

## Q2

### Blackpill Lido

A better lido for all ages
A bigger and better lido and outdoor swimming pool. See Tooting Bec Lido.
A community-owned sauna? Not an expensive 'spa' style - but more scandinavian in spirit. A basic sauna that people can stop off at along the cycle/walk path. This would enhance the appeal of the lido during winter months especially! Also more shrubs/trees for wildlife
A decent pool for families. No buildings.
A full size outdoor swimming pool lido complex would be wonderful with slides and sunbathing area, cafe area etc
A great area for families, perhaps a small cafe would serve this area well
a larger lido would be suffice.
A lido fun area for families, it is very popular as is.
A lovely much used and treasured outdoor space for young families to enjoy. The nearby Junction cafe, and the Woodman Inn provide all the indoor food and drink facilities necessary. There is no demand for any further development here, and any additional refreshment facilities will endanger the existing businesses.
A monument to the Swansea and Mumbles Railway. It was the world's first passenger railway and deserves to be remembered.
A new larger toilet block is desperately needed as there is always a queue and they are in a despicable state , when we are trying to draw tourism to the area . and New play equipment . A lot of families use this park in the Summer and there is never enough equipment for all to use . There are only two swings .I thing the original T Junction is enough as it is a historical site .The lido pool could be extended to have pedalo boats like it used to be .
A permanent small eco coffee shop near here! And some picnic benches where you can eat your own food.
A repaired lido for families to enjoy again
A small café area/toilets development.
A small recycling centre and refill station to refill washing powder / washing up liquid etc.
A small stage for events/performances. Keep green!
A smaller splash area alongside the paddling pool.Improve toilets Another cafe.with toilets attached
A splash park
A toilet block which is always clean and not always blocked and flooding. Preserve sea view.
A train to Mumbles from the SA1 area would solve the massive traffic problem of the Mumbles Road.
A very popular place for families with young children. Remain the same
A Water fountain like Merchant Square fountains in Paddington. Looks good and still fun for children.
A year round lido I think would benefit the lido. Something like they have over the tennis courts at David Lloyd's would be ideal as it can be removed when the weather is hot.
Absolutely love this area, park Be lido. Fantastic free place for children of all ages to use together.
Absolutely no way. Do not touch it except for regular cleaning

Add recreational uses
Add coffee shops and small restaurants but keep the water areas
additional and more year round play ideas
Admittedly in need of some refurbishment/ updating but extremely popular during the summer months.
Again keep it tidy. Smarten up and improve toilets
Along with many residents and voters I object to these proposals. The Lido has proved a key attraction for generations and has had more publically funded improvements made in recent years. The Terminus Café is a constant attraction to this location in all weathers and seasons. This should be cherished and not tampered with. All proposals for development even of a smaller scale will be rejected by the electorate. The adjacent Clyne Gardens and Clyne valley together with adequate car parking provide a good balance for all interests. It is disingenuous of the council to maintain that there are no proposals for this site when as evident from the FAQ's that consideration has clearly been given to: Plans to generate income while maintaining ownership. High-rise development has not been completely ruled out and smaller scale ones are suggested. Reference is made to the possible loss the loss of facilities to local people Reference is made to starting with a blank piece of paper which by implication means that some form of development is planned.
Already attracts many visitors and has toilets and catering facilities
Already developed sufficiently, with a cafe/restaurant and play areas.
Already developed sufficiently, with a cafe/restaurant and play areas.
already has a cafe so doesn't need another one - unlikely but I would develop it as a full blown heated swimming lido not just a paddling pool
Already has facilities, improve what is there rather than build more
Already over developed. Definitely no change
Already well developed so sensitive additions could help.
Already well developed so sensitive additions could help.
Already well served by food outlets and outdoor leisure facilities.
Already well-used, has toilets and a cafe. Chalet-type kiosk on the sea side of the site, and crazy golf would enhance the play facilities.
Also a great spot for a skate park!
Amusement arcades and gift shops.
An absolute asset
An excellent resource. Longer opening season needed.
An ideal location for a tramway request halt- providing a focal point for bringing people into the area. A local information point could be installed.
Another place where people flock to with their children, which is cleaner than the seawater in that area. Upgrading the area would improve the well used facility.
Any improvement in this area would be welcome, but again as long as it does not negate the surroundings area and coastal views,
Any more development will ruin the site. Part of the foreshore's charm is that it is undeveloped. No need to add anything else to make a quick profit
AstroTurf crazy golf
Australia style electronic barbeque grills
Be more flexible on opening if the weather is good earlier in the season. Make the lido itself bigger - its a very popular spot for families with young children - maybe add an outdoor swimming pool

Beach Volleyball pitch. Basketball court. Semi-covered picnic area with more tables. Boardwalk onto beach for easier access for wheelchairs, pushchairs and families with small children.
Better access (Bridge over road, safer for families). Larger paddling pool, larger picnic area.
Better facilities for the kids
Better facilities for families - new toilets and re-do/modernise the lido
Better park and upgrade existing lido
Better playground; longer opening of the pool
Better pool and facilities in the playground
Better pool not just for the kids but maybe for adults aswell
Better toilet facilities and more shade to keep children safe. Small extension of children's play area
Blackpill Lido is very busy so would appear to serve the needs of families. How about converting the paddling pool into a skating rink in the winter months?
Blackpill station on a revived railway line
Bridge access to avoid traffic congestion and safer crossing
Brilliant, but should open for the 1st May bank holiday. Not a fan of the funfair rides / giant inflatable there. Maybe a water jumping garden display/fountain instead.
Bring back the train
Broadly, its use as a leisure venue for younger children is very suitable. The paddling pool should be available for at least one month earlier.
Build a bigger and better water park. This can then be used with my idea of Sketty lane car park.
Build a seawater swimming pool for adults. These can be cleaned by the incoming tides and require little heat as they can be solar heated.
Build an adult lido/outdoor swimming pool there as well which would improve the facilities and encourage a healthy life style
Busy enough as it is local parking can't sustain any more visitors
Cafe or bar
Can we please have some shelters along the seafront? Who will venture out to all these developments on rainy days when there is no shelter between Swansea and Mumbles. And more toilets, which are open before 9 and after 5 please
Children's park. Coffee shop. Bike hire stops. Increase car park.
Cleaner toilets
Coffee shop and benches
Concrete skate park
Concrete Skate park
Concrete skate park
Concrete Skatepark
Concrete skatepark
Concrete skatepark
Concrete Skatepark
Concrete skatepark
Concrete Skatepark
concrete skatepark
concrete skatepark
concrete skatepark
Concrete skatepark! PLEASE!!!

Costa drive through
Could do with upgrade in its present function
Could be used year round for other activities
could do with more activities for the children.
Council run cafe
Create a tidal swimming pool. Keep the small lido and create another one that the tide washes over. Create a Watersports hub
Create a massive outdoor/indoor pool that people could pay to enjoy, and promote healthy living rather than a splash pool only.
Current use of the lido does seem to bring consistent large crowds to the area. It also removes children from the main cycle route and into a safe space to play. However, there could be better uses for the land - but not residential. Furthermore, it will increase the traffic flow in an already overcrowded nearby road network. This means that substantial work needs to be put in to upgrade the current road network, even more so than it does already!
Currently a lovely area of parkland and leisure facilities. Please don't remove any trees or substantially reduce the parkland. It's a shame the lido is only open in school holidays as I've tried to visit with my young son at other times of year. I wouldn't object to a small charge to use the lido or better cafe facilities.
Decent restaurant, coffee shop and CLEAN TOILETS!!! Children's play area
Decent toilets with baby changing facilities, seats outside for breastfeeding mums to keep an eye on older children. Junction to have child type menus.
Deeper pool
develop
Develop leisure and family facilities. Not residential
Develop the lido bigger and better
Develop the play area which presently has very little to offer the youngsters
Developed as a lido for all to use
Developed into a destination and Mumbles Railway station.
Ditto
Do a transport plan first before any development - a tram to Mumbles?
do not change it in any way, other than do some maintenance to tidy it up
Do not change it, leave it alone! We do not trust you with our land!
Do not develop
Do not do anything that would make traffic worse here. Maybe some pop up eateries like the seafood trailer in the Mumbles
Do something about the appalling railings which surround the pool for most of the year, an eyesore!
Don't change it. No building
Don't F**king dare. You money grabbing c***s
Don't build on it. Please don't spoil the view as we drive into Mumbles.
Don't change something that works. The Junction cafe has been a huge asset to this area. The lido is well used by families, and it has public toilets. It also has the car parking over the road, as well as being on a good bus route.
Don't develop
Don't you dare touch it. Leave it alone
drinking water fountains all along the promenade, encourage people to use less plastic.

Each of these 5 sites provide open space which is a unique selling point and asset of our great city's coastline. There are already a lot of facilities and the remaining open spaces (and parking) needs protecting so that the enjoyment of the rest can continue; if the seafront is built up where is there to go to enjoy it? These sites provide a great deal of value as they are, and once they are developed they won't be made back into open space ever, so think very, very carefully.
Eco hut, solar & wind powered with interactive screens/ info on marine, bird wildlife of the coast/local history. To educate on the environment & used as a meeting place for visitors & locals.
Enhance the play area for the benefit of children. Add a facility for children's educational and entertainment shows during the summer months.
Enhance the play area for the benefit of children. Add a facility for children's educational and entertainment shows during the summer months.
Environment/education information boards (e.g. about the sea, local species, environmental protection, local initiatives)
Essential to have this as a child friendly area but increase the appeal to year-round e.g. a natural lake and small scale reserve, where children can learn about nature and be taught an awareness of the environment
Even I will admit this whole area is outdated, scruffy and a bit of a mess. But it is a mess because Swansea Council have failed to move with the times and keep it modern and fun. BUT, I want this area to remain one that encourages activity and brings vibrancy to the Prom. I don't think the actual Lido is necessary anymore - particularly for the fact that it is closed for I think 9 months a year, am I correct? Particularly in Wales, it is absolutely useless. HOWEVER, it could be resurfaced and grassed-over, allowing an expansion of the park, and the introduction of some new play apparatus and more picnic benches. A football court/games court would be good here. Fencing/a small wall is definitely required between the end of the lido and the actual Prom path to stop kids running out in front of bikes, as happens often, before there is a nasty accident. The toilets are in desperate need of updating and a second cafe/coffee shop to reduce the current demand on the one that is already there would be good.
Every child in Swansea loves the lido so it must absolutely remain as it is. The toilet blocks however are in need of renovation and this should be a priority for this site. I also think the council needs to extend the lido opening time beyond the 1st Sept to the date the schools actually go back.
Exactly the same as above.
Extend and cover it so it can be used year round.
Extend and improve the play area. the water kingdom and the muddy puddles in paulton's theme park in Hampshire is a great idea.
Extend the children's play area but keep it back from the cycle path. It's dangerous enough with children running out without looking
Extend the opening of times of the pool
Extend the park and keep the paddling pool which is lovely for the little ones.
Extend the park and keep the paddling pool which is lovely for the little ones.
Extended and revised family leisure facilities that enhance the current offering.
Extended water-park.
Extending the popular Lido - The Junction provides refreshments and food - adequate parking

Extending the popular Lido - The Junction provides refreshments and food - adequate parking
Extremely busy during summer but opens far too late and closes too early.. leave alone . Don't destroy a popular venue for commercialism.
Extremely popular with families during the holidays and after school on summer
Facilities are generally good at this location, although the public toilets require upgrading and better maintenance.
Fantastic amenity leave as is
Fantastic facility. Again leave it as it is.
Fine as is toilets water refill site recycling bins
Fine as it is
Fine as it is but open the pool from Easter
food outlets, cafes, restaurants
Free open air lido do not change already developed
Free open air lido do not change already developed
Full size Outdoor swimming lido such as they have in Plymouth and many other towns
Generally tidied up and pool to be improved for use for longer period is heated
Generations of our children experienced lots of fun, joy fresh air and sunshine at this site, most parents like ourselves could never afford to take our children and grandchildren away to other climes, a packed lunch , a couple of bottles of lemonade and a good splash around ensured a good nights sleep for parents and grandparents, please dont develop this site for any other use than free childrens fun and entertainment,a foot bridge over Mumbles Road would be a good safety feature too. The current site looks a little sad because for years council cuts have failed to maintain it adequately.
Get rid of the awful temporary fence around the lido for 9 months of the year. Nobody is going to injure themselves, it is an eyesore. The park is nice, could do with some upgrading. No other developments necessary.
Get rid of the petrol station, an accident waiting to happen with people crossing traffic and an eyesore
Get the pool sorted out - or replace it with an ornamental garden and / or a shelter / bandstand-type feature. It must be able to be used for more of the year.
Give the children more facilities to play on.
Good facilities for children and maybe a cafe
Good idea to provide better facilities however as it so well used it would be a shame for it to be developed as a charge on entry facility thus depriving its use to many. The car park at the bottom of Derwen Fawr Road needs to be altered and improved to enable more cars to use it and thus provide revenue to initially pay for the upgrade and then provide income for the Council.
Good idea to. Make site available all year round
Great day out for the kids and families always busy during the summer months
great location, extend season if possible, maybe an entertainment area,
Have a changing Places toilet,have more lighting,make it more accessible to wheelchairs and mobility scooters.Have better freshwater drinking facilities.

Have this as the gateway to mumbles. Build a proper car park, possibly on the old shell garage site. Have a facility of a free park and ride into mumbles, bus or mumbles train. This will eliviate traffic along mumbkes road and help congestion of touriats in the village where there isalready limited parking. From the lido maybe have a large arch over the road and foot bridge where people can cross safely. Then all along the front have independent shops and hut style shops. This will bring new business and generate income. Cockle stalls, stick o rock, gifts toys etc. Along the front have street entertainments, music, balloons and such. This will spread tje tourist population all along the front instead if being centralised in the village itself

Have you ever actually been to the Lido in the summer? It is jam packed with people. This indicates that it is fully used to its potential and really doesn't need anything else there at all. If it ain't broke, don't fix it as the old saying goes. Please leave this lovely place alone. People are already attracted to this area from miles away, and if you want to change it just for extra money income, then you are already wasting your time!! LEAVE IT ALONE!!!!

Have you seen how popular this site is with locals during warm periods? It's wonderful. No one wants this to be indoors, children and parents like to be outside and splash in the sunshine. Leave it alone.

Help create a cycle hub for bike rentals and tricycles for older people to stay fit and active out doors. Could be a non profit making organisation.

I'm writing to let you know, as my MP, about a problem affecting people in our local area & to ask you, as my MP, to support a campaign that I feel strongly about.... I want to protect Swansea's Green & Open Spaces. I believe that they should NOT be developed. I believe that no green & open space should be developed as there are plentiful brown field sites to be developed. Swansea is a beautiful bay, with residents, students, & tourists enjoying the extensive green & open spaces on the foreshore of Swansea - right next to the first SSSI site in the UK.... So I have been upset to here that the City & Council of Swansea want to lease off the family silver, allegedly to "friends" in the development industry, with little regard to its current facility of green & open spaces, but concentrating on "needing money to run services for all its residents"! ....I have seen the [www.swansea.gov.uk/seafront](http://www.swansea.gov.uk/seafront) "please tell us your views by 10th June" & am very concerned that the green & open spaces we enjoy are about to disappear. Are there any specific UK Government or Welsh Assembly guidelines/policies that I could refer to to support my campaign? Is it possible that these pockets of land have covenants on them, which would make development illegal? I have heard, particularly, that the Llangland Bay tennis courts have a covenant on them, as previously part of the Llangland Bay Manor Estate. With Freedom of Information in mind...Who should I contact to ascertain whether this is true? Or is this something as MP you could more easily achieve for me? As a secondary concern: traffic between Swansea & Mumbles always flows very slowly, and parking in & around Mumbles is often impossible - particularly at the peak of Weekends & school holidays. More facilities would have a detrimental impact on this already unsatisfactory scenario. I hope to find you sympathetic to my views and, with your experience of dealing with the City & County of Swansea, I would appreciate your help & advice. I know that funding local services and juggling budgets is a very difficult job - but I would like the current facilities of Green & Open Spaces not to be used to generate new income. The Local Government Act 1972 refers to obligations to generate best value for council assets. ( Not maximise revenue regardless!) It is my view

How about beach huts like Llangland.

I am sure this popular area could be aesthetically developed more to create a lovely family area.

I am vehemently opposed to the coming on of any green field sites and of any development, on this land, particularly with regards to the Blackpill Lido, Land on the Mumbles side of the West Cross Inn and Land around the skate ramp, West Cross. I am horrified that this could even be contemplated!! These green spaces are an integral part of what makes Swansea beautiful. The natural sweep of coastline from Blackpill to Mumbles is the city's unique selling point and an important draw for local residents and visitors alike; why would you consider destroying the very thing that attracts people here in the first place? The Well-being of Future Generations Act (Wales) Act 2015 requires public bodies in Wales to think about the long-term impact of their decisions on future generations; destroying the natural environment alongside our coast, and open space of public value, negatively impacts both the current generation and future generations and once sold on for development can never be replaced. Freely, accessible natural green spaces are community assets and make a vital contribution to the quality of the environment and of life in urban areas; allowing people to play, exercise and enjoy contact with nature. They help improve public health, mental and physical well-being and quality of life and in addition have an important role as a home to wildlife and natural habitats. Swansea Council's own Open Space Strategy highlights as one of its strategic aims to promote biodiversity and the conservation, protection and enrichment of species and habitats. The area of Swansea Bay from Blackpill to Mumbles is designated a SSSI as it is an important feeding post for migratory birds each year from September to April and resident birds throughout the year. According to Natural Resources Wales SSSIs are the most important sites for Wales's natural heritage. They help conserve and protect the best of our wildlife, geological and physiographical heritage for the benefit of present and future generations and each SSSI is protected by law from damage through development or unsuitable management or other activities. I would like to object to any development to the Blackpill Lido site and also land around the skate ramp, West Cross and Land on the

I cannot believe that the council could even consider further reducing children facilities. Renovating and improving the existing area would be acceptable. It is one of the few free places low income parents can take their children.

I don't think this area needs further development. The existing area requires tidying up. Again the beach area is very dirty and full of rubbish. Also the roads around Blackpill are already heavily congested and the traffic light sequence causes traffic to build up quickly. Further development would only increase congestion and pollution in the area.

I genuinely love Blackmill lido. I go there with my three year old and he has a lovely time. Leave it as it is. There are already toilets, places to get ice cream, a play park, the beach. If anything, more trees would provide a bit more shade during the really hot months.

<p>I have on a few occasions contacted Swansea Council about revamping and upgrading the Blackpill Lido. This area is wonderful for children, families and visitors to enjoy everyday during the summer months and should be extended into September. Sadly there has been no improvements over the years, such as perimeter seating around the pool so that children can be monitored at all times. Picnicking benches and seating areas, not everyone can sit on the ground. Upgrading the public toilet facilities, at present they are antiquated and disgraceful. This Lido is a fantastic place and should be kept not removed. Come on Swansea Council Leisure Department, use some of our Council Tax to benefit families who want to enjoy the Blackpill Lido all Summer.</p>
<p>I think any additional development should not affect the green space/ view</p>
<p>I think this should remain but be upgraded/updated. It's busy every year especially in nice weather.</p>
<p>I would be grateful if Coucillor Stewart could answer me on gerti.axtmann@gmail.com. I remember he used the word 'sound' all the time when he told the residents that nothing we wanted was taken into consideration.</p>
<p>I would consider carefully planned amenities not detracting from the area and not over crowding the shoreline. Ideally I would be in favour of reclaiming land from the sands.</p>
<p>I would like to see an adult outside pool instead of just one for children</p>
<p>I would only suggest that the lido should be made ready and open for May bank holiday. At least the last two May bank holidays have been warm and sunny. By not having this facility open Swansea city council has missed out on an opportunity to promote our wonderful foreshore and generate more visitors and revenue.</p>
<p>I'd like this to continue as a free family attraction - but possibly with a large see-through canopy to make it a year-round attraction. There's a large grassed area on the city side - I think that'd be a great place for another Santander cycle hub and a small catering establishment to complement The Junction's offer and/or a physical activity business in the spirit of The Climbing Hanger which is new to the Enterprise Zone. I think public toilet provision should be maintained - although not necessarily in the existing block. Together, these changes could see the site become more of a focal point for those wishing to enjoy the prom and beach.</p>
<p>Ideal development site where the Council should seek to maximise land value. Perfect for high rise development, housing, retirement home, condo type schemes, why shouldn't exclusive high end housing be provided to generate maximum capital receipts for the Council. Compare and contrast with Miami Beach and Monte Carlo, if those cities can do it, why can't Swansea?</p>
<p>If the Council maintained it a bit more, it would not look so forlorn, or is that part of these plans I wonder? The lido is a huge asset, it must be kept at all costs. A dome is ridiculous and would look like a joke, we need to keep our biggest natural asset, natural, not turn it into a theme park.</p>
<p>If there are to be more facilities to encourage children to exercise then fine but if it is to encourage fast food outlets then that would be a disgrace.</p>
<p>Improve it</p>
<p>Improve it</p>
<p>Improve it for families</p>
<p>Improve lido</p>
<p>Improve the conditions are the facilities already there</p>

Improve the current provision with a decent outdoor lido. One in which even adults can swim.
Improve the layout and facilities but this is a popular, safer venue for families with young children who come from ALL OVER SWANSEA and beyond.
Improve the paddling pool
Improve the public toilets
Improve the toilets. Retain and improve playground area and possibly putting some playground equipment which would be good for children with disabilities. ~Retain Junction building and area - historic Mumbles train building. Allow pop up stalls for information, charity, commercial ventures. It would be good for example to have historical / environmental information available. Encourage activities as 360 has traditionally done but have something other than sport or games perhaps - encourage environmental groups for example who are used to working with members of the public. Not sure that there is a defibrillator on the prom. Maybe this would be a good place for one.
Improved facilities
Improved facilities and park
improved for tourism and recreation
In today's society where everyone is encouraged to do more exercise it would be fantastic to have the Lidos open again, would look fantastic with an Art Deco feel
Increased competition between vendors here would be welcome to improve competition over prices, services and products. The design of the lido needs to be changed so that it can be used all year round, and not fenced off.
Indood pool
Initial view is that it should not be further developed. However, without knowing what is being considered it is difficult to give an informed opinion.
Invest in what's already there
Is a weather dependant facility that could benefit from some low level year round leisure facility development.
Is great area for families leave it alone if it's not broken
Is used by thousands of people every summer...why change.??
It is fine and well used as it is
It is fine as it is but a road bridge would help to avoid the massive traffic hold ups on sunny days.
It is great as it is, but there should be water in the pool for a longer period than it has been. but I would like to see the Junction cafe open in the evening, it closes too early. There is space however after the pool and the playground to have another restaurant facing. The public toilets there should be open for a longer period of time.
It is highly popular in the summer months, why change it. Look after it and invest in whats there.
It's a great area for people to take younger children. They can play safely in the warmer months. It should be opened from Easter though.
Its a lovely park to enjoy during summer, havent been as I have no kids and not been there in years.. Seems a shame I don't know of the activities that go on there could there be more youth and geriatric facilities a nice spot to shelter from all weather and plenty of things to do out of town.. maybe a studio for painters or artists, people willing to share a craft...

Its popularity is obvious during good weather, and is great for the younger children, it is ridiculous that it stays shut until the second spring bank holiday
It's very popular but looking a bit shabby. Anything that goes there needs to enhance the area and preserve the view.
It's very popular but looking a bit shabby. Anything that goes there needs to enhance the area and preserve the view.
Junction cafe there already
Just bring back the Mumbles railway.
Just enhance the toilets and facilities here as it is very busy in the summer
Just fix the toilets
Just smarten up the existing lido and extend the season forwards and backwards. Don't use that ugly fencing when not in use. Buy the old Shell garage as extra parking.
Keep
Keep and improve
keep as it is
Keep as it is
Keep as lido, improve the pool, play area and seating, maybe provide deck chair and umbrella hire, maybe provide dome for all weather use and keep open all year. Bike hire?
keep as the same
Keep Family leisure facilities/ cafe
Keep it a lido but update it and maybe make available year round? This attraction has been there for years, it's part of Swansea's history and is always busy!
Keep it as a lido. Possibly look for something that makes use of it in winter - but definitely keep it as a lido for summer. It brings so many people to the area.
Keep it as it is- great for families and young children
Keep it open
Keep it open longer. Would be a great idea to upgrade the toilets to a changing places, as the lido has a slope so it's perfect for people with mobility issues.
Keep it, just upgrade the facilities.
keep lido and kids play ground redevelop it in to a modern playground with equipment that encourages adventure and is totally inclusive of children with all or little abilities. Put a cafe toilets and water fountains in.
keep lido and kids play ground redevelop it in to a modern playground with equipment that encourages adventure and is totally inclusive of children with all or little abilities. Put a cafe toilets and water fountains in.
Keep the area as a lido for the use of public enjoyment. this area (including the adjacent park) is a fantastic facility for young children. failing that, extend the park area to provide a safe place along the seafront for young children/families to come and use
Keep the current facilities but with new toilet and changing facilities.
Keep the facility and Junction cafe. Long term gain heritage status and incorporate into new monorail or tram line to Swansea to Mumbles
Keep the lido - it gets really busy with families. Better toilets - Open more often - better lighting and an evening venue would keep it busy in the evening
Keep the Lido - make it bigger & better
Keep the lido and skate park

Keep the pool & add other water features which are environmentally friendly which would enhance its natural surroundings.
Keep the water feature at the lido whatever, it is so popular in warm weather
Keep this as a open public lido
Keep under council control as the lido no other development
Keep!!! Brilliant facility for the community
Kids love Blackpill, and the cafe is always busy on a sunny day. It's the only bathroom for miles, I think all of these facilities need to be maintained.
Leave
Leave alone
Leave alone
Leave alone
Leave alone
Leave alone as area to be enjoyed by children and families and we need to enjoy the view
Leave as a lido maybe an open air swimming pool
Leave as is
Leave as is
Leave as it is
leave as it is
leave as it is
Leave as it is
Leave as it is - a great community area that should not be developed upon !
Leave as it is - open spaces on the bay are important
Leave as it is but perhaps consider opening the lido earlier in the year. There is already a good cafe in the area but the toilet block needs refurbishing as it's often in a horrible state and not large enough for the number of people using the area.
Leave as it is- so many of us benefit from the water area with little children as they can play safely. But add a splash pad area for older children (soft tarmac) and more water features like most cities have but Swansea doesn't.
Leave as it is! It's a great place for families in the summer!
Leave as it is, has enough facilities there already
Leave as it is. Maintain facilities better
Leave it
Leave it alone
Leave it alone
Leave it alone
Leave it alone
Leave it alone, so popular in the summer with families
Leave it as it is
Leave it as it is
Leave it as it is
leave it as it is an improve the facilities there
Leave it as it is do not develop further
Leave it as it is do not develop further
Leave it as it is, it's a public arra
Leave it as it is.

Leave it as it is. I believe there is already a cafe there and it is a great place for families and children
Leave it as it is. You will destroy the area
Leave it exactly as it is - no development please!
Leave it well alone it is perfect as it is
Leave the green areas alone
Leave well alone
LED Lighting. Not just season but all year round.
Leisure facilities, tourism, cafes
Lido are to be updated but for the lido yo remain. A better play are for older children to use.
Lido for the youngsters, as hugely popular NOW! Why change an amenity that is always very well used. It would be a loss to change it.
Lighting all around sea front
Looks nice expensive shops
Lots more seating along the whole front. Make a feature of them using different materials to showcase local history.
Love the lido as it is in the summer... coffe shops already there are lovely. Just needs some TLC.. more play apparatus for children fir when the lido not in use...alternatively could make it an indoor lido with opening roof??? But it a lovely free space for families to use...lets keep it that way...and keep the green!!!
Love the lido just as it is.
Lovely space, packed full of families with young children when the sun is out, but negelected by the council for 9 months of the year. Lets give it a massive upgrade to the lido and the make the playground awesome,....
Low-cost cafe, Low-cost childrens soft play, Low-cost adventure playground, low-cost minigolf.
Madness
Maintain area, add public toilets that are also well maintained and grounds kept up to keep it neat and tidy.
Maintain it properly and open it more across the year.
Maintain the current lido and improve public toilets. There is already a cafe and often an ice cream van in the area which is always busy in good weather when the lido is open
<b>MAKE A LITTLE BIGGER</b>
make it a better lido. It is hugely popular already
Make it a bigger and better lido
Make the pool bigger and stick a real old pirate ship in the middle with slides and water cannons.
Minor improvements and open all year.
Modernise existing lido but make it an all yr round attraction. le open air and covered play areas
Modernise it bring back the Mumbles Train.
Modest development, keeping low cost option for lower income and large family groups.
More attractions for the kids, more like in aberavon beach
More cafes/restaurant as The Junction isn't open long enough to keep people in the area
More facilities for older children

More facilities for youngsters and two or more cafes to give choice
More green space
More play equipment for a wider age range. There is nothing there really for 7+. lido open more months of the year. Area for 'pop up' kitchens/ food vans.
More shops, a good pub, cheaper or free parking, bigger play area, refurbishment to make splash pad. Sculpture trail, refurbish toilets
More stuff for the kids, an all weather bubble over the lido? public toilets
More stuff needed for the kids here
More than just a paddling pool. Open longer through the year.
Much needed attraction...put some water in it
Mumbles rail link or leave it alone
My children love this Lido and have had many lovely times playing here - they also love the parc and the beach adjacent to the lido. You can catch the train to htis site or cycle along the sea front. it could do with a refresh and maybe some showers and toilet fa cilities but otherwise it is a little gem.
N/A
N/a
Natural swimming pool
Need to address parkng issues at this site, which is very popular with younger children and their parents
Need to improve the pool and the children's play park. Looks terrible in winter time with the fencing around it
Need to keep lido but improve park and general area
Needs developing - the fence around it until the summer is an eyesore. Needs upgrading and made usable all year. Could be amazing attraction all year
Needs developing but should continue as free area for children and families to enjoy.
Needs updating , the childrens play area does not have rides for all ages. And more picnic tables should be available. More food facilities with competitive prices.
New small facilities
No
NO
NO - see the reasons a ovr
NO BUILDING OF RESIDENTIAL PROPERTIES ON THESE SITES AND OTHER AREAS OF NATURAL BEAUTY IN SWANSEA
No change
No change to the buildings lido etc. New Set of steps to access stopping off point for overhead gondola railway to Mumble and Swansea etc.
No changes necessary. Absolutely fantastic resource! So so many people use this space, fantastic accessible family area
No coffee shops as there is no need
No comment
No development
No development
No development
no development
no development
No development
No development at any price

No development needed
No development of any kind. This is a beautiful entrance to Mumbles. There are food outlets in Mumbles. We don't want an entrance looking like the entrance to Blackpool.
No development! Just want to enjoy the views and the lido with my family.
no development, maintain what is there already
No development. This is a delightful area for families and children, and should not be destroyed. There should not be any development of sites 1 to 4. There is certainly no demand by local inhabitants for restaurants or shops or any other development that will add to the already chaotic traffic system that leads to Mumbles.
No further development need as has lovely park, free lido in summer and a cafe. If lido covered for all year use as has been mentioned then it would no longer be free I'm sure and isn't that what the leisure centre is?
No harm in improving it as long as the area isn't expanded to block the lovely green space at the bottom of Mayals Road and is still fit for purpose for family days out.
No houses or flats, enhance the pool and surrounding area
No more facilities do not develop there is nothing wrong with it also a friend of mine has a plaque in her name there what would happen to that exactly?
No view
None
None
None
Not flats
Nothing
Nothing high rise. Not residential. Public facility. The lido has always been well used, especially by families who rely on bus services to get around. If it can't be a lido (why not?), can it be a playground?
Nothing needed
Nothing new is needed here. The lido is extremely popular with many people in the summer months. And with the pub, Post Office and a cafe next door it is an ideal spot for locals and tourists alike.
Now that 360 has closed there is a gap in the market for Blackpill Lido to take over. Put on family/adult/kids classes and activities, ie beach yoga, watersports, a running club. Seashore safaris always go down well with kids and are good for environmental education. Add a cafe with outdoor seating, the 360 cafe was always popular in the summer. Make Blackpill Lido a hub for outdoor activities and exercises, allow local activity businesses to advertise/have a base there
Ok
Open air year round swimming pool
Open earlier in the year
Open earlier in the year so it can be used in the two week Easter holidays. Toilets need a make over and more frequent cleaning, they become disgusting during busy times
Open for longer
Open for longer in the year. Definitely no further development. It is a site of special scientific interest so please leave it alone!

Open it at the beginning of May. More kiosks selling ice cream so there's some competition.
Open it earlier in the season
open it from ester so families can enjoy the facilities for more of the year, rather than it being a fenced in eye sore for most of the year
Open more and cleaner toilets
Open the pool from early May.
Outdoor pool with swimming lanes for summer use ,wooden jungle gym for kids similar to one at hill-end campsite llangenith
Outdoor swimming pool and splash Park, like ponty lido and a proper children's lido
Packed in summer. Iconic Swansea landmark
Parking is a problem here with everyone having to cross a busy road which adds to the traffic problems in this area. I believe to further develop this site you would either need a car park at end of golf area or a bridge over the road suitable for both pedestrians, wheelchairs and cycles
Part of the attraction of Swansea for tourists and for the people that live there are the views of the bay as you drive through. Furthermore huge amounts of children use this space in warm weather. This space should be protected as a safe play area or perhaps an additional food/restaurant type structure which still allows views of the bay. Housing/flats would ruin this space.
People go here and spend money as it is a safe place for children and not spoilt. Why do you want to change this popular place ?
perhaps a facelift for the existing children's facilities, but nothing more intrusive than this.
Please do not build on this area
Please do not change this... Its well used by locals and visitors alike
Please don't spoil this
Please keep it and expand its opening season, perhaps have a voluntary donation scheme or collection to allow for the upkeep of the facility. Perhaps over the prom from the Lido a small collection of huts / hides for the bird watchers who keep watch over the SSSB(s)?
Please keep the lido, just update the facilities with changing areas and picnic benches or chairs to hire while there
Please read comments for Sketty Lane car park. The same applies
Please see Mumbles Community Council response under 3. Land around the skate ramp, West Cross
Please, no more coffee shops or restaurants - there are enough already. Keep the facilities for children to play and don't spoil the view. Do not build on this site.
Plenty of facilities already here although the toilets could do with updating.
Plenty there already dont need todo more
Pool and bbq
popular well used area in the summer leave it alone and upgrade the play facilities
Potentially a great place for families with young children. Would benefit from from a refurbishment and possibly a larger covered area for customers of the cafe to sit in bad weather - extra revenue from this would help to pay for the refurbishment.
Power, water and drainage facility for outdoor stage, encourage live music and entertainment.
Promotion of environment like a small museum type building
Provide car park on front and allow current facilities to thrive

Provides a lot of space for outdoor activity
Public area well used
Public toilets
Public toilets /showers a new railway or monorail from Swansea with parking to mumbles with parking
Put a proper lido there
Readily used by many and served by cafe and kiosk and public toilets. Fantastic as it is.
Redevelop for recreational use also more independent units for summer stalls
Redevelop mumbles train station
Refurb? All for it... no Lido.. no no.
Refurbishment work
Regenerate but keep the same type of facilities
Reinstate the Mumbles Railway
Removal of pedestrian crossing mandatory and replace with ramped access to reduce traffic and increase access. Lido needs all year round facilities
Reopen as a station on the Mumbles Railway
Replace old train power station with new restaurant complex--however this would increase footfall and require more car parking eg double deck carpark on Cline valley car park.
Replace old train power station with new restaurant complex--however this would increase footfall and require more car parking eg double deck carpark on Cline valley car park.
Replace the stuffy soft surface. Don't allow ugly inflatables build more action equipment and provide more shade.
Restaurant use acceptable, but as a means of securing and upgrading the lido itself, which is a great asset. Why not a new vegetarian restaurant? The council is, rightly in my view, promoting the green/sustainable agenda. Vegetarian restaurant would send out a good signal.
Restoring the Swansea- mumbles railway
Retain pool and play area but add picnic area and update toilet and changing rooms
Revamped
Re-wilding
Scandalous
Scrap the lido and put the lake back so people can enjoy it all year round
Sealife centre and kids park
Sealife centre with kids pool and park
Sealife centre with pool and park
See above
See above
See Bristols Wapping Wharf Container shops - not tat, good quality food outlets, local produce, oyster and champagne bar, gower ice cream
See my comments above - the Lido is a useful tourist facility and should if anything be improved

See Victoria Park, Cardiff, for an excellent splash pad to replace the current lido. Doesn't require heras fencing or lifeguards. Coming across the lido out of season with the heras fencing & activities fenced off makes the whole area look cheap/unused & is not a great image. Alternatively do a proper lido like Pontypridd (amazing heated all year round swimming) or Brixton. Outdoor swimming with cafe, park & sea views. Unique opportunity?
Seems pretty successful as it is. I would like the facility to be opened earlier in the year if good weather allowed (like 2018).
Should be left as it is, I enjoyed as child, now take grandchildren. Junction Cafe is there so no more food outlets required.
Should be like aberavon layout and as cheap to park £2 all day
Should be made into a proper swimming lido same as pontypridd
Should be opened from Easter -often have lovely weather in April, but it doesn't open should be updated and it is not good that most of the year the pool is fenced off and looks unsightly
Should be bigger pool heated open all year round The pool should be lit up with low level lighting washing the walkway
Should not be changed or developed
Should not be developed. It is always full of families and removing this safe place to allow people to enjoy the environment in the summer would be detrimental to social and tourism.
Should remain a lido or a boating lake for people to relax, could be glass covered to enjoy all year round.
Should remain as is
should stay as a "free for all" public leisure space, with better seating and public toilet facilities
Shouldn't be touched in anyway. Council should invest money to what is there now.
Similar complex perhaps something more up to date
Simply look after what is a fabulous free amenity, perhaps even make the pool itself slightly larger. At all costs leave the open access to the beach and views.
Skateboard park please
Skate Park
skatepark
skatepark
skatepark
Skatepark
Skatepark
Skateparks
Small improvements for children to enjoy the facility
Small scale and economically sustainable.
Small scale sealife centre.. recalling on our lost cockle history here in South Wales. Would also help promote the market in Swansea city centre.
So popular with families and well used during the summer months - to even think about changing this would be a disgrace.
So useful for sunny days with the family, small, user friendly, ideal for spending time with young children, great for a paddle and easy access to the sand.
softplay area,
Some decent toilet facilities and leave as is.

Some Electric Vehicle charge points are needed
Some kind of indoor activity centre .. Live sea discovery exhibition ?..
Some parking for disabled would be beneficial, I've not been able to go around here as there's no nearby parking, I don't feel comfortable parking on the double yellow lines as it's a main road, and the land train is not suitable for wheelchair users.
Some sort of divide between the lido and the cycle path
Something that complements the facilities already makes sense
Something to interest parents while they watch their kids.
Something which could be used over a greater proportion of the year than the present lido would be good, but if you are going to provide any sort of cover or shelter it shouldn't be a major development.
Some more facilities would be useful needs to be retained as an open public space, need to be more flexible about opening times, often closed if we have an early warm spring. Maybe heat the water
Specific BBQ areas which would less impact on the environment around the lido
Sports and Leisure facilities or keep it green. No more housing or anything to interrupt the vista.
Sports hub for bike hire and improve lido. You could add a few units here as it has a good car park over the road.
Such a great location for families to enjoy a day out. Easy to get to even without a car. Sea front will be spoilt if development goes ahead.
Sufficient already
<p>Swansea Bay Promenades Group - Response to Swansea Council Consultation on Seafront Sites</p> <ul style="list-style-type: none"> <li>□ What we have today <ul style="list-style-type: none"> <li>o Iconic views from the road as you drive from the centre of Swansea to Mumbles and back the other way.</li> <li>o A feeling of being by the sea and in the country at the same time as you walk or cycle along the promenade between the centre of Swansea and Mumbles</li> <li>o Access to a multi purpose green space currently used for dog walking, picnics and the siting of memorial benches and trees.</li> </ul> </li> <li>□ What do the Council want <ul style="list-style-type: none"> <li>o To raise income from the sites</li> <li>o To provide more amenities for residents and visitors by utilising the sites</li> </ul> </li> <li>□ Issues to consider <ul style="list-style-type: none"> <li>o Small scale commercial developments (eg. Café, bike hire etc) will raise very little from an annual rent</li> <li>o Poorly sited commercial developments will detract from the iconic views</li> <li>o Poorly sited commercial developments will damage existing businesses and ultimately not increase the provision of amenities</li> <li>o Car parking provision must be adequate or businesses will fail. Key currently successful businesses (Verdi's, Castlemare, Langland Brasserie, Oyster Wharf) all benefit from large car parks.</li> <li>o Current traffic congestion problems will increase</li> <li>o Over-commercialisation or intrusive built development will damage the fabric of the attractiveness of the area which attracts visitors in the first place.</li> </ul> </li> <li>□ Questions and Comments <ul style="list-style-type: none"> <li>o What additional amenities are actually needed/ wanted</li> <li>o Why have such amenities not already been provided by the private sector if they would be commercial viable in the long term</li> <li>o Mumbles has many entrepreneurial businesses- some successful, some not so successful " but wherever a gap in the market is spotted someone will have a go at filling it.</li> <li>o The large number of residents and visitors means any new business is virtually guaranteed an initial footfall and then it is up to what the business has to offer</li> <li>o The Council does not generally need to intervene in that business model.</li> <li>o Where the Council can offer attractive locations then obviously that potentially means they could obtain a reasonable rental income although outside the mainstream tourist locations new businesses may well require some Council start up help " thus delaying any net financial benefit to the Council.</li> </ul> </li> </ul>

take down ugly barriers around the lido. Stop building and doing work and having machinery/orange tape around. Stop doing constant alterations to Swansea that slow down the roads.
Take more enjoyment for our kids
test
test
The Blackpill Lido area is already well served with facilities and needs no further development.
The Blackpill Lido could be improved without encroaching significantly into the green open space that's part of it. It needs improving and to be open for longer hours as I heard it wasn't ready for use over Easter this year. Adding new play facilities of some kind to the surrounding grassed area would be ok, for example. The site might also be able to accommodate an additional small, discrete single storey building. This is one of the key green open spaces along the seafront. We need to consider and understand what's special about the nature of the area for residents and tourists. Literally it is all the green open spaces, trees and natural habitats and the vistas these provide that make visiting, walking, running and cycling around the coast from the slip bridge to Oystermouth Square something special. Destruction of any part of this would be considered an act of vandalism and desecration, especially with any significant new building (bigger than a small, discrete single storey building on this site) added.

Destruction of any part of this would be considered an act of vandalism and desecration, especially with any significant new building (bigger than a small, discrete single storey building on this site) added.
The blackpill lido is an asset - should be opened up in time for the first bank holiday - Easter - and not left to half way through the season until it can be accessed. More play facilities. We already have the junction, garage and post office - no further facilities are required
The Blackpill Lido site is already a very popular facility used by many families (despite the derelict image portrayed by the photograph selected for the purposes of this consultation) and achieves 4.5/5 on Tripadvisor. There are no obvious revenue generating opportunities for this site that would not have a detrimental effect on existing businesses. Enhancements could include integration of an education centre, which could be used to promote the foreshore, environmental issues, Clyne Gardens and the history of the area. Public ♠?olitter-pick stations♠?♠ could be provided as done in Weymouth for example, where the public can use the facility to do a 2-minute litter and upload a photograph onto social media. The design of many of the existing bins along the foreshore could be improved to incorporate recycling facilities and make them bird/pest-proof.

The existing cafe, the junction, shuts too early. Opening hours should be extended. The children's playground needs to be updated. Look at the playgrounds at Aberavon seafront which are always well used.

The Harris fencing that goes up looks awful. Surely another option could be used here whilst retaining the children's water area. Possible site for a cafe/bar with a terrace

The infrastructure cannot support further development. Finish off the mess in the City centre and stop developing everything into student accommodation

The Junction cafe is a popular venue and fulfils the need for a cafe along the front at this location. The Woodman pub across the road is another successful business that provides a restaurant as well as coffee. The lido itself is popular in the summer but if a dome was built over it there would need to be an expansion to provide space for adults to have cover whilst their children used the facility. I can not envisage people using such a facility in the winter months. Parking would be a problem, people would not want to use public transport in bad weather to travel when the LC2 is available. What would happen to the RSPB hut?

The kids and families need it improve the facilities by all means

The leisure area could be improved, but not extended.

The lido (when it is open) is lovely for younger children. I do always think that it's a shame it doesn't open by Easter however. My children love a splash park and, aged 10 and 7 they are now bored with the lido. We would love to see an extension of the lido to incorporate a splash park, such as they have in Cyfarthfa Castle (Merthyr) and Victoria Park in Cardiff. We have travelled from Swansea to visit these on a number of occasions.

The lido at Blackpill is always busy in good weather and the paddling pool is very popular when it is open. There are a pub, a large cafe and toilets there.

The lido attracts lots of people when the weather is nice, a great day out for children. It should definitely stay, but maybe be improved.

The Lido could do with an overhaul and could be sold for a more managed leisure site but only on the same footprint.

The lido has had a chequered history -the present set up is good as shown by the number of people using it -although it generally starts too late in the year. It is good free entertainment well connected by bus routes for those not wanting to travel as far as Mumbles or Gower. It is well served by the Junction and the post office and doesn't need any further catering facility.

The lido is a godsend for young families and offers a great alternative to the beach. With my 3 young children I would be very unlikely to visit the beach alone with them but I would definitely opt for the lido. It's a much safer environment for very young children. For the council to maximise income from this site then footfall needs to be increased year round. Opening the lido from Easter would be a massive win for everyone. In addition, investing in a more dynamic year-round play space would ensure the lido is always on families 'must visit' list whatever the month. You really have got the lido RIGHT Swansea Council. All that's needed is a little more investment to ensure the quality and variety of provision continues to attract people, especially the current untapped winter months.

The lido is looking tired and run down, during the summer months it is a great facility but it's very limited in its operational time due to the weather. Invest in site and offer other attractions on site for more year round use

The lido should be expanded like pontypridd lido. The addition of an adult pool would attract visitors to the area and boost tourism. There would need to be better toilet facilities and shower facilities.

The lido should be retained but extra facilities which are family orientated would be great

The lido with surrounding play area is great especially for families with young children. There is a refreshment area. What more does it need?

The most popular free facility in Swansea. Leave it alone

The park provision is woefully inadequate considering the numbers visiting in Summer. If it came under a community council, I've no doubt it would be much better.

The possible development of tourist facilities at three sites (Blackpill Lido, Land around the skate ramp, West Cross and Land on the Mumbles side of the West Cross Inn) concerns the West Glamorgan Local Group of the Royal Society of the Protection of Birds. Since 2001 the Local Group has used the ranger hut in Blackpill as a birdwatching centre in the winter months. It is open every other Sunday morning and the Centre promotes Swansea Bay as a Site of Special Scientific Interest (SSSI) and provides information and birdwatching facilities for the public. The area of Swansea Bay from Blackpill to Mumbles is designated a SSSI for it is an important feeding post for migratory each year from September to April and for resident birds throughout the year. According to Natural Resources Wales SSSIs are the most important sites for Wales's natural heritage. They help conserve and protect the best of our wildlife, geological and physiographical heritage for the benefit of present and future generations and each SSSI is protected by law from damage through development or unsuitable management or other activities. We wish to object to any development to the above three sites because, in our opinion, any development would damage the SSSI by increasing human disturbance (noise, lights, more movement on the beach area, dogs off the lead, watersports, etc.).

The return of the Mumbles railway.

The toilets need modernising with more toilet cubicles and washing facilities for the public.

The toilets need modernising with more toilet cubicles and washing facilities. The picnic tables are good so maybe more of them with deckchairs rented out for people to sit for a few hours.

The upgraded pool / cafe is brilliant in the summer. The playground could benefit from being bigger and appealing to all ages, especially those that use the Lido most. Any new facilities should compliment or enhance the existing facilities.

The vert idea is outrageous!!!! This area has been a fabulous place for great children, adults and tourists. Please leave it alone.

The water pool has to be made open and functional earlier in the year - it's madness with weather patterns and better weather from March to June than July and August that it remains closed sso late into our real summer period.

There are plenty of facilities already at this location, what else can enhance it? There is already insufficient car parking in the area and no further capacity for more, also the Mumbles Road is already too busy and doesn't need more traffic. One suggestion would be a proper open air swimming pool rather than the current paddling pool, however, I know that will never happen so leave it as it is.

There is already the junction. That's fine. It doesn't need anything else.

There is enough here as it is

There must be no development here which prevents FREE access to this popular site. On a sunny day hundreds gather here with families - from all round the area, all ethnicities, and no charge unless you want to buy ice cream! Accessible easily by bus as well. Plus there is an established business on the site which would lose out if a big chain eg Costa moved in. Can't understand why this land was even included.

There should be no unsightly fence around the pool; a medium hedge would be OK. Also, any development should be in conjunction with the Junction Cafe which is doing a good job already.

This already causes stresses on the road and parking during the summer period. Its development would possibly detract from access for all with small children as a free entertainment. The upcoming junction with Mayals and the garage already are under pressure from volume of traffic.

This already has a childrens park and paddling pool as well as a restaurant and is absolutely packed on a sunny day - difficult to see how anything else could fit in there

This area could do with upgrading it looks tired and run down

This area gets horribly busy. It just needs more litter bins and people to empty them.

This area has access to parking and pedestrian access with lights etc now. I would not over develop this area as it has access to the beach and offers different opportunities already. The one thing I would do would be to create a PROPER outdoor LIDO like Pontypridd have done - its amazing and a fantastic opportunity!!!

This area is already utilised and loved by Swansea Residents. It should be left alone as a recreational area.

This area is extensively used already but would benefit from a little updating

This area is great for younger children / families. Better fencing for the lido when not in use, the temporary ones are an eyesore. Maybe an outdoor soft play area or a wet weather facility

This area is perhaps the .only one that could do with some improvement. The play area does not have the best equipment and could do with updating. There are adequate food outlets there.

This area is very heavily used in clement weather. There could be further development for amenities, possibly seasonal. Could a salt water swimming pool be located here? That as an addition to the current paddling pool could be a useful addition.

This area is well used by people across swansea who have limited access to beaches. You only want to develop on it because you make no money from the site.

This area needs to be better maintained by the council. It looks shabby around the pool and parts need to be replaced. It is widely used by the people of Swansea who come from all over the city. It has good public transport links. There is already a commercial unit next to it and Subway has opened in the petrol station near by. Better planting and facilities should be looked at by the Council. There could be some sort of bridge to allow people to access the beach without having to cross the cycle path.

This area needs to be developed for the benefit of families with young children. The lido has proved to be very popular in recent years and it would be a forward thinking council who provided amenities for families which do not cost families money just to be able to enjoy a day out with their children.

This could be run as a more commercial venture, it is barely used for over half the year.

This facility should be kept, expanded and improved. It is well used in the summer months.

This is a facility that locals and visitors enjoy. Investment could be sought to improve the existing facility and provide better management. This could be serviced by a proper seafront train service not the current town one.

This is a famous summer destination for many families. It's a perfect way it is. No change

This is a fantastic amenity already and attracts lots of visitors. The only thing worth adding is an outdoor pool for adults to swim

This is a great facility and should stay as it is. No further development as parking etc not good enough to cope. Wouldn't want to see the lido go.

This is a great resource, attractive and popular - but why is the paddling pool hardly ever available? Even if you had to charge for using it (as I guess it has to be manned for safety when its open anyway)? It is so lovely for families, but so an ugly spoiler in the middle of this lovely area when it is dry and fenced in. Why would you not have it open from April (Easter) to the end of September? Otherwise - worse case scenario fill the eyesore in (if it closed), if you can't afford to run / maintain it.

This is a ludicrous idea. The lido and surrounding area is beloved by families and if anything updating or enhancing what already exists would be great but do not take this lovely place away from the thousands of people who flock there every year.

this is a nice area now as it is. maybe add a bit more for younger kids & families. in this area. add a bridge to link to sound path (why did the council ever get rid of the old one!) as this would also ease traffic congestion on the number road by removing at least one pedestrian crossing

This is a popular family asset. Could it be retained and improved?

This is a TREMENDOUS asset to the Blackpill area and enjoyed by many families with young children. My grand-children live quite some distance away and we all comment on how nice this facility is. IT IS A CRIME THAT SWANSEA COUNCIL ARE EVEN CONSIDERING CLOSING THIS SITE. Your thinking beggars belief. Whoever proposed to sell this site off should NOT be in their current job(s).

This is a useful site for young families, existing facilities could be enhanced, it should not be re-developed.

This is a wonderful resource which should be kept & made available during a longer period in the year. for eg should have been available BH Easter Mon when weather good.

This is already heaving with people and the Junction is here which is a very nice place. There is an enormous danger in these plans of making the Path so busy that it is unusable. It is already far too busy!

This is already very well used during the summer months something that warms the water may extend its time of use but keep it simple as it adjoins a bird sanctuary

This is an absolute life line for parents with children and would be devastating if you removed the pool and park. I do however, dislike the recent changes to the park where you have removed the wooden toddler friendly slides with metal. They are very difficult and down right dangerous for the little ones. You really need to start asking the public's opinion on such changes before an out of touch council member of staff makes such important decisions.

This is an amazing facility but the metal fencing that's left up for six months of the year is unsightly. What about something more permanent to be used over the winter months?

This is an excellent attraction but needs to be up graded charge cheap entrance fee so that a warden can manage it properly

This is developed enough at present and should be left free of charge for families to use.

This is invaluable to the local community. I feel that it could be refurbished and made bigger and better to cater for the sheer volume of people that access this facility in the summer time. Aberavon made their facility a lot bigger and it's been really successful!

This is lovely as it is, the pool area could be larger but I wouldn't like to see any permanent buildings added as I don't think there is any need.

This is one of the few places in Swansea that serves the whole city. People from all over Swansea and of all ethnicities use this facility. It is easy to access by public transport. There are already toilets and a cafe and refreshment bar - provided by a local company who have committed to a long term investment in the area. What else could be provided here without taking away what is already much loved and well used?

**THIS IS TOO PREMATURE--what about the suggested JOINT VENTURE DEVELOPMENT COMPANIES--LOCAL REFERENDUM NEEDED on whole approach-**

This is well used facility by local families and unique to the area - it is served by a good cafe. There is no need for other development when the site is already occupied by a well used popular facility.

This lido has been improved over the years, however the opening times of when it's available is deplorable. It should be open more frequently even if it is just weekends during school holidays such as Easter. The council should make better use of a facility that encourages children to be outside in nice weather and spend time with their families.

This needs renovating but should remain as a space for children and families

This needs to remain public property. The lido is very popular in the summer however I am appalled at the ugly fencing in the winter. The cafe attached is not used to its full extent and would close in the afternoon. This is a wasted resource. It needs to be used as a restaurant in the evening.

This needs to stay we are very lucky to have these facilities in Swansea. There is no other free pools for children.

This seems really popular, for families, especially with the younger children. It should be enhanced, improved for the under 5's, better facilities, toilets, changing areas, perhaps some little individual booths for local sellers but not tat, ice cream, snacks (healthy) drinks

This seems very well used already. But perhaps making a small indoor pool facility to complement the existing one for winter use would be good and may make some money.

This should stay a lido and play area. It is much loved and used by us and a fantastic facility for young children. There is nothing else like it locally. Options to maintain its use year-round should be explored. What about turning it into a giant ball or sandpit in the off-season? Even better would be to develop a full-size lido facility rather than paddling pool. These are a huge hit in other cities. The playground could be better developed to appeal to older children as well. As the junction of the promenade and clyne valley trail, this could also be a good bike hub with cyclist's cafe, mountain bike hire business etc.

This site is enjoyed by children, in a time where people are worried that children don't spend enough time outside it seems wrong to continue to remove the outdoor spaces that are dedicated to this.

This site is very popular and crowded with families. There are shops, toilets and car parking close by. Development is undesirable; only maintenance is needed to keep the pools etc safe for children.

This site should not be developed further. The lido is extremely popular and should be open for more months of the year with barriers removed from Easter and water in the lido.

This site should not be developed further. The lido is extremely popular and should be open for more months of the year with barriers removed from Easter and water in the lido.

This site should not be developed further. The lido is extremely popular and should be open for more months of the year with barriers removed from Easter and water in the lido.

This used to be the place to go when I was a child, I remember the boating lake (also how filthy it was, but it didn't stop any child getting in the water). I mention the boating lake as if you took that idea and brought it up to date a little then you could have some great family attractions for old and young. If you were going to dome the entire space, which I think could work if rigorously planned, then you could have a very highly attended space all year round as weather would not be a factor as it could always take place and you could still have the vista of the seafront. It would be an ultra safe environment for families, a great meeting point. Dependent on how much space can be used there. There is a splash pool there, which isn't that old, but never seems to be open and has the most ugly barrier all around it, it looks like a building site. You need a full time lifeguard and to warrant that, you could re-imagine the pool. It needs to be far more interactive, with lots of water obstacles, jets of water, bubbles - a fun interactive place to go with the kids. For the older people, adults and O.A.P.'s there could be chill out areas on a veranda type frontage to the dome, where they have the vista and food available. You could also incorporate some sort of aquatic environment centre, so the kids learn the importance of the coastline, whats in it, how to look after it and what it give it's community in return. room for possible therapist i.e massage, yoga, pilates. A real healthy experience. learning centre

to remove the Lido would seriously & negatively impact on the hundreds of families who enjoy the few summer months there , especially low income families who cannot afford to pay for leisure facilities . The Council would deprive many hundreds of children who may not get to holiday elsewhere of vital recreational & physical activities during their long Summer holidays , people may need to be reminded that not all families ( local or tourists) can sit in expensive cafes & restaurants every day . Revamp the lido & the play area , the Junction cafe does a good enough job , consider exploiting the natural environment that could encourage so many more bird watchers , the National Trust is doing alot more for Rhossili . This site is also an important meeting place for organised charity events , marathons etc , to develop it would remove a hub , a centre for the get together of the community . s

To remove this would be a tragedy. This is very much used by young families during the summer months. This is the very sort of facility that should be made available. Children have used it for very many years. It is completely safe,there is a cafe nearby, as well as safe areas for play, walking and all the activities that young children enjoy and that young parents need to entertain young children at week ends and in school holidays

Toilets

Toilets

Touch this and lose Labour Party members and votes

Traffic congestion around this area is a major problem especially when the sun comes out and everyone parks on the roads and footpath, so again any further development would need major investment in public parking and tchespet transport links.

Train stop

Tram

Trampoline Park

Up grade what you already have.!! Are you foolish? You can clearly see it is loved and well used by young families and kiddies. We need the beautiful views not concrete
Update and replace it to make smart again
Update but keep as is, many places are now sorry that they allowed their traditional Lidos to fall into disrepair. It is unique to Swansea.
Update but leave as is. It is a great place for the kids to play. I would open up the pool earlier
Update the facilities for children - they love it
Update the lido
Upgrade and keep Lido, add more play area surrounding it with zipwires,rope climbs, dventure trail set up such as wooden walls, wiggle posts, low rope scaling sections, stump steps etc
Upgrade facilities to a proper outdoor swimming pool facility
Upgrade present facility without removing the green areas
Upgraded. Looks run down. Beach events.
Use it as it is but open for longer period.
Valuable outdoor playsite very well used. Please modernise and keep. Maybe some extra play equipment.
Very grotty - needs to be re done. Needs new toilets
Very popular should be left as it is
Very popular with all generations as it is
Very popular with families in the summer and the public in general all year round. Perhaps the ugly temporary fencing around the splash pool in the winter could be replaced by attracting stainless steel railings to keep the bikers out. A bird hide to view the winter waders who visit the SSSI site in winter would be nice. Dogs to be kept off the beach all year round because they harass the migratory waders in the winter. The play area needs more swings - 2 is not enough. It also need more slides and maybe a zip wire.
Wave pool
We haven't got much for our tough children to enjoy outdoors don't take this away from them
We love the Lido the kids would be gutted if this went
We should be developing this area for family use not for commercial use.
Well used in the summer months though alot more could be done with the area and looks awful when it's just left with temporary fencing around it for 8 months of year, its now mid may and has been hot enough to use the lido for weeks so can't understand why it's not open. The Lido itself is a great facility but more could be added to the site to improve it.
Well used when open. Ideal for families with young children. The addition of picnic tables and seating would be welcome I am sure.
What about an outdoor and indoor facility, with pools for kids included but also maybe restaurant/bar overlooking it. Parking would need to be included.
What an opportunity to develop an outdoor heated swimming pool with round the year use. Improve existing children's play area.The existing cafe could be incorporated into the development so that the current business is facilitated . All low rise and not intruding onto the bay itself
What is there already is already ideal and little more is required, but what is needed is more car parking nearby.

what is wrong with keeping it as a lido? there is a cafe and a park and a lido - what more is needed?
What is wrong with the Lido. the kids love it there why do you want to change it?
When it is actually clean and operational is a fantastic resource and attraction for families. Modernise and refurb. There is already a popular coffee shop in place
When the lido is filled with water the pool is extremely popular with young families - both visitors and locals - and looks attractive. The car park at Blackpill is over-filled at such times. For the 9 months of the year that the lido does not contain water, it is essentially "let go", with the pool surrounded by fences, which is most unappealing. The pool could be covered instead by customised covers - perhaps featuring designs from local artists of local sites eg Gower beaches, Dylan Thomas etc. A competition could be held to design these - perhaps local schools could take part? These could help promote/market other Swansea destinations, outside of peak season. The Lido site does not require another cafe/coffee house: The Junction Cafe already fulfills this function and competition would impact negatively on them. Perhaps a small mini-golf or indoors activity such as mug painting, for those wet days?
Where will the people park!!!! The lido when operating caused so much extra traffic without creating more
Why change something that works. Do not touch it, leave it alone
Why would you even consider getting rid of the lido, either improve the current facilities or leave alone.
Widen prom add seating
Wildlife haven with sensory area accessible to all abilities
Would be a good place to allow a village of pop-up businesses to use
Would be a good place to allow a village of pop-up businesses to use
Would be a shame to loose the lido, not many free days out anymore.
Would be good to update this area. I believe it still needs to be an outdoor 'activities' area promoting outdoor physical activity.
Would be great if the old railway bridge that spanned the road was reinstated so that when you cycling to/from the Clyne path (as I do everyday as a commuter) you don't have to wait ages to cross the busy road. The cycle path in the area of the lido is confusing and narrow, it could do with being wider and better segregated from the pedestrian paths.
Yed
Yes. Bigger & better facilities needed for kiddies & their families, incl a Cafe (but not a restaurant?). All-weather dome could provide increased useage, plus visual impact as a holiday landmark. Keep the Little Train (+ another one?). If needed, extend 'dunes' c/park into adjacent woodland?

You could connect skate parks via the prom promoting a world class destination.
You need to tackle the marina first before residents move away due to the conditions they are living in with anti social behaviour and not allowed to walk our dogs on a rubbish beach
