	High risk	Medium risk ⊠		Low risk				
<b>Q6</b>	Will this initiative h ⊠ Yes □ N			or) on any o	other Council service?			

## **Appendix A - Integrated Impact Assessment Screening Form**

Q7 What is the cumulative impact of this proposal on people and/or communities when considering all the impacts identified within the screening and any other key decisions affecting similar groups/ service users made by the organisation?

(You may need to discuss this with your Service Head or Cabinet Member to consider more widely if this proposal will affect certain groups/ communities more adversely because of other decisions the organisation is making. For example, financial impact/poverty, withdrawal of multiple services and whether this is disadvantaging the same groups, e.g., disabled people, older people, single parents (who are mainly women), etc.)

This is an internal business system, therefore the impact on external people and communities is low. The programme is made up of internal business users and leads making the key decisions for their areas.

Change management and engagement has been factored into the plan to ensure all internal users get the communications needed. Training was provided and a training and learning needs analysis undertaken.

## **Outcome of Screening**

Q8 Please describe the outcome of your screening below:

- Summary of impacts identified and mitigation needed (Q2)
- Summary of involvement (Q3)
- WFG considerations (Q4)
- Any risks identified (Q5)
- Cumulative impact (Q7)

The summary of impacts has been categorised as low. Whilst this is core business system for the Council it is an internal system and the impact on specific groups is low.

With regard to involvement this is all internal to the Council. Key internal users have been involved in the project, key stakeholders were at an early stage and a change team delivered communication, engagement, training and development as part of roll out.

Well-being and future generations and the five ways of working considerations include:

- The upgrade of the Council's ERP system means core processes will more effectively support frontline services in the longer term
- The upgrade changes ways of working and provides a more resilient platform therefore reducing / preventing the risk of downtime
- Oracle is used by other public sector providers, which aids any future integration
- Key users and stakeholders are actively involved in the delivery and implementation of the project.

The report adheres to the transformation and financial resilience well-being objective in the Corporate Plan - so that we and the services that we provide are sustainable and fit for the future.

The risks surrounding the project are considered low as the system is now live.

With regard to the cumulative impact of the project, there will be changes to processes and ways of working as Oracle Fusion develops. However, these changes are internal and would be considered as overall improvements.

(NB: This summary paragraph should be used in the relevant section of corporate report)

## **Appendix A - Integrated Impact Assessment Screening Form**

Full IIA to be completed	
□ Do not complete IIA – please ensure you have provided the relevant information above to supposit outcome	ort this
NB: Please email this completed form to the Access to Services Team for agreement be obtaining approval from your Head of Service. Head of Service approval is only require email.	
Screening completed by:	
Name: Sarah Lackenby	
Job title: Head of Digital & Customer Services	
Date: 6 <sup>th</sup> September 2023	
Approval by Head of Service:	
Name: Ness Young	
Position: Director of Corporate Services	
Date: 25 <sup>th</sup> September 2023
