

At the SPC meeting in September, reference within reports to the formation of a 'Climate Change Group', to take forward the Climate Change Strategy, was queried, and the Cabinet Member clarified that there was both an officer-led Climate Change Programme Board, chaired by the Director of Place with officers from across the Council involved, and a councillor-led Climate Change Steering Group, which the Cabinet Member chaired and involved cabinet / officer strategic leads. She stated she would share with the Committee the Governance Structure within which these bodies operated.

As reported in paper to Cabinet in November 2020, the Council has reviewed the current policy framework and how this could contribute to the achieve achievement of net zero carbon and climate emergency response. This has been distilled down to 8 key themes that will contribute to this agenda, as outlined in the pictogram below:

The current Governance Structure in place for this work is shown below:
