Equality Impact Assessment Screening Form – Appendix D

Q4 WHAT ENGAGEMENT / CONSULTATION / CO-PRODUCTIVE APPROACHES WILL YOU UNDERTAKE?

Please provide details below – either of your planned activities or your reasons for not undertaking engagement

The Strategy is a joint strategy developed by the Council and Natural Resources Wales. The project team undertook engagement work at the start of the development of the strategy with a wide range of stakeholders including the public, private and 3rd sectors, local residents, visitors, primary schools in Castle ward and members of the public. The engagement process focused on the theme *what does nature in the city mean to you* #citynature / #naturynyddinas

The stakeholder events included workshops, meetings and seminars between February and April, with:

- Public organisations including Swansea University, ABMU, Welsh Government,
 Public Health Wales, Fire Service, NRW and Swansea Council.
- Local and regional private business including developers, architects, engineers, SME's, social housing.
- Terrace, St Helens Christchurch and YGG Brynymor primary schools.

Over three weeks face to face conversations were held with over 630 members of the public in a number of locations around the city centre including the Swansea Market, Oxford Street, Swansea point (on the prom), Swansea Central Library, the Quadrant and the Glyn Vivian. Conversations will also held with a number of local groups including the Maritime Quarter Residents Association, Swansea Save our Trees, GRAFT (community growing project ion the National Waterfront Museum). There we also a number of conversations on social media via Twitter.

The findings from the engagement procuress were used the set the draft strategies vision and strategic objectives.

We are currently finalising the draft strategy to go out to consultation in the autumn. We hope to repeat some of the engagement methods as part of the consultation process along-side a traditional survey. And see the initial engagement activities as part of an on-going conversation around green infrastructure.

Work on a County wide GI strategy will also start in the autumn to be published in support of the Swansea Central strategy and the evolving GI Supplementary Planning Guidance currently in development.

	High visibility ☐(H)	HIS INITIATIVE TO THE (Medium visibility X (M)	Low visibility			
(b)	WHAT IS THE POTENTIAL RISK TO THE COUNCIL'S REPUTATION? (Consider the following impacts – legal, financial, political, media, public perception etc)					
(D)	(Consider the followi					

Equality Impact Assessment Screening Form – Appendix D

Q6	Will this initiative have an impact (however minor) on any other Council service?							
	X Yes	☐ No	If yes, please prov	vide details below				
() ;	The Strategy will require some services to work a bit differently i.e. in how they use and enhance green infrastructure in the services we provide and how we design, develop and maintaining their assets and how they work in partnership with other publish sector organisations. However the strategy is meant to act as a critical friend to help the Council met its duties to the Environment, Planning and Well-being of Future Generations Act and the 2019 SuDS Standards.							
Q7	HOW DID YO Please tick the		×					
MOS	STLY H and/or N	ı → HiGi	H PRIORITY \longrightarrow	☐ EIA to be completed Please go to Section 2				
MOS	STLY L>	LOW PR NOT REI		X Do not complete EIA Please go to Q8 followed by Section 2				
Q8	Q8 If you determine that this initiative is not relevant for an EIA report, you must provide a full explanation here. Please ensure that you cover all of the relevant protected groups.							
	The strategy is part of the delivery of the Councils Corporate Objectives and Corporate Plan and Swansea Local Well-being Plan both of which will have undergone full EIA's. As a strategy focusing on the natural environment it will not directly impact on any of the relevant protected groups. However by enhancing and improving the natural environment the strategy will contribute to all the Well-being of Future Generation Act's 7 well-being goals and therefore indirectly contribute to the overall improvement of well-being for all Swansea residents including the relevant protected groups, by contributing to social, environmental, economic and cultural well-being.
