APPENDIX 3.3 Application of the SBCD Procurement Principles

Programme/Project name	
The Programme / Project ha Principles as follows:	s considered and applied the SBCD Procurement
Principle 1 – To Be innovativ	<u>/e</u>
declarations of Climate Emerg procurement. Adopting an inno	nomic needs of the Swansea Bay City Region, including ency, will require new ways of working and this includes ovative approach to how things are specified and procured, will ts that can be achieved through the procurement process.
a - Procurement approach	
Explain how the project has:	:
	and procurement approaches can help to achieve the long- ct and meet the requirements of Net Zero Carbon balance.
	aking the reduction of carbon footprint a high priority when s and when appointing suppliers.
Shared examples of good praothers.	actice and alternative ways of collaborative working with
b - Procured goods and serve Explain how the project: Has considered if there are a	vices Iternatives to buying new that could offer improved
outcomes.	normalitee to buying new that estate ener improved
Will seek Carbon Offset solut	ions from Tier 1 suppliers.
c – Collaborative purchasing	
	chasing with other projects across the portfolio.

APPENDIX 3.3 Application of the SBCD Procurement Principles

Principle 2 - To have an open, fair and legally compliant procurement process

a) Advance contract notification

Industry has told us that effective communication and early market engagement is imperative so that suppliers and the wider supply chain have advanced notification of future tender opportunities. Early notification and supply chain engagement is a key part of this.

Explain how the project will:

Publicise procurements and use the City Deal project page on Sell 2 Wales to promote City Deal procurement opportunities and events.

Please give details of your procurement timetable, anticipated dates, value of lots, approach taken and framework (if to be used).

Submitted as part of the Quarterly reporting update of the SBCD Procurement Pipeline

b) Wherever possible and appropriate, high-value contracts should be broken down into smaller deliverable components.

Explain how the project has:

Considered breaking down large, high value contracts into smaller deliverable components and will use lotting strategies where existing frameworks allow (if being used).

Principle 3 – To Maximise Community Benefits from each contract

Where appropriate, pursuing Community Benefits as **Core** requirements in major procurement exercises, will contribute to the social, economic and environmental well-being of the wider communities in the region.

Explain how the project:

Has assessed local needs and how it will use procurement to support initiatives that address those issues.
Has developed and will deliver an appropriate community benefits package.

a) Targeted Recruitment and Training

Explain how the project:

APPENDIX 3.3 Application of the SBCD Procurement Principles

Has set targeted recruitment and training (TR&T) objectives
Will actively engage with the Skills and Training Initiative
g van
Will collaborate with shared apprentice schemes such as Cyfle, regional colleges and regionally based training organisations to ensure that the skills are developed and retained locally.
Will work with initiatives such as Workways + and Communities for Work.
b) Commit to supporting the wider regional supply chain
Explain how the project:
Will ensure that first tier suppliers make a contractual commitment to involving the regional supply chain where possible.
Has considered the conditions for sub-contracting in a way that supports regionally based suppliers, consortia tendering, the local supply chain
Has considered how to maximise the use of local materials (in particular, steel).
c) Education, Community and Environmental Initiatives
Procurements should achieve increased educational contributions, environmental benefits and/or community initiatives. This is usually delivered under Corporate Social Responsibility
Explain how the project:
Will encourage suppliers to work closely with local education establishments to provide added value benefits, especially in curriculum and STEM initiatives.
Will encourage suppliers to work with groups or organisations that are supported by the local authorities e.g. armed forces charter, over 50's forum, equalities groups etc
Will achieve additional benefits that address the Climate Emergency and that work toward Net Carbon Zero targets.

Principle 4 – To Use Ethical Employment practices The Welsh Government 'Ethical Employment in Supply Chains' Code of Practice was published in 2017. The Government expects all public sector bodies to sign up to the code and the wider public sector supply chain to adopt it. All projects to adopt the code Explain how Tier 1 suppliers will be encouraged to sign up to the Ethical Employment in Supply Chains code of conduct if they have not already done so. b) Fair and prompt payment through the supply chains to reduce the risk of supply chain failure. This will enable more rapid circulation of money through the economy and the local community. Explain how The project will ensure a reliable cash flow through the supply chain and apply the use of Project Bank Accounts (PBA's). Principle 5 – To Promote the Swansea Bay City Deal As the City Deal Portfolio gains momentum, the need to generate interest and positive awareness of the City Deal projects increases. It is important that the SBCD is promoted at every opportunity. Explain how The project will promote the City Deal through its procurement activities	APPENDIX 3.3 Application of the SBCD Procurement Principles
