

Report of the Section 151 Officer

Pension Fund Committee – 12 September 2019

Competition and Markets Authority (CMA) – Setting Objectives for Investment Consultants

Purpose:	To update the Pension Fund Committee on pending requirements to set measurable objectives for appointed investment consultants
Policy Framework:	To comply with CMA requirements
Consultation:	Legal, Finance and Access to Services.
Report Author:	Jeff Dong
Finance Officer:	Jeff Dong
Legal Officer:	Stephanie Williams
Access to Services Officer:	R Millar
For Information	

1 Background

- 1.1 At the end of 2018, the Competition and Markets Authority (“CMA”) published its report following a review of the investment consulting and fiduciary management markets. Earlier this year, following on from this review, the CMA issued an order, setting out requirements for the appointment and governance of fiduciary managers, and for Pension Scheme Trustees (Pension Scheme Trustees means the trustees or managers of Occupational Pension Schemes that have their main administration in the United Kingdom. The CMA requirements extend to both Trust-based schemes, and Local Government Pension Schemes (i.e. Pension Committees) to set objectives for their investment consultants.

2 What are the requirements?

2.1 The CMA has stipulated that Pension Scheme Trustees should set objectives for their investment consultants, and that such objectives should be:

- 1 'closely linked' to the pension scheme's strategic objectives
- 2 reviewed at least every three years, and after a significant change to the investment strategy or objectives
- 3 established no later than 10 December 2019 (i.e. 6 months following the date of the final Order published by the CMA) or prior to appointment of a new investment consultant

The CMA has set out specific actions that must be carried out by trustees using fiduciary managers. We can provide separate guidance addressing these requirements should this be relevant for your scheme.

3 The Importance Of Objectives

3.1 Establishing long term objectives is part of a well organised and well managed governance approach. Provided that appropriate resources are allocated to support longer term goals, having clear, structured and measurable objectives can greatly enhance the chances of long term success for your scheme

3.2 The extension to set objectives for investment consultants could be regarded as a natural progression towards all stakeholders being aligned towards a common goal. Indeed, we believe that best practice would be to establish objectives for all key service providers supporting Pension Scheme Trustees in achieving their longer-term goals, not just your investment consultants

4 Establishing Objectives For Consultants

4.1 In their accompanying explanatory, the CMA states that objectives for consultants should include a clear definition of the outcome expected, and timescales for achieving this. In addition, objectives should be measurable thereby supporting reporting to Pension Scheme Trustees.

Your funding and investment objectives will reflect your strategic vision and specific circumstances.

And so the objectives for your investment consultant should equally be tailored to reflect this.

Underpinned by your beliefs and regulatory framework

We envisage that such objectives can be set in the context of the governance model illustrated.

4.2 By way of an example, a pension scheme may have the following long-term investment objective:

- *“Achieve the returns from investments to meet the long-term funding objective whilst keeping risk within acceptable levels to support stable and affordable contributions from the employer”.*

A corresponding objective for investment consultants may be:

- *For DB schemes, to “Provide advice on the investment strategy to deliver a target net return of XX% over gilts on the scheme’s investments with as little risk as possible, in order to support full funding by 20XX and stable and affordable contributions from the employer.”*

4.3 In addition to strategic advice, trustees will typically look for their consultant to provide advice around the implementation of the strategy. This might be captured by objectives around the following:

- Effectiveness of strategy to meet cashflows and liquidity requirements
- Effectiveness and efficiency of implementation of the strategy

Other broad areas that we believe you may wish to capture in the objectives, but which are less directly measurable, include:

- Efficiency in the governance of the strategy
- Provision of regulatory updates and meeting compliance requirements
- Ongoing monitoring of the investment arrangements
- Quality and timeliness of advice to enable timely, informed decision making

5 **Measuring Success in Practice**

5.1 One of the key challenges of measuring success is that many methods and metrics for assessing performance are typically short-term in nature and can be unhelpful for the purpose of measuring ‘success’ of long-term objectives. In some cases, these methods and metrics could lead to counterproductive decisions and hence hinder success when not considered in the context of what trustees are trying to achieve over the long term.

5.2 Trustees should align the measurement of investment consultants to appropriate time periods. Based on the example above, such measures for DB schemes may include:

- *Strategy:* measure over rolling 5 year periods, the contribution from the investment strategy toward achieving the agreed long term strategic targets, and the extent to which progress has remained within expected tolerances given the agreed risk profile.
- *Implementation:* measure over rolling 3 year periods the return on the Scheme’s assets relative to the Scheme’s composite benchmark return

and target return, net of fees.

6 Reporting Compliance

- 6.1 As set out in their Order, the CMA has established that those subject to the new requirements should report on their compliance on an annual basis. This covers both the adherence to setting objectives for consultants and assessing the extent to which investment consultants are on track to meet those objectives.
- 6.2 In addition to this, if applicable, Pension Scheme Trustees will also be required to report on the appointment and governance of fiduciary managers.
- 6.3 Pension Scheme Trustees will be required to submit their first round of compliance reporting no later than 12 months and 4 weeks after the date that the relevant requirements came into force. This translates into a deadline of early January 2021.
- 6.4 On 29 July 2019, the Department for Work and Pensions (“DWP”) released its consultation to turn the CMA’s requirements into legislation. As part of their draft legislation, the DWP has specified that trustees (excluding LGPS) would be expected to report compliance annually via the Pensions Regulator’s scheme return. The Pensions Regulator is also consulting on draft guidance, focussing mainly on how trustees should assess the performance of their investment consultants relative to objectives.
- 6.5 The Ministry for Housing, Communities and Local Government is expected to clarify how the requirements will translate to the LGPS.

7 Next Steps

- 7.1 Pension Scheme Trustees should establish objectives for their consultants no later than **10 December 2019**. The Deputy S151 Officer shall develop draft objectives for the appointed investment consultants and bring these to The Pension Fund Committee for approval at its November meeting.

8 Legal Implications

- 8.1 There are no direct legal implications arising from this report

9 Financial Implications

- 9.1 There are no financial implications arising directly from this report.

10 Equality and engagement Implications

- 10.1 There are no equality implications arising from this report.
