implemented.
- **WFG considerations:** To note the Well-being of Future Generations is a pivotal part of our project governance structure.
- **Any risks identified:** Risks are medium - financially we will need to continue to lobby WG to ensure funding is available to make such changes – e.g. decarbonisation of homes, transportation, active travel.
- **Cumulative impact:** A brilliant and exciting opportunity to maximise the wellbeing of future generations and equality plan principles to make for a better Swansea by 2050.

This report does not make a commitment to specific actions but is indicative of the progress made so far and the direction of travel with regard to the implementation of a Local Area Energy Plan for Swansea.
