

CITY & COUNTY OF SWANSEA PENSION FUND

1. Introduction

The City & County of Swansea Pension Fund is administered by the City & County of Swansea. However it is a separate statutory fund and its assets and liabilities, income and expenditure are not consolidated into the accounts of the Authority. That is, the Pensions Fund's assets and liabilities are distinct.

The summarised accounts of the Pension Fund shown here comprise three main elements:-

- The Fund Account which shows income and expenditure of the fund during the year, split between payments to/contributions from members and transactions relating to fund investments.
- The Net Assets Statement which gives a snapshot of the financial position of the fund as at 31st March 2015.
- The Notes to The Financial Statements which are designed to provide further explanation of some of the figures in the statement and to give a further understanding of the nature of the fund.

2 Summary of transactions for the year

1,384,642 Net assets		1,539,789

The financial statements on pages 144 to 176 summarise the transactions of the Fund and deal with the net assets at the disposal of the Pension Fund Committee. The financial statements do not take account of liabilities and other benefits which fall due after the period end. The actuarial position of the Fund, which does take account of such liabilities, is dealt with in the Statement of the Actuary in the Annual Report of the Pension Fund and a summary is included in Note 18 of this statement, and these accounts should be read in conjunction with this information.

Notes to the Financial Statements

1. Basis of preparation

The financial statements summarise the fund's transactions for the 2014/15 financial year and its position at year-end 31 March 2015. The financial statements have been prepared in accordance with the *Code of Practice on Local Authority Accounting in the United Kingdom 2014/15* which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector.

The financial statements do not take account of liabilities and other benefits which fall due after the period end.

2. Accounting Policies

The following principal accounting policies, which have been applied consistently (except as noted below), have been adopted in the preparation of the financial statements:

(a) Contributions

Normal contributions, both from the employees and from the employer, are accounted for on an accruals basis in the month employee contributions are deducted from the payroll.

under which they are paid, or in the absence of such an agreement, when received. Under current rules, employers can exercise discretion to give access to a person's pension rights early (other than for ill health). Where this is done, the additional pension costs arising are recharged to the relevant employer and do not fall as a cost to the fund. Under local agreements some Employers have exercised the right to make these repayments over three years incurring the relevant interest costs. As a result total income is recognised in the Fund Account with amounts outstanding from Employers within debtors.

Other Contributions relate to additional pension contributions paid in order to purchase additional pension benefits.

(b) Benefits

Where members can choose whether to take their benefits as a full pension or as a lump sum with reduced pension, retirement benefits are accounted for on an accruals basis on the later of the date of retirement and the date the option is exercised.

Other benefits are accounted for on an accruals basis on the date of retirement, death or leaving the fund as appropriate.

(c) Transfers to and from other Schemes

Transfer values represent the capital sums either receivable in respect of members from other pension schemes of previous employers or payable to the pension schemes of new employers for members who have left the fund. They are accounted for on a cash basis, or where Trustees have agreed to accept the liability in advance of receipt of funds, on an accruals basis from the date of the agreement.

(d) Investments

- i) The net assets statement includes all assets and liabilities of the fund at the 31st March.

2. Accounting Policies (continued)

- ii) Listed investments are included at the quoted bid price as at 31st March.
- iii) Investments held in pooled investment vehicles are valued at the closing bid price at 31st March if both bid and offer price are published; or, if single priced, at the closing single price. In the case of pooled investment vehicles that are accumulation funds, change in market value also includes income which is reinvested in the fund, net of applicable withholding tax.
- iv) Unquoted securities are valued by the relevant investment managers based on the Fund's share of the net assets or a single price advised by the Fund Manager, in accordance with generally accepted guidelines.
- v) Unit trusts are valued at the Managers' bid prices at 31st March.
- vi) Accrued interest is excluded from the market value of fixed interest securities but is included in accrued investment income.
- viii) Transaction costs are included in the cost of purchases and sales proceeds.
- ix) Investments held in foreign currencies have been translated into sterling values at the relevant rate ruling as at 31st March.
- x) Property Funds/Unit Trusts are valued at the bid market price, which is based upon regular independent valuation of the underlying property holdings of the Fund/Unit Trust.

e) Financial Instruments

Pension Fund assets have been assessed as fair value through profit and loss in line with IAS19.

f) Cash and Cash Funds

Cash comprises cash in hand and cash deposits. Cash funds are highly liquid investments held with Investment Managers.

g) Investment Income

Investment income and interest received are accounted for on an accruals basis. When an investment is valued ex dividend, the dividend is included in the Fund account. Distributions from pooled investment vehicles are automatically reinvested in the relevant fund.

h) Other

Other expenses, assets and liabilities are accounted for on an accruals basis.

CITY & COUNTY OF SWANSEA PENSION FUND

133	Custody Fees	121
11,426		7,558
12,448	Total	8,549

CITY & COUNTY OF SWANSEA PENSION FUND

9. Investment Income

2013/14	2014/15
£'000	£'000
13,433 U.K. Equities	11,736
6,619 Overseas Equities	7,695
3,055 Managed Fund - Fixed Interest	3,528
1,006 Pooled Investment vehicles - Property Fund	1,434
341 Pooled Investment vehicles - Private Equity	48
2 Interest	3
<u>24,456</u> Total	<u>24,444</u>

The assets under management by Legal and General are managed wholly in a pooled investment vehicle. The pooled investment vehicles are a combination of equity, bond and money market unit funds which operate on an 'accumulation' basis, i.e. all dividends and investment income are automatically reinvested back into their relevant funds and not distributed as investment income. Therefore, the fund value and change in market value on these funds will reflect both capital appreciation / depreciation plus reinvested investment income.

10. Taxation

a) United Kingdom

The Fund is exempt from Income Tax on interest and dividends and from Capital Gains Tax but now has to bear the UK tax on other income. The fund is reimbursed V.A.T. by H.M. Revenue and Customs and the accounts are shown exclusive of V.A.T.

b) Overseas

The majority of investment income from overseas suffers a withholding tax in the country of origin.

12. Reconciliation of movements in investments (continued)

Transaction costs are included in the cost of purchase and sales proceeds. Identifiable transaction costs incurred in the year relating to segregated investments amounted to £233k (2013/14: £388k). Costs are also incurred by the Fund in relation to transactions in pooled investment vehicles. Such costs are taken into account in calculating the bid/offer spread of these investments and are not separately identifiable.

13. Concentration of Investments

The following investments represented 5% or more of the Fund's net assets at 31st March 2015:

	Value as at the 31st March 2014 £'000	Proportion of Net Asset %	Value as at the 31st March 2015 £'000	Proportion of Net Asset %
L&G UK Equity Index	128,747	9.3	128,442	8.4

17. Capital and Contractual Commitments

As at 31st March 2015 the Scheme was committed to providing funding to appointed managers investing in unquoted securities. These commitments amounted to £38.7m (2013/14 : £40.3m).

18. Statement of the Actuary for the year ended 31 March 2015

Introduction

The Scheme Regulations require that a full actuarial valuation is carried out every third year. The purpose of this is to establish that the City & County of Swansea Pension Fund (the Fund) is able to meet its liabilities to past and present contributors and to review employer contribution rates. The last full actuarial investigation into the financial position of the Fund was completed as at 31 March 2013 by Aon Hewitt Limited, in accordance with Regulation 36 of the Local Government Pension Scheme (Administration) Regulations 2008.

Actuarial Position

1. The valuation as at 31 March 2013 showed that the funding ratio of the Fund had increased since the previous valuation with the market value of the Fund's assets at that date (of £1,227.6M) covering 81% of the liabilities allowing, in the case of current contributors to the Fund, for future increases in pensionable pay.

2. The valuation also showed that the aggregate level of contributions required to be paid by participating employers with effect from 1 April 2014 was:

- 16.2% of pensionable pay. This was the rate calculated as being sufficient, together with contributions paid by members, to meet the liabilities arising in respect of service after the valuation date.

Plus

- 5.7% of pensionable pay to restore the assets to 100% of the liabilities in respect of service prior to the valuation date over a recovery period of 25 years from 1 April 2014, if the membership remains broadly stable and pay increases are in line with the rate assumed at the valuation of 3.9% p.a.

3. In practice, each individual employer's position is assessed separately and contributions are set out in Aon Hewitt Limited's report dated 31 March 2014 (the "actuarial valuation report"). In addition to the contributions shown above, payments to cover additional liabilities arising from early retirements (other than ill-health retirements) will be made to the Fund by the employers.

4. The funding plan adopted in assessing the contributions for each individual employer was in accordance with the Funding Strategy Statement in force at the time. The approach adopted, and the recovery period used for each employer, is set out in the actuarial valuation report.

5. The valuation was carried out using the projected unit actuarial method for most employers and the main actuarial assumptions used for assessing the funding target and the contribution rates were as follows.

CITY & COUNTY OF SWANSEA PENSION FUND

18. Statement of the Actuary for the year ended 31 March 2015 (continued)

Discount rate for periods in service

Scheduled and subsumption bodies	5.6% a year
Orphan bodies	5.2% p.a

Discount rate for periods after leaving service

Scheduled and subsumption bodies	5.6%p.a.
Orphan bodies	3.9%p.a.

Rate of pay increases 3.9% p.a.

Rate of increases to pension accounts 2.4% p.a.

Rate of increase in pensions in payment
(in excess of Guaranteed Minimum Pension) 2.4% p.a.

The assets were valued at market value.

Further details of the assumptions adopted for the valuation were set out in the actuarial valuation report.

6. The valuation results summarised above are based on the financial position and market levels at the valuation date, 31 March 2013. As such the results do not make allowance for changes which have occurred subsequent to the valuation date.

7. The formal actuarial valuation report and the Rates and Adjustments Certificate setting out the employer contribution rates for the period from 1 April 2014 to 31 March 2017 were signed on 31 March 2014. Contribution rates will be reviewed at the next actuarial valuation of the Fund due as at 31 March 2016 in accordance with Regulation 62 of the Local Government Pension Scheme Regulations 2013.

8. This Statement has been prepared by the current Actuary to the Fund, AON Hewitt Limited, for inclusion in the accounts of the Fund. It provides a summary of the results of their actuarial valuation which was carried out as at 31 March 2013. The valuation provides a snapshot of the funding position at the valuation date and is used to assess the future level of contributions required.

This Statement must not be considered without reference to the formal actuarial valuation details fully the context and limitations of the actuarial valuation.

Aon Hewitt Limited does not accept any responsibility or liability to any party other than our client, the City and County of Swansea, the Administering Authority of the Fund, in respect of this Statement.

9. The report on the actuarial valuation as at 31 March 2013 is available from the Fund's following address:

<http://www.swanseapensionfund.org.uk/wp-content/uploads/2012/01Swansea-valuation-report-310313.pdf>

18. Actuarial Present Value of Promised Retirement Benefits - Statement of the Actuary for the year ended 31 March 2015 (continued)

Definitions

Admission Body

An employer admitted to the Fund under an admission agreement.

Orphan Body

This is an admission body or other employer whose participation in the Fund may cease at some future point in time, after which it is expected that the Administering Authority will have no access to future contributions in respect of the employer's liabilities in the Fund once any liability on cessation has been paid.

Scheduled Body

Employers which participate in the Fund under Schedule 2 of the Administration Regulations.

Subsumption and subsumption body

When an admission body or other employer ceases participation in the Fund, so that it has no employees contributing to the Fund and once any contribution on cessation as required by the regulations has been paid, the Fund will normally be unable to obtain further contributions from that employer (eg if future investment returns are less than assumed). It is however possible for another long term employer in the Fund (generally a scheduled body) to agree to be a source of future funding should any funding shortfalls emerge on the original employer's liabilities. The long term employer effectively subsumes the assets and liabilities of the ceasing employer into its own assets and liabilities. In this document this is known as subsumption. In this document the admission body or other employer being subsumed is referred to as a subsumption body and its liabilities are known as subsumed liabilities.

Certificate of the Actuary Regarding the Contributions Payable by the Employing Authorities in 2014/15

In accordance with Regulation 36 of the Local Government Pension Scheme (Administration) Regulations 2008 (the "Administration Regulations"), we certify that contributions should be paid by Employers at the following rates for the period 1st April 2014 to 31st March 2017.

i) A common rate of 16.2% of Pensionable Pay.

ii) Individual adjustments which, when added to or subtracted from the common rate, produce the following Employer contribution rates:

CITY & COUNTY OF SWANSEA PENSION FUND

18. Actuarial Present Value of Promised Retirement Benefits - Statement of the Actuary for the year ended 31 March 2015 (continued)

Employer	Year Commencing 1 April		
	2014 % Pensionable Pay	2015 % Pensionable Pay	2016 % Pensionable Pay
Scheduled bodies			
City & County of Swansea	22.4	22.4	22.4
Neath Port Talbot County Borough	22.5	23.0	24.0

Admission bodies				
Trinity St Davids	22.4	225,000	450,000	481,000

The contributions shown above represent the minimum contributions to be paid by each Employer. Employers may choose to pay additional contributions from time to time subject to the Administering Authority's agreement.

Where payments due from an Employer are expressed as monetary amounts, the amounts payable by that Employer should be adjusted to take account of any amounts payable, in respect of surplus or shortfall to which those monetary payments relate, by new employers created after the valuation date which have been credited with proportions of the assets and liabilities of the relevant Employer. Any adjustment should be as advised by the Fund Actuary.

Additional contributions may be required in respect of any additional liabilities that arise under the provisions of Regulations 30, 31, 35 and 38 of the 2013 Regulations, payable over a period of up to three years and Employers will be notified of such contributions separately by the Administering Authority.

The contributions rates for the City & County of Swansea and for Neath Port Talbot County Borough Council have been set as a percentage of pay. However, minimum monetary contribution amounts for these employers have been agreed with the Administering Authority and if the contributions actually received fall below this minimum level additional payments will be required.

Contribution rates for Employers commencing participation in the Fund after 31 March 2013 will be advised separately.

19. Related party transactions

£661k (£659k 2013/14) was paid to the City & County of Swansea for the recharge of Administration, I.T., Finance and Legal Services during the year.

Contributions received from admitted and scheduled bodies as detailed on page 150.

The City & County of Swansea acts as administering Authority for the City and County of Swansea Pension Fund (formerly the West Glamorgan Pension Fund).

Transactions between the Authority and the Pension Fund mainly comprise the payment to the Pension Fund of employee and employer payroll superannuation deductions, together with payments in respect of enhanced pensions granted by Former Authorities.

The Pension Fund currently has 32 scheduled and admitted bodies. Management of the Pension Scheme Investment Fund is undertaken by a panel. The panel is advised by two independent advisors.

Governance

There are 7 councillor members of the pension committee who are active members in the City & County of Swansea Pension Fund. The benefit entitlement for the Councillors is accrued under the same principles that apply to all other members of the Fund.

CITY & COUNTY OF SWANSEA PENSION FUND

20. Additional Voluntary Contributions

Some members of the Fund pay voluntary contributions to the fund's AVC providers, The Prudential, to buy extra pension benefits when they retire. These contributions are invested in a wide range of assets to provide a return on the money invested. Some members also still invest and have funds invested with the legacy AVC providers, Equitable Life and Aegon.

The Pension Fund accounts do not include the assets held by The Prudential, Equitable Life or Aegon. AVCs are not included in the accounts in accordance with section 4(2)(b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 (SI 2009/3093) but are disclosed as a note only.

AVC Provider	Value of Funds at 1st April 2014	Purchases at Cost (Contributions In/Out)	Sale Proceeds	Change in Market Value	Value of Funds at 31st March 2015
	£'000	£'000	£'000	£'000	£'000
Prudential	2,738	1,504	-1,172	142	3,212
Aegon	1,440	54	-112	61	1,443
Equitable Life	373	2	-43	15	347
Totals	4,551	1,560	-1,327	218	5,002

CITY & COUNTY OF SWANSEA PENSION FUND

21. Membership

The Pension Fund covers City & County of Swansea employees (except for teachers, for whom separate pension arrangements apply), and other bodies included in the schedule.

Detailed national regulations govern the rates of contribution by employees and employers, as well as benefits payable. At 31st March 2015 there were 16,285 contributors, 11,261 pensioners and 9,801 deferred pensioners.

Membership statistics	31st March 2011	31st March 2012	31st March 2013	31st March 2014	31st March 2015
	Number	Number	Number	Number	Number
Contributors	14,524	14,179	14,586	15,576	16,285
Pensioners	9,600	10,027	10,432	10,833	11,261
Deferred Pensioners	7,614	8,204	8,815	9,663	9,801
Total	31,738	32,410	33,833	36,072	37,347

See Appendix 1 for current year analysis

22. Fair Value of Investments

Financial Instruments

The Fund invests mainly through pooled vehicles with the exception of three segregated equity mandates. The managers of these pooled vehicles invest in a variety of financial instruments including bank deposits, quoted equity instruments, fixed interest securities, direct property holdings and unlisted equity and also monitor credit and counterparty risk, liquidity risk and market risk.

Financial Instruments - Gains & Losses

Gains and losses on financial instruments have been disclosed within note 9, 12 and 14 of the pension fund accounts.

Fair Value – Hierarchy

The fair value hierarchy introduced as part of the new accounting Code under IFRS7 requires categorisation of assets based upon 3 levels of asset valuation inputs -

- Level 1 - quoted prices for similar instruments.
- Level 2 - directly observable market inputs other than Level 1 inputs.
- Level 3 - inputs not based on observable market data.

The table on the following page shows the position of the Fund's assets at 31st March 2014 and 2015 based upon this hierarchy:

CITY & COUNTY OF SWANSEA PENSION FUND

22. Fair Value of Investments (continued)

23. INVESTMENT RISKS

As demonstrated above, the Fund maintains positions indirectly via its investment managers in a variety of financial instruments including bank deposits, quoted equity instruments, fixed interest securities, direct property holdings, unlisted equity products, commodity futures and other derivatives. This exposes the Fund to a variety of financial risks including credit and counterparty risk, liquidity risk, market risk and exchange rate risk.

Procedures for Managing Risk

The principal powers to invest are contained in the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009 and require an Administering Authority to invest any pension fund money that is not needed immediately to make payments from the Pension Fund. These regulations require the Pension Fund to formulate a policy for the investment of its fund money. The Administering Authority's overall risk management procedures focus on the unpredictability of financial markets and implementing restrictions to minimise these risks. The Pension Fund annually reviews its Statement of Investment Principles (SIP) and corresponding Funding Strategy Statement (FSS), which set out the Pension Fund's policy on matters such as the type of investments to be held, balance between types of investments, investment restrictions and the way risk is managed.

The Fund continues to review its structure. A key element in this review process is the consideration of risk and for many years now the Fund has pursued a policy of lowering risk by diversifying investments across asset classes, investment regions and fund managers. Furthermore, alternative assets are subject to their own diversification requirements and some examples are given below.

- Private equity - by stage, geography and vintage where funds of funds are not used
- Property - by type, risk profile, geography and vintage (on closed ended funds)
- Hedge funds – multi-strategy and or funds of funds

Manager Risk

The Fund is also well diversified by managers with no single active manager managing more than 25% of Fund assets. On appointment, fund managers are delegated the power to make such purchases and sales as they deem appropriate under the mandate concerned. Each mandate has a benchmark or target to outperform or achieve, usually on the basis of 3-year rolling periods. An update, at least quarterly, is required from each manager and regular meetings are held with managers to discuss their mandates and their performance on them. There are slightly different arrangements for some of the alternative assets. Some private equity and property investment is fund, rather than manager-specific, with specific funds identified by the investment sub group after careful due diligence. These commitments tend to be smaller in nature than main asset class investments but again regular performance reports are received and such investments are reviewed with managers at least once a year.

CITY & COUNTY OF SWANSEA PENSION FUND

23. INVESTMENT RISKS (continued)

Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Fund. As noted above almost all the Fund's investments are through pooled vehicles and a number of these are involved in derivative trades of various sorts including futures, swaps and options. Whilst the Fund is not a direct counterparty to such trades and so has no direct credit risk, clearly all derivative transactions incorporate a degree of risk and the value of the pooled vehicle, and hence the Fund's holding, could be impacted negatively by failure of one of the vehicle's counterparties. However, part of the operational due diligence carried out on potential manager appointees concerns itself with the quality of that manager's risk processes around counterparties and seeks to establish assurance that these are such as to minimise exposure to credit risk.

There has been no historical experience of default on the investments held by the Pension Fund.

Within the Fund, the areas of focus in terms of credit risk are bonds and some of the alternative asset categories.

- The Fund's active fixed-interest bond portfolio £111,608k is managed (by Goldman Sachs) on an unconstrained basis and has a significant exposure to credit, emerging market debt and loans. At 31st March 2015, the Fund's exposure to non-investment grade paper was 16.1% of the actively managed fixed income portfolio.
- On private equity the Fund's investments are almost entirely in the equity of the companies concerned. The Fund's private equity investments of £31,162K are managed by Harbourvest in a fund of funds portfolio.

On hedge fund of funds and multi-strategy vehicles, underlying managers have in place a broad range of derivatives. The Fund's exposure to hedge funds through its managers at 31st March 2015 is set out below with their relative exposure to credit risk.

	March 2015 £'000	Credit Exposure
Permal	24,892	18.5%
Blackrock	26,630	22.4%

Liquidity Risk

The Pension Fund has its own bank accounts. At its simplest, liquidity risk is the risk that the Fund will not be able to meet its financial obligations when they fall due, especially pension payments to its members. At a strategic level the Administering Authority, together with its consulting actuary, reviews the position of the Fund triennially to ensure that all its obligations can be suitably covered.

CITY & COUNTY OF SWANSEA PENSION FUND

23. INVESTMENT RISKS (continued)

Ongoing cash flow planning in respect of contributions, benefit payments, investment income and capital calls/distributions is also essential. This is in place with the Fund's position updated regularly.

Specifically on investments, the Fund holds through its managers a mixture of liquid, semi-liquid and illiquid assets. Whilst the Fund's investment managers have substantial discretionary powers regarding their individual portfolios and the management of their cash positions, they hold within their pooled vehicles a large value of very liquid securities, such as equities and bonds quoted on major stock exchanges, which can easily be realised. Traditional equities and bonds now comprise 83% of the Fund's value and, whilst there will be some slightly less liquid elements within this figure (emerging market equities and debt for example), the funds investing in these securities offer monthly trading at least – often weekly or fortnightly.

On alternative assets the position is more mixed. Most are subject to their own liquidity terms or, in the case of property, redemption rules. Closed-ended funds such as most private equity vehicles and some property funds are effectively illiquid for the specific period (usually 10 years), although they can be sold on the secondary market, usually at a discount.

The table below analyses the value of the Fund's investments at 31st March 2015 by liquidity profile.

	Amounts at				
	31st March 2015 £000s	Within 1 month £000s	1-3 months £000s	4-12 months £000s	> 1 Year £000s

Other Investment Balances - Dividends Due	2,527	2,527	0	0	0
Total	1,528,127	1,354,617	0	107,793	65,717

23. INVESTMENT RISKS (continued)

It should be noted that different quoted investments are subject to different settlement rules but all payments/receipts are usually due within 7 days of the transaction (buy/sell) date. Because the Fund uses some pooled vehicles for quoted investments these are often subject to daily, weekly, 2-weekly or monthly trading dates. All such investments have been designated "within 1 month" for the purposes of liquidity analysis. Open-ended property funds are subject to redemption rules set by their management boards. Many have quarterly redemptions but these can be held back in difficult markets so as not to force sales and disadvantage continuing investors. For liquidity analysis purposes, a conservative approach has been applied and all such investments have been designated "within 4-12 months".

Closed-ended funds have been designated illiquid for the purposes of liquidity analysis. However, these closed-ended vehicles have a very different cash flow pattern to traditional investments since the monies committed are only drawn down as the underlying investments are made (usually over a period of 5 years) and distributions are returned as soon as underlying investments are exited (often as early as year 4). In terms of cash flow, therefore, the net cash flow for such a vehicle usually only reaches a maximum of about 60-70% of the amount committed and cumulative distributions usually exceed cumulative draw downs well before the end of the specified period, as these vehicles regularly return 1½ to 2½ times the money invested. At the same time, it has been the Fund's practice to invest monies on a regular annual basis so the vintage year of active vehicles ranges from 2000 to 2013.

This means that, whilst all these monies have been designated closed-ended and thereby illiquid on the basis of their usual "10-year life", many are closer to maturity than implied by this broad designation. As can be seen from the table, even using the conservative basis outlined above, around 88% of the portfolio is realisable within 1 month and 96% is realisable within 12 months.

Market Risk

Market risk is the risk that the fair value or future cash flows of a financial institution will fluctuate because of changes in market price. The Fund is exposed to the risk of financial loss from a change in the value of its investments and the consequential danger that its assets will fail to deliver returns in line with the anticipated returns underpinning the valuation of its liabilities over the long term.

- The risks associated with volatility in the performance of the asset class itself (beta);
- The risks associated with the ability of managers, where allowed, to move away from index weights and to generate alpha, thereby offsetting beta risks by exceeding market performance.

The table on the following page sets out an analysis of the Fund's market risk positions at 31 March 2015 by showing the percentage invested in each asset class and through each manager within each main asset class, the index used as a benchmark and the target set for managers against this benchmark.

CITY & COUNTY OF SWANSEA PENSION FUND

Cash	2% +/- 5%	-	2% In house and cash flows of fund managers	7day LIBID	-
TOTAL	100%	33%	67%		

The risks associated with volatility in market values are managed mainly through a policy of broad asset diversification. The Fund sets restrictions on the type of investment it can hold through investment limits, in accordance with the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2009. The Fund also adopts a specific strategic benchmark (details can be found in the Fund's SIP summarised above) and the weightings of the various asset classes within the benchmark form the basis for asset allocation within the Fund. Under normal conditions there is quarterly rebalancing to this strategic benchmark within fixed tolerances. This allocation, determined through the Fund's asset allocation, is designed to diversify and minimise risk. Market risk is also managed through manager diversification – constructing a diversified portfolio across multiple investment managers. On a daily basis, managers will manage risk in line with the benchmarks, targets and risk parameters set for the mandate, as well as their own policies and processes. The Fund itself monitors managers on a regular basis (at least quarterly) on all these aspects.

CITY & COUNTY OF SWANSEA PENSION FUND

23. INVESTMENT RISKS (continued)

Price Risk

Price Risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign exchange risk), whether those changes are caused by factors specific to the individual instrument or its issuer or factors affecting all such instruments in the market.

The fund is exposed to share and derivative price risk. This arises from investments held by the fund for which the future price is uncertain. All securities investments present a risk of loss of capital. Except for shares sold short, the maximum risk resulting from financial instruments is determined by the fair value of the financial instruments. Possible losses from shares sold short is unlimited.

Following analysis of historical data and expected investment return movement during the financial year, and in consultation with the fund's investment advisors, the council has determined that the following movements in market price risk are reasonably possible. Had the market price of the fund investments increased/decreased in line with the potential market movements, the change in the net assets available to pay benefits in the market price as at 31 March 2015 would have been as follows:

Price Risk

Asset Type	Value (£)	% Change	Value on Increase	Value on Decrease
UK Equities	491,946	10.92%	543,699	440,193
Overseas Equities	608,818	9.35%	665,742	551,894
Bonds & Index-Linked	210,686	2.67%	216,311	205,061

23. INVESTMENT RISKS (continued)

Currency Risk

Currency risk represents the risk that the fair value of future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. The fund is exposed to currency risk on financial instruments that are denominated in any currency other than the functional currency of the fund (£UK). The fund holds both monetary and non-monetary assets denominated in currencies other than £UK.

In consultation with the fund's investment advisors, the council has determined that the following movements in currencies are reasonably possible. The following represents a sensitivity analysis associated with foreign exchange movements as at 31 March 2015:

Currency	Value (£'000)	% Change	Value on Increase	Value on Decrease
Australian Dollar	4,585	6.87	4,992	4,178

Interest Rate Risk

The Fund invests in financial assets for the primary purpose of obtaining a return on investments. These investments are subject to interest rate risks, which represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates.

The Actuary, as part of their triennial valuation and dictated by the Funding Strategy Statement, will only anticipate long-term return on a relatively prudent basis to reduce risk of under-performing. Progress is analysed at three yearly valuations for all employers.

CITY & COUNTY OF SWANSEA PENSION FUND

24. Further Information

Further information about the fund can be found in Appendices 2 to 4. Information can also be obtained from the Chief Treasury & Technical Officer, Civic Centre, Oystermouth Road, Swansea SA1 3SN or on www.swanseapensionfund.org.uk.

25. Financial Position

Legislative Changes in the Local Government Pension Scheme (LGPS) during 2014/15

The Communities and Local Government Department (CLG) issued the following key Statutory Instruments, which were effective during 2014/15 :

S12013-2356 - The Local Government Pension Scheme Regulations 2013. These Regulations set up a new legal regime for the LGPS and are effective from 1 April 2014.

S12014-525 - The Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014. These Regulations provide for the transition of existing LGPS members, as at 31 March 2014, into the new Scheme and are effective from 1 April 2014.

S12014-1146 - The Local Government Pension Scheme (Offender Management) (Amendment) Regulations 2014 which were effective from 1 June 2014, were made to facilitate the continued membership of the LGPS for probation staff, following restructure. Greater Manchester Pension Fund (GMPF) was appointed as the appropriate administering authority for all current and former staff involved in the provision of probation services. The City & County of Swansea Pension Funds does not contain any active members in the Probation Service due to a previous restructure, however it is currently working with GMPF to ensure the smooth transfer of a pensioner and deferred records.

S12015-57 - The Local Government Pension Scheme (Amendment) (Governance) Regulations 2015 were effective in part from 20 February 2015 with the remainder effective from 1 April 2015. The regulations provide new governance arrangements for the Secretary of State to establish a national scheme advisory board and for administering authorities to establish local pension boards.

S12015-755 - The Local Government Pension Scheme (Amendment) Regulations 2015. The regulations were laid before Parliament on 19 March 2015 and are effective from 11 April 2015. They amend the Local Government Pension Scheme Regulations 2013 and the Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014, to provide clarity or improvement.

Investment Fund Management

The investment of the Fund is the responsibility of the Pension Fund Committee. The Committee as at 31st March 2015 comprised of :

- 7 Council Members (one member from Neath Port Talbot CBC representing other scheme members) advised by:
 - Section 151 Officer
 - Chief Treasury & Technical Officer
 - 2 Independent Advisers.

The Committee, after taking account of the views of the independent advisers and appointed actuary to the Fund, is responsible for determining broad investment strategy and policy, with appointed professional fund managers undertaking the operational management of the assets.

The fund has implemented a fully diversified investment approach with a view to reducing the volatility of investment returns, whilst maintaining above benchmark growth. The fund employs the services of specialist managers to outperform in each asset class invested in.

The investment managers are:

- Global Equities - JP Morgan Asset Management, L&G and Aberdeen Asset Management
- Global Bonds - Goldman Sachs Asset Management and L&G
- Fund of Hedge Funds - BlackRock and Fauchier Partners
- Fund of Private Equity Funds - Harbourvest
- Property - Invesco
- Fund of Property Funds - Partners Group and Schrodgers Investment Management
- Global Tactical Asset Allocation (GTAA) - BlackRock (ex BGI)

Other Fund Documents

The City & County of Swansea Pension Fund is required by regulation to formulate a number of regulatory documents outlining its policy. Copies of the :

- Statement of Investment Principles
- Governance Statement
- Funding Strategy Statement
- Communication Policy

are available on request from the City & County of Swansea Pension Fund website
